

Alpine Allure

Inside Range Rover House Whistler's Exclusive Winter Retreat.

By Sydney Goldhawk

Situated in the heart of Whistler's stunning Alpine landscape, Range Rover House invited guests to an exclusive retreat for a week of immersive luxury experiences. Designed for those who appreciate the highest level of refined craftsmanship, the itinerary encompassed a wide range of cultural moments, wellness treatments, and unparalleled hospitality.

With a range of on- and off-road driving experiences on a variety of winding roads and off-road terrains, guests were invited to test drive Range Rovers latest models. Following the drive, guests experienced an engaging Design Masterclass where they created personalized sketches of their dream Range Rover. To further represent the craftsmanship of the brand, guests were extended access to an online configurator with samples of paint, fabric, leather, and trims on display.

This year's retreat also saw the Canadian debut of The Range Rover Sport SV Gaea Curation, which comes complete with custom colour-matched Meridian speakers, and bespoke Prior snowboards and skis, for the future owner.

To foster a deeper understanding of the environment and the surrounding community, Range Rover House Whistler invited The Squamish Lit'wat Cultural Centre (SLCC) to share traditional crafts and cultural knowledge throughout the week. In the spirit of championing Canadian artists, the Audain Art Museum presented a curated selection of works.

Also unveiled at Range Rover House Whistler, was The London Collection, a capsule selection of luxury fashion and lifestyle pieces, including lightweight jackets, blankets, scarves, and small-scale sculptures, all crafted with exceptional quality and attention to detail. To complement Range Rover's capsule collection, BVLGARI showcased an assortment of Serpenti timepieces and jewellery, alongside its Octo watches. Guests were also invited to explore the nuances of precious stones in an intimate session with the Senior Director of Education for the International Gemological Institute (ICI).

To celebrate the finest luxury spirits, Range Rover House Whistler guests enjoyed a structured whiskey tasting of Glenfiddich's three most exclusive expressions, followed by a Hendricks Gin Cocktail Masterclass where they learned to craft perfectly balanced cocktails.

Inside The Wellness Wing, fitness recovery experts from Hyperice offered innovative techniques and technologies to create tailored recovery plans for each guest. Following the program, guests sipped relaxing and rejuvenating brews from Tealeaves before making their way to a cozy outdoor cocktail bar surrounded by firepits, fur throws, and espresso martinis from Stoli Vodka.

With its seamless blend of adventure, luxury, and craftsmanship, Range Rover House Whistler provided another unforgettable alpine retreat, leaving guests inspired and pampered at every turn.
