Education

Strate School of Design, Lyon 2 (2022–2027)

Product Design (3rd year)

Saint Paul High School, Saint-Étienne (2019–2022)

General Track (Economics and Social Sciences; Mathematics)

As a product design student, I'm looking for a 4 to 6 month internship for my 4th year in this sector, starting in September 2025.

I'm passionate about aesthetics, architecture and objects that combine utility and design (watches and furniture). My interest in photography and auteur cinema feeds my creativity. As a sportsman, I cultivate a taste for surpassing myself, always guided by the desire to learn and create.

Skills

3D modelling : Rhino, Keyshot, Blender.

Prototyping : 3D printing, physical models, working with paper and assembling complex structures.

Knowledge of materials : bio-materials, wood, textiles, ceramics, paper and techniques for creating volume.

Ergonomics and UX : Functional and intuitive design, staging and scenography.

Sustainable design : integrating ecological and responsible issues into design.

Project management : planning, working with craftspeople and creative teams, production supervision and installation.

Graphic design : Photoshop, Illustrator, InDesign, layout and visual storytelling.

Luxury experience : Design for top-of-the-range houses, packaging, window displays and events.

Internships

STUDIO MARIANNE GUELY - SCENOGRAPHY AND DESIGN STUDIO, Paris (2025)

Internship in product design: designing paper objects and backdrops for luxury houses, scenography, packaging and research into materials/forms for shop windows and events. Project follow-up, travel to installations, participation in photo shoots. Experience in high-end design and staging.

ADIE - ASSOCIATION, Paris (2024)

Internship as an Assistant in Communication and Partnerships: creation of communication materials, partnership management, project monitoring, participation in meetings, and entrepreneur follow-ups.

ATMO - SME, Saint-Étienne (2022)

Observation internship: management and operations of a maintenance company, including employee management, client prospecting, quotations, and marketing.

KUBE - ARCHITECTURE & URBAN PLANNING AGENCY, Saint-Étienne (2019)

Observation internship on architectural practice and project management: site visits (construction sites) and introduction to CAD software.
