

THE BEAUTY WITHIN

An Experience Designed Especially for You by Grethell Rasua

Bring beauty into your personal spaces by creating a unique wallpaper design that reflects your individuality, both in concept and material. This process combines creative expression with healthy living, offering a unique result.

INSTRUCTIONS

1. Create Your Design

Use our AI-powered tool to generate the design for your custom wallpaper.

2. Pick a Healthy Recipe Based on Your Desired Color

Select a recipe from our healthy menu. Your chosen ingredients will help naturally develop the color you want.

3. Allow Your Body to Process

After consuming the selected recipe, give your body time to produce the desired tone or shade.

4. Capture the Color

Take a clear photo of the resulting color (e.g., from the toilet paper after wiping the zone). Send this image to us to generate a personalized color palette for your design.

5. Incorporate Materials

Enhance your wallpaper by integrating your real material and gold leaf into the final product.
