Dear {{firstname}},

As most of you know I'm working on an artist book. In this newsletter I will give you more information about the book and the different editions.

The title of the book is 'Thought Trails'. It will be a hardcover, full colour book containing 108 pages of size 31 x 24 cm.

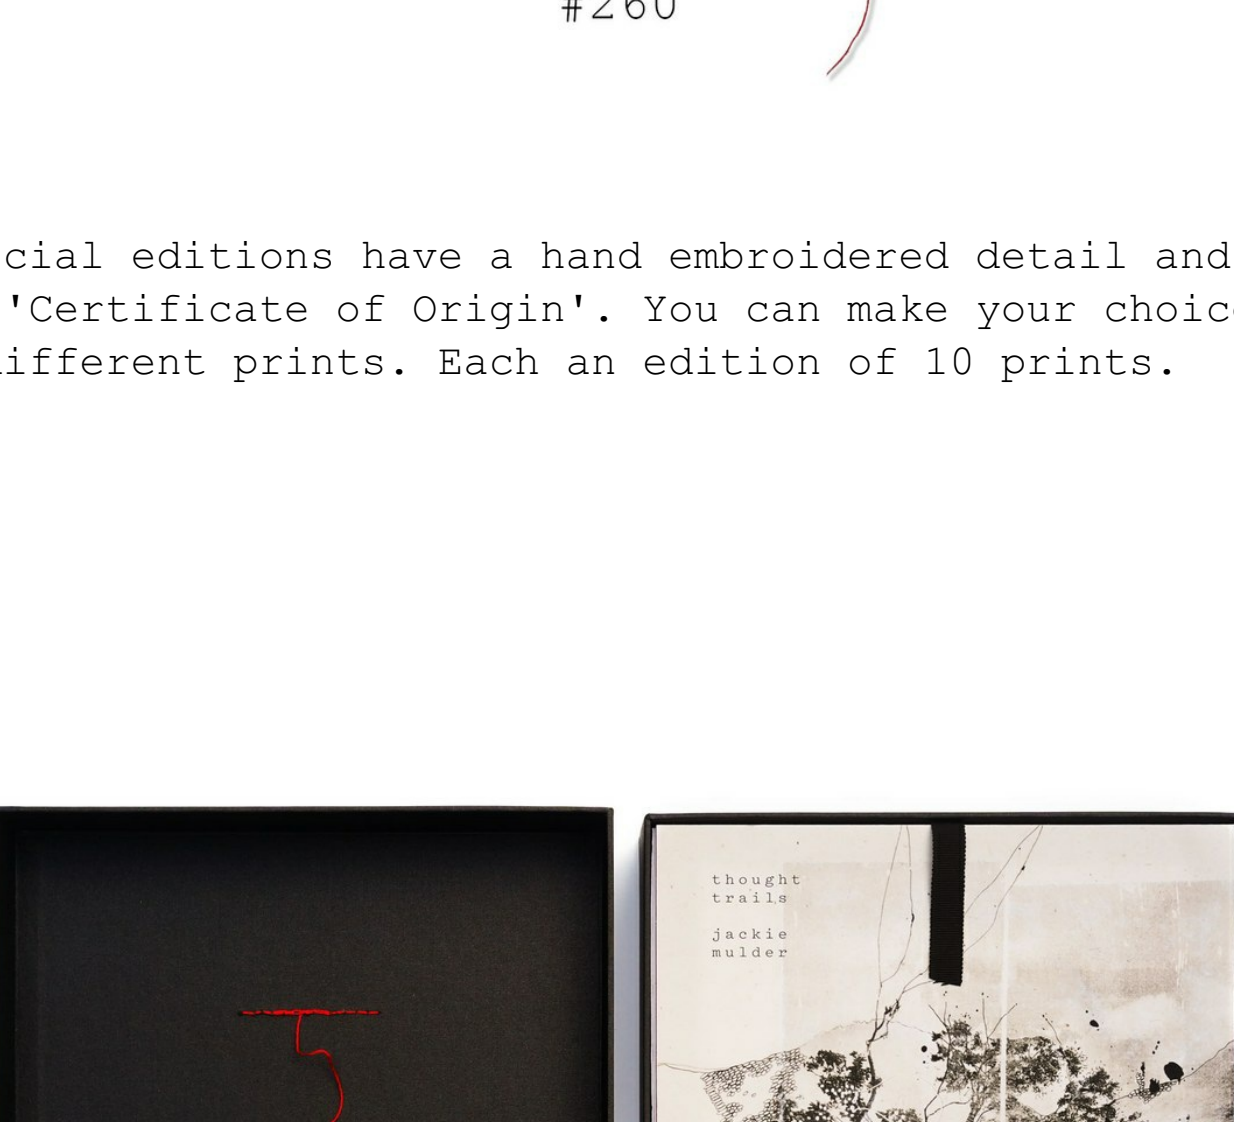

The book will be releasing in April or May of 2025.

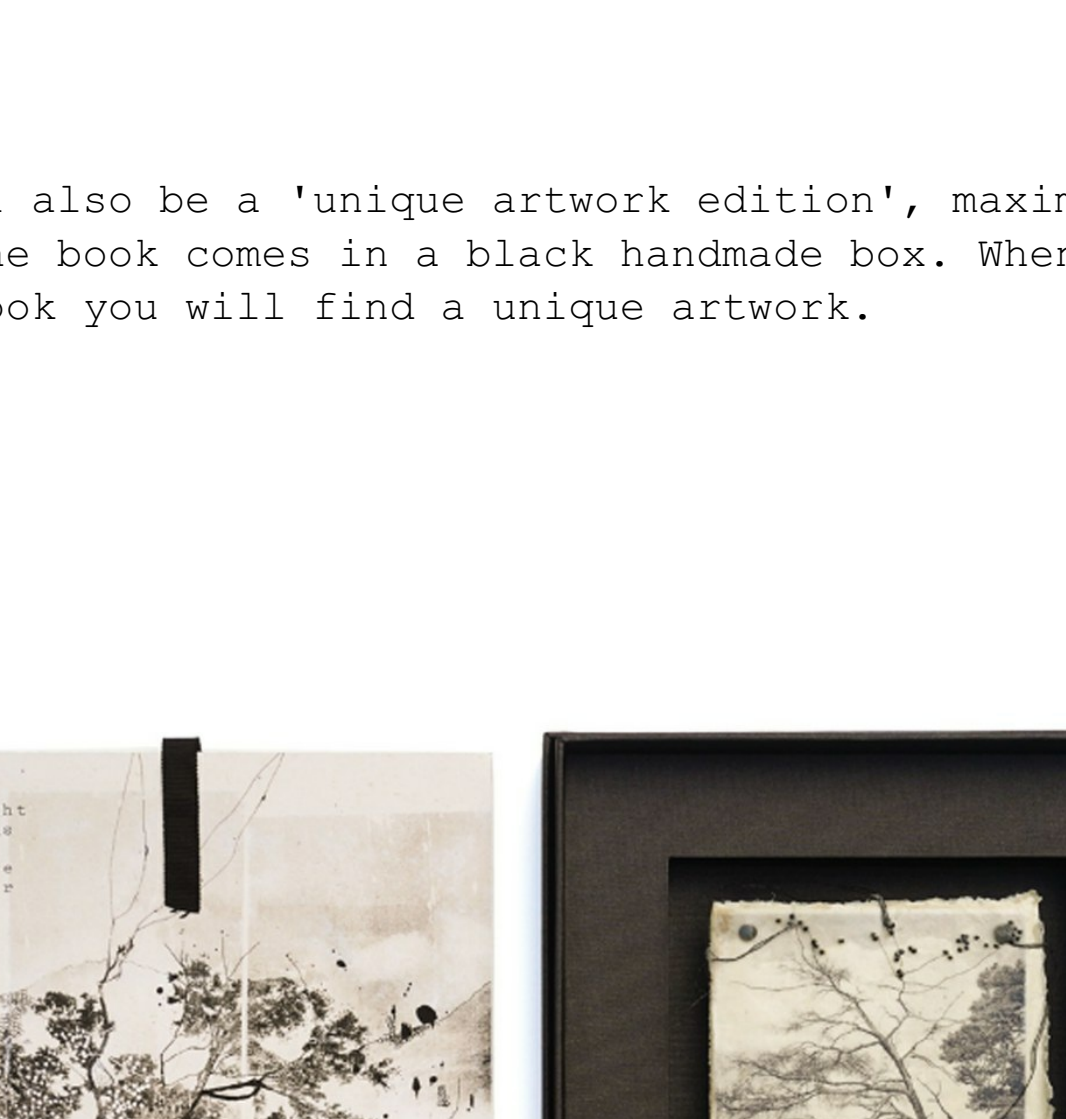

May 15th there will be a booklaunch in photography museum FOAM in Amsterdam. Art historian and writer Elisa Medde, who wrote the text for the book, will be present.

She wrote the following about the book:

'Her first artist book, Thought Trails, reflects on the possibilities of healing pathways and our essential relationship with landscapes and the natural world. Imagined as a wandering trail that unfolds through the turning of pages, the sequence and treatment of the images invites the viewer to step into another world, to be amazed, to make their own story'.

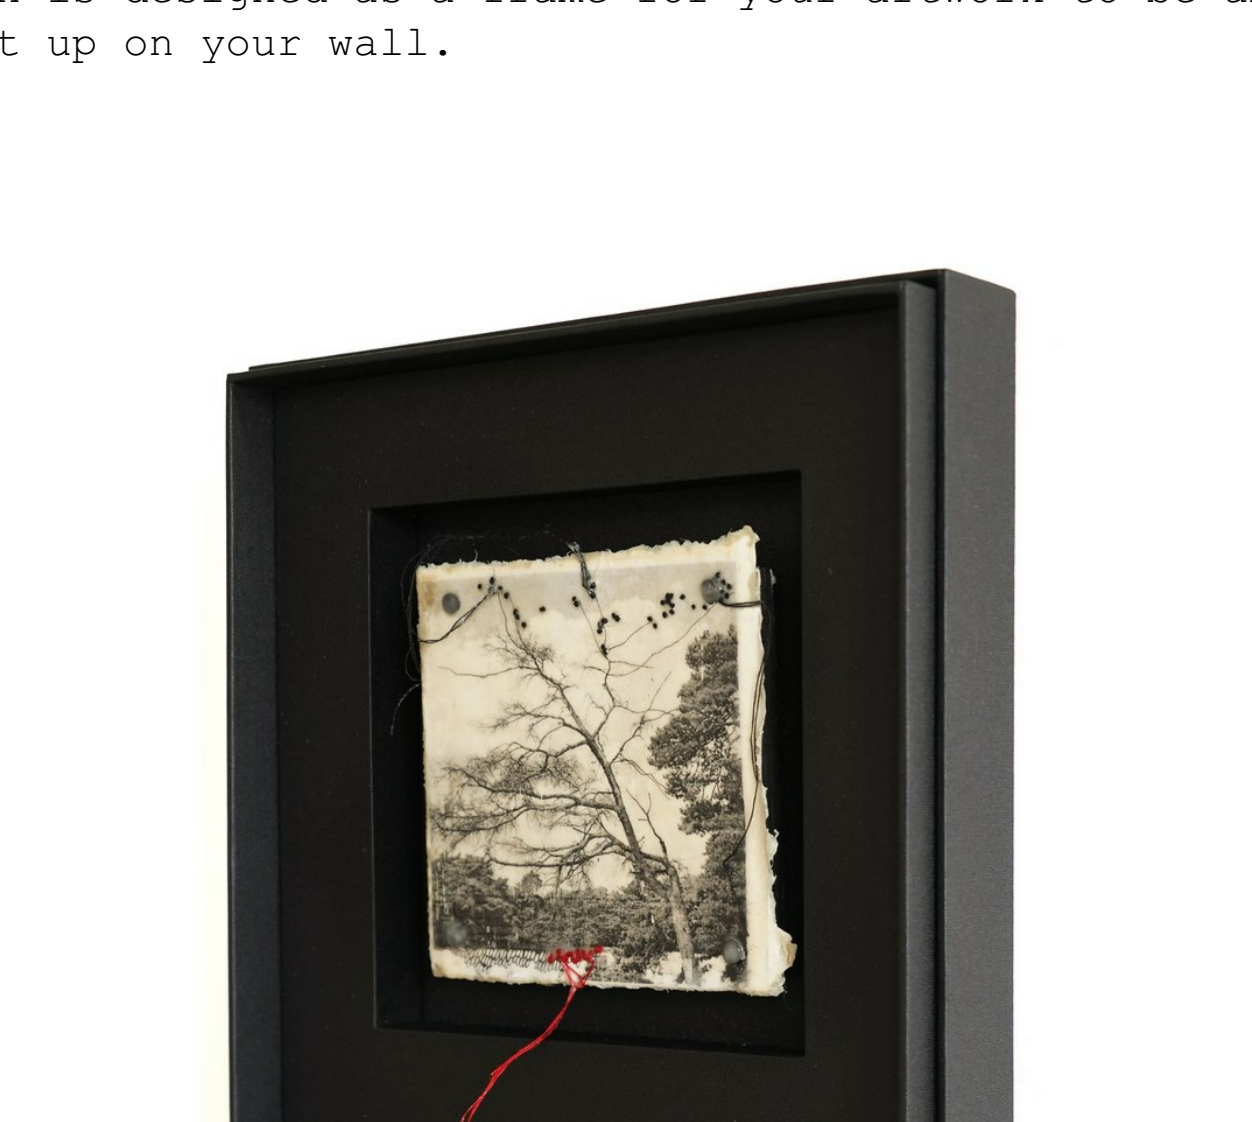

I will also be releasing a special edition which consists of the book and a fine art print (on Hahnemuhle white velvet 270grs), A4 size, signed and numbered.

#260

All special editions have a hand embroidered detail and come with a 'Certificate of Origin'. You can make your choice out of 10 different prints. Each an edition of 10 prints.

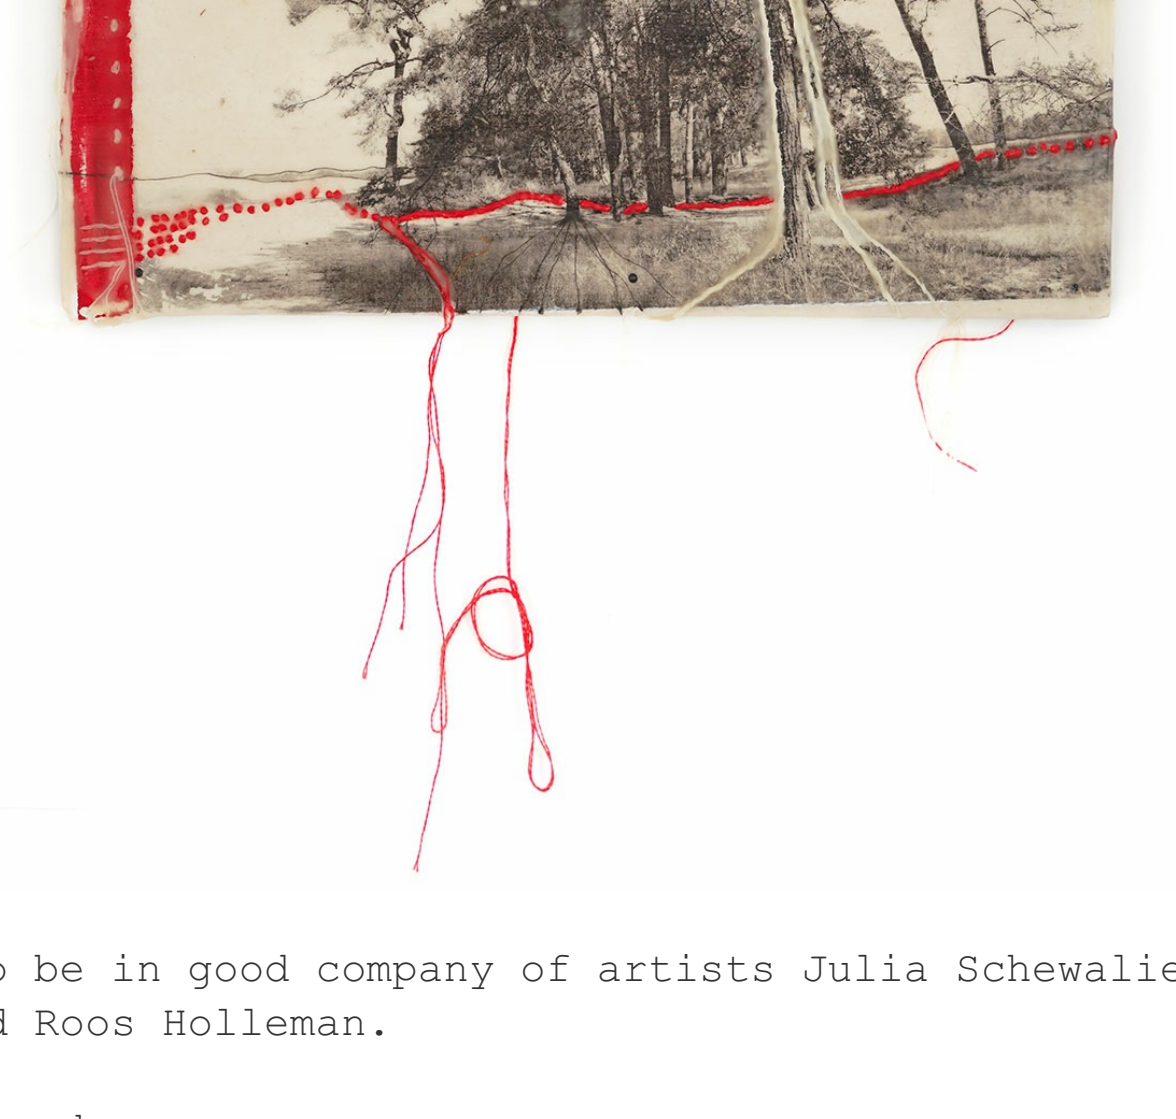

There will also be a 'unique artwork edition', maximum 40 pieces. The book comes in a black handmade box. When you take out the book you will find a unique artwork.

The box is designed as a frame for your artwork to be able to hang it up on your wall.

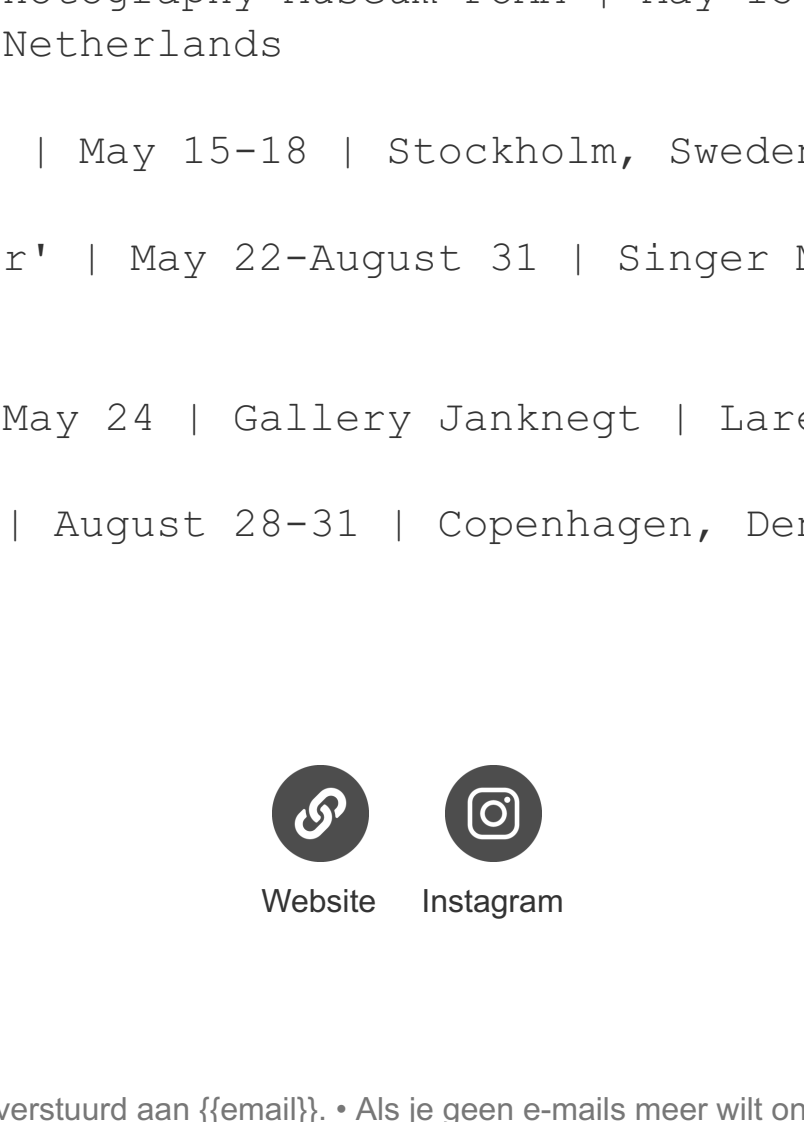

The artworks are unique pieces, 13 x 13cm, photo transfer on hemp paper, embroidery, beeswax, mounted on wood. There will be a signed Certificate of Origin enclosed.

The book is self-published. It can be ordered on my website starting April or May '25. Worldwide shipping. I will inform via my newsletter when it can be ordered.
