

# Opt Can

Opt Can is a design and community project that supports Canadian businesses, services, products, workers, people, and culture.

All designs are 100% free to download and can be distributed how you see fit (digital logos for your social, posters for your storefront, stickers for your car, whatever). As long as you don't directly sell a logo on a product, we're good.

Download includes an .ai and PDF file with 10 logos in vector format as well as PNGs of each style.

The Opt Can name and all graphics created are the copyrighted work of Brock Ellis and Jonathan Johnson. Designs are free to use, but donations are welcome to help us print and ship stickers across Canada (send us an e-transfer).
