Drift Kit 001

For Live 11.3.10 or above

Thank you for purchasing our first Drift Kit, a pack of Instrument Racks designed for Live 11 by **Ableton Certified Trainer Noah Pred**. Combining the new Drift synth that comes with all versions of Live 11 with the latest rack features, Drift Kit's twenty racks are designed to make sound design easy and fun. Just choose the rack most appropriate to your desired instrument and choose a snapshot – or better yet, click the Rand button at upper right of the Rack's title bar to instantly generate a fresh starting point from optimized Macros; then, if needed, adjust, modulate, or automate the Macro dials to fully customize an infinite array of sonic possibilities.

Drift Kit 001 includes:

- **D-Bass:** for thick low-end, aggressive subs, and captivating bass lines
- **D-Drums:** a full-featured Drum Rack for futuristic synthesized percussion
- **D-FX:** for risers, sweeps, dubby sound effects, polyphonic textures, and more
- **D-Hats:** for sizzling metallic percussion
- **D-Keys:** for chords, stabs, and polyphonic synth structures
- **D-Kicks:** for bottom-heavy slammers and thick low-end grooves
- **D-Leads:** for expressive melodies and captivating top lines
- **D-Pads:** for lush atmospheres, sumptuous backdrops, vintage strings, and more
- **D-Percs:** for tight toms, laser tones, and futuristic drums
- **D-Shakers:** for high-end percussion and controlled noise

Each Rack also comes with a Lite version featuring a single, solitary Macro dial to focus your sound design even further: just use the R button in the title bar to randomize a fully new patch.

Installation

Drag the MFA Drift Kit 001 folder to your User Library → Presets → Instruments → Instrument Racks subfolder. Once there, simply drag and drop the any of the included .adg Rack files onto a MIDI track in Ableton Live, or into the drop zone to create a new track from scratch.
