Skills

CNC Programmer for the Furniture Industry. CAD Designer with experience in SolidWorks, AutoCAD, Fusion360, and Shaper3D. Experience in prototyping new designs for the furniture industry - 3D Printing, miniatures, 3D models, technical drawings. Create new SKUs for manufacture and maintain existing SKUs. Professional and adaptable carpenter with experience in high-end residential, stage, and furniture carpentry. Design, drafting, purchasing, and construction. Detail-oriented and production minded. Quick with a tape measure, comfortable with common woodworking tools.

Experience

Scout Design Studio / CNC Programmer

September 2024 - Present, Dallas TX

Programmed CNC Machine for custom furniture manufacturing using AutoCAD, RouterCIM, and SolidWorks. Worked to improve custom upholstered good design by altering frame construction and producing prototypes before executing changes. Optimized manufacturing processes for custom pieces by standardizing repeated parts and shifting some machining responsibilities to different departments. Assisted with purchasing of raw goods such as plywood and MDF panels. Worked with our team to hit deadlines for piece completion. Completed speculative piece design for custom orders. Programmed over 100 custom pieces and maintained existing Scout Label SKUs. Worked closely with assemblers to ensure efficiency of manufacturing and product standards.

Scout Design Studio / Furniture Carpenter

October 2023 - September 2024, Dallas, TX

Worked individually building furniture. Includes dressers, nightstands, consoles, table tops, bases, bars, etc. Milled custom trim profiles, cabinet bases, and legs. Installed drawers and doors. Extensive experience laminating with burl and other veneers.

Higher Level Stairs / Carpenter

September 2022 - Present, Lucas, TX

Worked on new construction and remodeled staircases. Paint and stain grade work. Custom wooden and metal rails. Worked mostly on site, with some shop work bending wooden rails and fabricating metal rails.

Bayer Brothers Sets / Shop Hand

September 2021 - September 2022, Dallas, TX

Worked in shop and on site constructing and installing sets. Light set framing construction, basic cabinet and case good construction, trim work. Introductory level Enroute CNC experience. Some CAD experience. Cleaning and organization duties.
