Designer by trade.

Climber by heart.

I'm Laura, but everyone calls me Palacios. I'm a product designer, graduated from Elisava, with a focus on outdoor, sports, and textile product design. Currently, I'm expanding my knowledge in this field through CLO3D. My interest in technical textiles comes from my passion for the outdoor world, especially climbing. The rock is my element—it's the meeting point between design and sport, and an essential part of who I am.

Experience
