

# Spencer Barnes

---

I'm a photographer based in London, well-versed in both flash and continuous lighting setups.

My skill set covers a broad range, from video editing to professional studio management, darkroom techniques, and film development. Adaptability is a strong suit of mine; I can seamlessly transition between various roles within the studio environment with efficiency and effectiveness.

I have considerable experience assisting artists in studio settings and have a solid background in working with analogue photography, including 8mm Cine film.

## Education :

**Photography, LCC, UAL**

2021 to 2024

## Experience :

**Semi Skimmed, Short film, 2023**

During this shoot, I played dual roles in both pre-production and production, serving as both a production designer and photographer.

**Demeter, Copeland Gallery, 2023**

As the curator of this exhibition, I took on the responsibility of organizing the layout, scheduling, and invitations. Within the span of just one week, I efficiently coordinated everything, ensuring that all artists were satisfied with layout and design.
