

INTERIOR PORTFOLIO

SERVICED ACCOMODATION

Introduction

As an interior designer, one of my specialities is serviced accommodation, I like to blend creativity with functionality to create something eye-catching but also practical and comfortable, with a focus on enhancing the guest experience.

By collaborating closely with clients, I ensure each project reflects their identity and also resonates with the target audience.

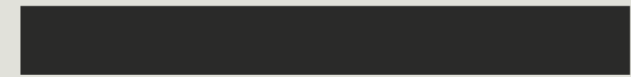

Project 01

CLIENT : BLOK PROPERTY MANAGEMENT

BUDGET £7K

A brand new build 2 bed apartment, it was completely empty when we received the keys. The aim was to produce a modern but comfortable space that would attract all demographics.

Project 02

CLIENT : BLOK PROPERTY MANAGEMENT

BUDGET £2.5K

This project was an older style new build, it was tired but the client didn't have a huge budget to spend, which had to include some white goods and all new kitchen items.

We managed to reuse a lot of her existing furniture and focused the spend on the bedroom areas and refreshing up all of the paint work.

Project 03

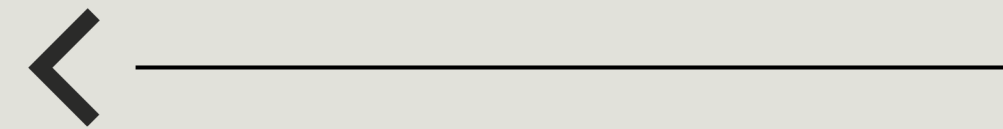

CLIENT : BLOK PROPERTY MANAGEMENT

BUDGET £5K

A charming little two-bed cottage, this property in Helensburgh was a complete refurb which was us strip a lot of it back for damp issues and completely reinstall the bathroom. Th aim was to provide a quirky holiday let that would attract tourists looking to explore the West of Scotland.
