Call Today-Call Today-Call Today-

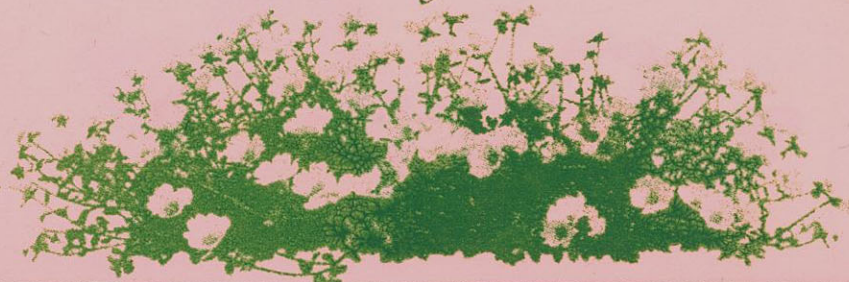

What does it mean when your mom likes my profile picture? Do you think its possible to worry yourself to death? Do you think God made me ugly on purpose? Why didn't you watch my instagram story? I posted it for you. Are you mad at me? What does it mean when you sit too close to me? Who cuts your hair now? Did you mean it when you said I would have been a good mother? Do you remember me screaming at you from the backseat of the car? Why did you steal from me? I would have given it to you. Do these pants make me look fat? Do you remember the first time I brought you here? What does it mean when you let me touch the back of your neck? What do you really want from me? What do you mean "it's over."? What does it mean when they say nothing ever really dies? Do you believe that? What do you mean when you say I look healthy? Did I look sick before? why didn't you tell me? Why am I always the last to know?

*Do I have to
feel everything
for you?*

Do you ever feel like you're not from here? What does it mean when you pour hydrogen peroxide into my open wound? Do you want me to make you dinner? What does it mean when you don't do what you said you would? Do you think I look pretty today? Weren't we the stars in heaven? Did you ever finish school? Haven't you done enough? Why are you always standing in the doorway? Do you think we'll ever be young again? Have you ever seen me in your dreams? How was I supposed to know it was the last time? Are you alone? How's your mom doing? What does it mean when you sleep on the couch? Am I making sense? Has anybody else died for you? What should I wear? Are you telling the truth? Will I see you again? Are you lost? Why do I have to have a body? Have you ever wanted to see my soul?

When is it my turn?

When you call me
ANGEL

Do you mean this?

or this?
