f3ral.woman

I will never get covid because im made of a different kind of substance. A virus could never track the kind of moves im making as im moving quickly and quietly. Not even the most advanced of people could follow the kinds of moves im making. if a virus attempted to latch onto me it would be left behind in the dust immediately as i am moving quite swiftly and esoterically. Dont expect many people to understand this but real ones will.

We are intent on not letting Omicron disrupt work and school for the vaccinated. You've done the right thing, and we will get through this.

For the unvaccinated, you're looking at a winter of severe illness and death for yourselves, your families, and the hospitals you may soon overwhelm.
