HELLOOO! i'M AMELIA

I love what I do; attention to detail and a passion for using design for good are what drive me to become a shareholder in such a vibrant and fast-paced industry. I pride myself on my strategic, systems-thinking approach to a design challenge which allows me to tackle deeper problems and then craft imaginative yet effective solutions.

As an adaptable and confident designer, I am constantly seeking opportunities to learn and grow, while maintaining a keen understanding of design principles and emerging trends. Whether working independently or collaboratively, I thrive in diverse projects spanning marketing, brand identity, and packaging design.

Please get in touch, maybe we can create some fab things together!
