PRODUCT BREAKDOWN

JUVERN BACKING OPTIONS

PVC HARD BACKING

PVC MULTI-COMPOUND BACKING

PVC+NON WOVEN FABRIC BACKING

GREEN BACKING

JUVERN PERFORMANCE

Waterproof

Juvern materials feature a backing that prevents liquid penetration, ensuring they remain waterproof and resistant to rot.

Non-Slip

The woven design of Juvern flooring inherently provides a non-slip surface, perfect for areas with significant foot traffic.

Indoor / Outdoor

Suitable for both indoor and outdoor settings, Juvern material retains its color and structure even when exposed to natural elements.

Low Maintenance

Juvern flooring requires minimal upkeep, easily cleaned with a vacuum, mop, and mild detergent in warm water. Its compact yarn and seamless weave reduce dirt and debris accumulation.

Durability

Juvern flooring is engineered for exceptional durability, withstanding heavy commercial traffic and daily wear and tear. Constructed with high-quality materials, it offers robust resistance to scratches and impacts.

Sustainability

Juvern’s commitment to the environment, utilizing the wasted garments by having the garements recycled to be use for backing

Comfort

Juvern flooring is designed for comfort, offering a cushioned feel underfoot and antistatic properties to prevent shocks.

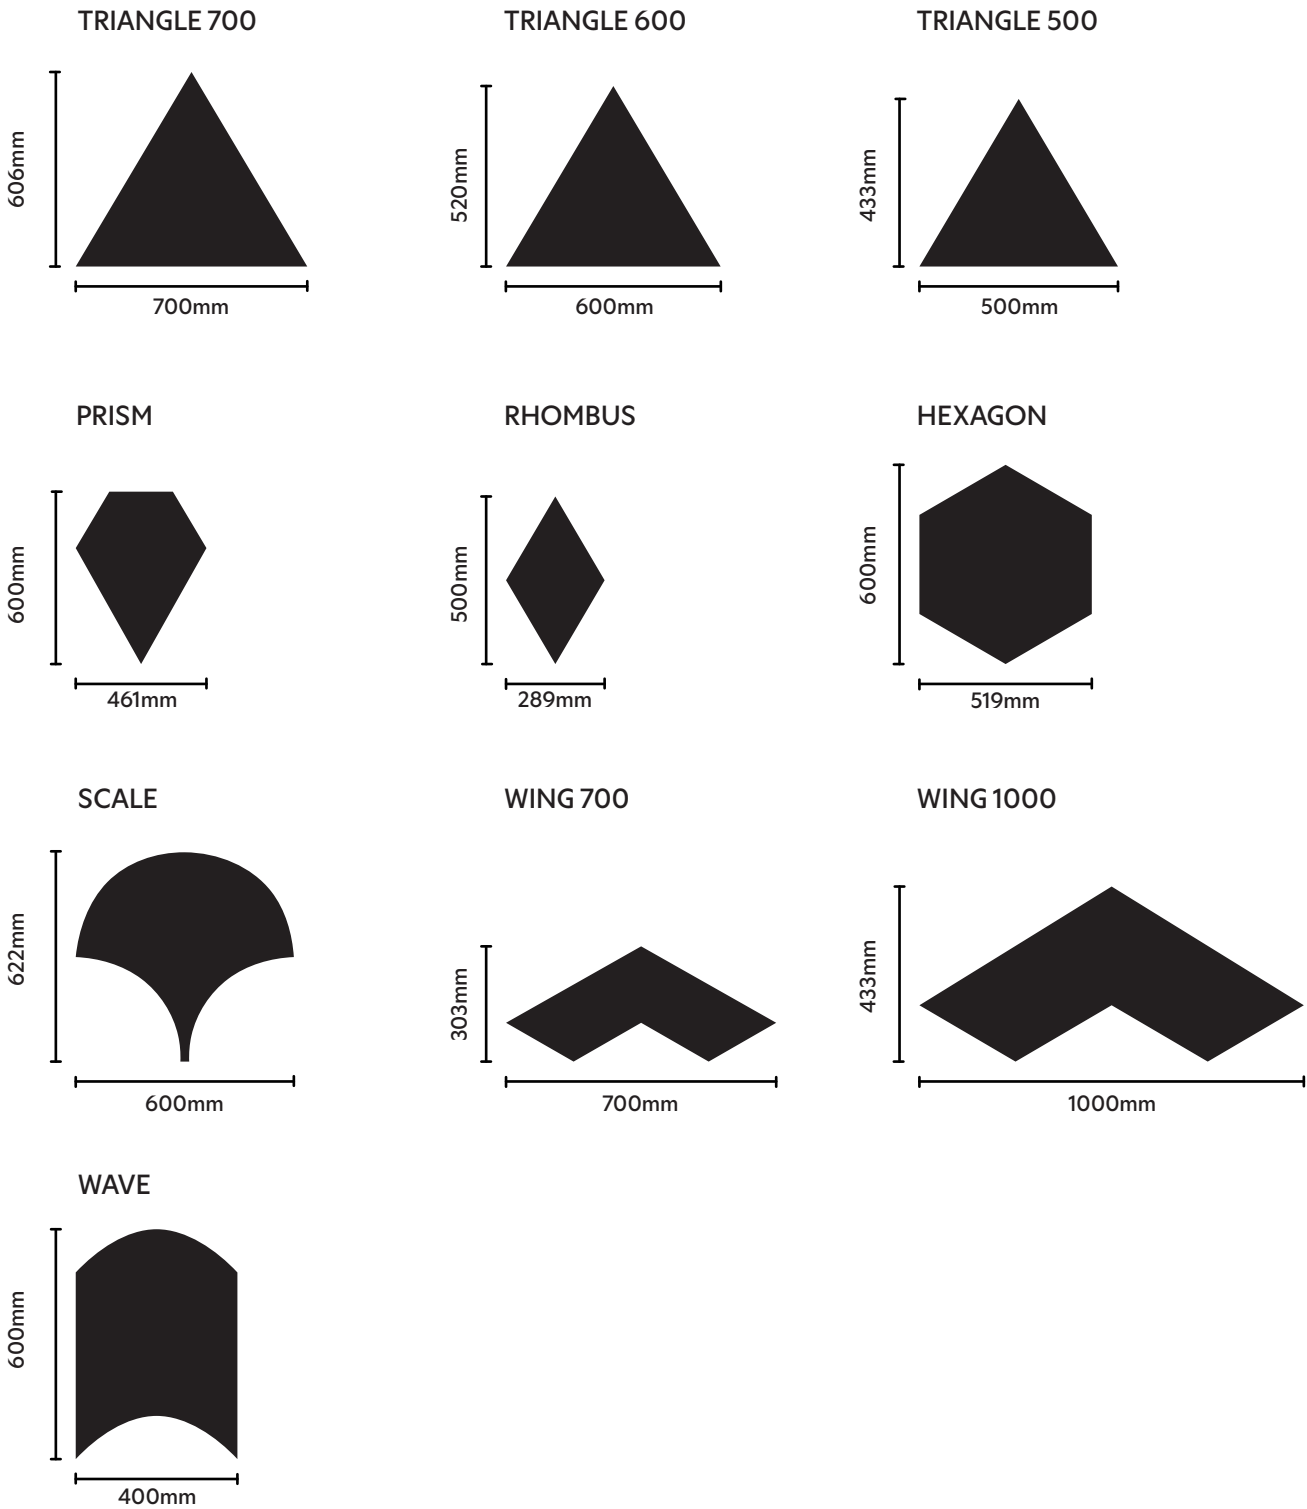

Thermal Insulation

Juvern flooring provides effective thermal insulation, helping to conserve energy by maintaining warmth.

Quality Assurance

Juvern meticulously develops, designs, and manufactures all collections in China, ensuring exceptional quality and detail in every product.

JUVERN CARE

Cleaning and stain removal

Daily Cleaning

- A vacuum cleaner is recommended for daily cleaning.
- Clean with a soft bristle brush dampened with water and dry the floor with a soft microfiber cloth.

Machine Cleaning - Regular Cleaning

- Start by cleaning with a vacuum cleaner.
- Use a brush, warm water, and an all-purpose pH 7-8.5 cleaner.
- Use a water-absorbent vacuum cleaner to soak up water, or dry the floor with a - soft microfiber fabric.

Machine Cleaning - Deep Cleaning

- Start by vacuuming with a vacuum cleaner.
- Remove dirt, chewing gum, and other hard-to-clean foreign objects.
- Use a brush, warm water, and an alkaline extra dirty pH 9-11 cleaner.
- After scrubbing the floor, let it sit for 5-10 minutes, scrub the floor again, and rinse with clean water.
- Absorb water with a water-absorbent vacuum cleaner or dry the floor with a soft microfiber fabric.

Stain Removal

- Soiling should be dealt with immediately.
- Make sure that the stain remover does not damage the vinyl material flooring.
- Use a soft bristle brush for cleaning and rinse with water.
