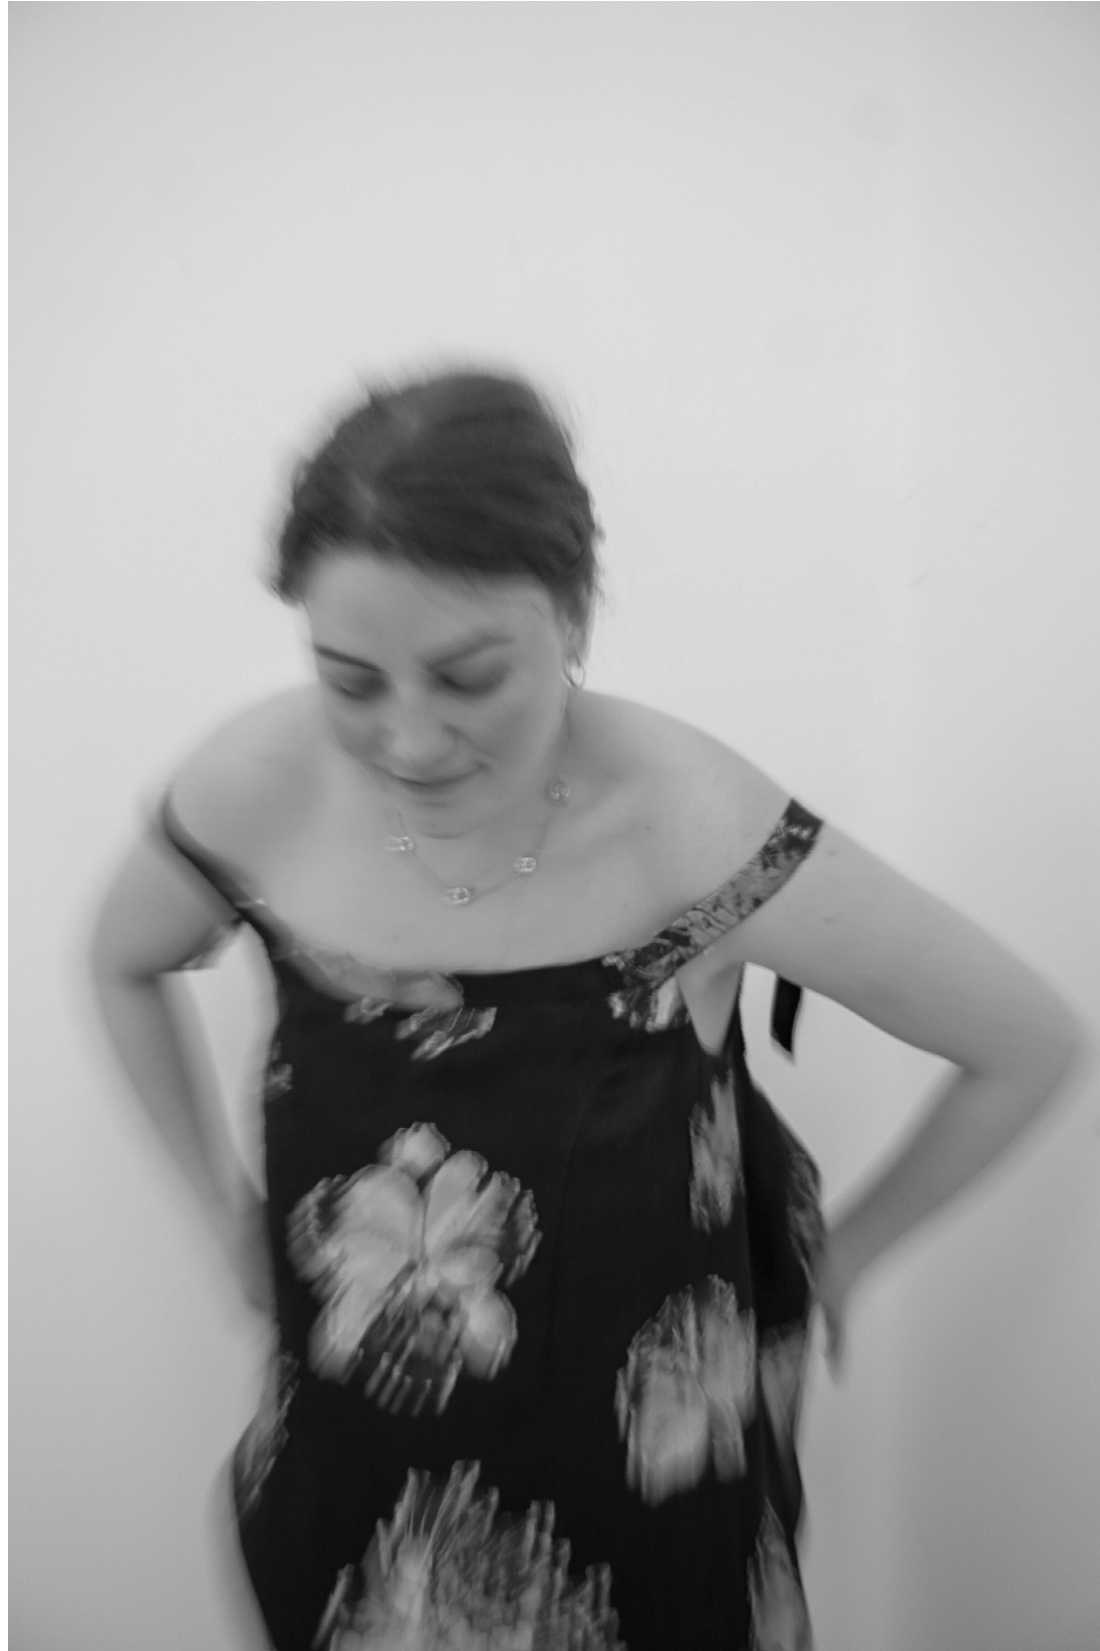

# GRAPHIC DESIGN

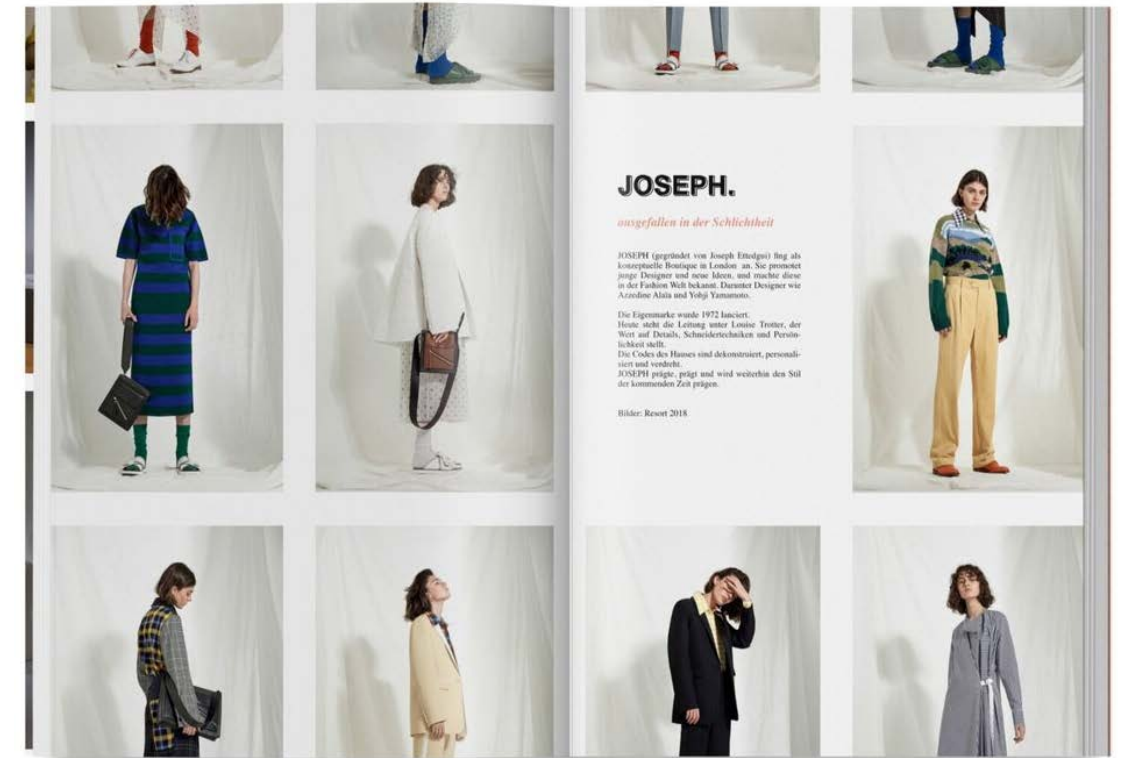

# PHOTOGRAPHY

# STYLING + PHOTOGRAPHY

IPA  
2018

IPA (Individual Practical Work).  
 With the theme 'FASHION IS ART' I created two ideas for a window in the Jemoli Department Store in Zurich. My work consisted of concept development, planning, budgeting, presentation and finally the execution, which consisted of styling, window painting, clearing and finishing.  
 The window is intended to show the fusion between art and fashion by exhibiting fashion as a work of art in a museum. To add excitement to the window, a museum visitor is integrated into the window to admire the works of art.

# WORK FOR ARTISTS

**BA Degree Show Work**  
Mengtong Zhang, 2023

As a degree show helper I was able to support the Graduating Student in 2023. I assisted in the creation of the negative concrete statue in casting and prepped the exhibition space to a clean professional area.

**MA Degreeshow Work**  
Eldar Krainer, 2023

For Eldar I assisted in preparing the wall by transforming the BA Graduation space into a new MA space that shows the artists work in a clean and professional manner.
