Barcelona

Experience

Nelsen Partners
Architectural Designer
July 2022 - February 2023 | Austin, TX

Contributed to the development of numerous projects by engaging in the design process from conceptual diagrams to detailed drawings. Responsible for designing and delivering high-quality 3D renderings, taking broad, initial ideas and turning them into simple and elegant 3D models. Additionally, optimized models for 3D printing, ensuring precision and efficiency in the final outputs.

Participated in the creation of 2D Master and Unit plans. Actively engaged in client and team meetings to generate ideas for both conceptual and developed projects, fostering collaboration and innovative solutions.

Freelancing and Vizualisation
Architectural Designer and Vizualisation
February 2023 - Present | Barcelona, ES

After working in the US, I moved to Barcelona to explore new opportunities and expand my skills in an international setting. During this time, I focused on improving my abilities in architectural visualization to pursue a new career path.

Education

Fay Jones School of Architecture and Design
University of Arkansas
Bachelor of Architecture
Class of 2022

Estudio Agraph Workshop
V-Ray + Photoshop Architectural Visualization Workshop
July 2024 | Valencia, ES

I had the invaluable opportunity to enhance my rendering and post-production skills through this immersive workshop. During the experience, I learned new techniques and created an image from scratch, significantly advancing my expertise.

Skills

Advanced	Intermediate	Languages
