

# THE MODULAR BRAND IDENTITY SYSTEM

*Built with structure. Designed to grow with purpose.*

Studio Aya Brace [www.ayabraces.com](http://www.ayabraces.com)

# Brand design

*should not be complicated.*

The Modular Brand System is a clear way to build or refresh your visual identity. Instead of one big, unclear project, we work in simple steps that are easy to follow.

You choose a package, see exactly what is included and know the price before we start. The same base is used every time, so your brand can grow in a calm and organised way.

# What this system gives you

1

## Clarity.

Your logo, colours, fonts and layouts sit in one simple system.

2

## Structure.

Tools and templates help every piece of design work look like it belongs to the same brand.

3

## Purpose.

You can start small and add more later, without starting from zero each time.

# What is inside this guide

How the Modular Brand System works	5
Three package levels	7–9
Simple block glossary	10–13
Prices and timelines	14–15
Extra creative services like shoots and film	16

# How it works

# 1

## Foundation

Every brand starts with the same six core elements. This is your visual base.

# 2

## Choose your level

Pick Foundation, Framework or Expansion, depending on how much you need right now.

# 3

## Add focused blocks

Framework and Expansion add extra blocks to support social media, print, content and campaigns.

Photography and motion can be included at Expansion level or added through selected blocks. Larger shoots and films can be scoped separately.

## Why a package?

A package gives you more value than booking single blocks one by one.

- 60-minute discovery session
- Clear file system and delivery checklist
- Reserved start date in the studio schedule

# Foundation and Add-on blocks

*Every Modular Brand System starts with the same base.*

The Foundation package always includes these six elements:

1. Brand overview
2. Logo system
3. Colour system
4. Typography system
5. Layout and grid
6. Example applications

The Framework and Expansion packages build on this base with small, focused blocks.

These sit in three simple areas.

## Creative direction

- Art direction
- Photography
- Illustration

## Design and communication

- Layout design
- Print materials
- Copy and messaging
- Press and media kit

## Digital presence

- Landing page design
- Website design
- Motion assets
- Social media templates
- Digital asset set
- Content plan

# Foundation package · 6 blocks

## *What it is*

A solid visual identity for your brand. Clear, simple and ready to use.

### YOU GET

1. Brand overview
2. Logo system
3. Colour system
4. Typography system
5. Layout and grid
6. Three example applications, such as a social post, poster or simple web layout

### TIMELINE AND PRICE

- 2-4 weeks
- 2 revision rounds
- Price: 3,400€ + VAT  
From 1,800€ + VAT for existing brand clarification and brand book

### BEST FOR

- New brands starting from scratch.
- Small teams who want a clear, confident visual identity.
- Businesses getting ready for their first proper launch or rebrand.

Every Modular Brand System starts with the Foundation package.

# Framework package · 8 blocks

## *What it is*

Your Foundation identity with extra tools for everyday use.

### YOU GET

Everything in the Foundation package, plus two extra blocks.

These focus on design and communication, for example:

- Social media templates
- Layout design for a brochure or deck
- Print materials such as business cards or flyers
- Copy and messaging
- Press and media kit
- Content plan
- Simple landing page
- Digital asset set

### TIMELINE AND PRICE

- 4–6 weeks
- 3 revision rounds
- Price: 4,000€ + VAT  
From 2,500€ + VAT with an existing visual system

### BEST FOR

- Brands that already have a base and want stronger everyday tools.
- Teams who need their social, print and basic digital pieces to look consistent.
- Businesses preparing for a launch or new phase of growth.

We choose the exact mix together so it supports your launch or rebrand.

# Expansion package · 12 blocks

## *What it is*

A full brand system that includes design, content tools, photography and motion.

### YOU GET

Everything in the Foundation package, plus six extra blocks.

At this level, the mix can include:

- Social media template set
- Layouts for campaigns or lookbooks
- Print materials such as posters, flyers or cards
- Copy and messaging
- Content plan
- Digital asset set for web and social
- Press and media kit
- Compact set of brand photography
- Short motion asset, for example a 5–10-second animation

### TIMELINE AND PRICE

- 6–8 weeks
  - 3 revision rounds
  - Price: 6,000€ + VAT
- From 3,000€ + VAT with an existing visual system

### BEST FOR

- Growing brands that want to move beyond the basics and make a clear mark.
- Teams ready to invest in a fuller system where design, content, photography and motion work together.
- Businesses planning a launch or rebrand who want a long-term brand setup, not a quick fix.

Together we choose the six that will support your launch or rebrand the most.

# BLOCK GLOSSARY

Blocks are small, focused pieces of work.

Foundation gives you the six core blocks.

Framework and Expansion add more blocks to match what your brand needs right now.

On the next pages you'll find short explanations of the most common blocks.

# Foundation blocks

## **1. BRAND OVERVIEW**

A short summary of what your brand stands for and who it speaks to.

## **2. LOGO SYSTEM**

Your main logo plus simple variations, with clear rules for how to use them.

## **3. COLOUR SYSTEM**

A set of main and support colours, with all codes ready for print and screen.

## **4. TYPOGRAPHY SYSTEM**

A small set of fonts and clear rules that show how to use them.

## **5. LAYOUT & GRID**

Basic page and frame structure so designs feel balanced and consistent.

## **6. APPLICATIONS**

Three example pieces, such as a poster, social post or simple web layout, that show your brand in action.

# Add-on blocks

*These blocks are used inside the Framework and Expansion packages. They can also be booked on their own if you already have a clear brand base.*

## **ART DIRECTION**

A small visual concept for a shoot or campaign.

## **ILLUSTRATION OR GRAPHIC ELEMENT**

A custom icon, pattern or graphic detail.

## **LAYOUT DESIGN**

Design for up to four pages or frames, for example a brochure or pitch deck.

## **PRINT MATERIALS**

One printed item, such as a business card, invite or product sheet.

## **COPY AND MESSAGING**

Short, clear writing for taglines, headlines, bios or key pages.

## **PRESS AND MEDIA KIT**

A simple branded PDF that combines text and images for media or partners.

# Add-on blocks · digital and content

*More examples of focused blocks used in Framework and Expansion:*

## **SOCIAL MEDIA TEMPLATES**

A small set of easy-to-edit post and story layouts.

## **DIGITAL ASSET SET**

A group of images or graphics ready for online campaigns.

## **WEBSITE DESIGN**

Design for a small website or key pages, aligned with your brand system. Scope and page count are agreed in advance.

## **CONTENT PLAN**

A simple three-month overview that shows what to post, where and how often.

Standard add-on blocks are priced at 500€ + VAT each when booked outside a package.

# Choosing your level
