About

Devoted and honest designer focused on web and print design. Able to think conceptually and in the abstract while remaining detail oriented. Works well under pressure and in a team. Skilled in Adobe Creative Suite, Microsoft Applications, HTML, CSS, and other graphic design techniques and software.

Experiences

Freelance Graphic Designer

Multiple Clients

May 2021–Current

- **Works independently** for multiple clients to create branding, logos, websites, books, signage, pamphlets, brochures, and more using **Adobe InDesign, Illustrator, and Photoshop**
- Frequently uses **Adobe applications** to plan and prepare photographs, illustrations, graphs, text, and other visual media for use in printed and graphically displayed designs; **sources photographs, illustrations, and other imagery** from stock websites and has created **custom artwork** where appropriate
- Created designs and materials for the **Wild West Hackin' Fest Way West 2022, Antisyphon Red Team and Blue Team Summits, and Deadwood 2022-2023** conferences including **general branding**, custom apparel designs, pamphlets, schedules, large and small scale signage, digital signage, **social media content**, and badges
 - Every design required a combined use of **Adobe Photoshop, InDesign, and Illustrator**
 - All signage designed for **legibility and accessibility**, with a **clear hierarchy** and appropriate **color contrast**

Teaching Assistant

Boise State University / CI+D UX Program

January 2021–Current

- Assists in teaching **Boise State University's College of Innovation and Design UX design certificate**. Tasks include grading assignments, helping students with technical issues, **giving occasional lectures**, and **producing informational videos**

Student Graphic Designer

Boise State Recreation Center

January 2021–October 2021
