

12/21/18

To Whom It May Concern:

It is my pleasure to recommend Trajan for employment with your organization. I have known him for over a year from when he worked as a Marketing Associate for Rhino Records.

I have been consistently impressed with Trajan's positive attitude and exceptional productivity during the time that he has worked in the office. Trajan is quick on his feet and a fast learner, which was essential to the Fan Engagement team.

He took initiative on all projects, he organized excel sheets to make systems simpler, he was able to take direction yet still make the project his own and was not afraid to take risks. He made his presence known in the office, which was truly a breath a fresh air.

I've always been impressed with his ability to handle a heavy workload and to work well with his colleagues. He was a great asset to our team.

I recommend Trajan without reservation. I am confident that Trajan would be an excellent addition to your team. I am very grateful for his contributions to our office and feel very confident that he has the intelligence, work ethic, and communications skills to add value wherever he works.

Please let me know if you have need for additional information about Trajan. I would be more than happy to help.

Sincerely,

Jennifer Malka
