## Experience

**Lake Flato** - Architect I, Designer  
San Antonio, TX • March 2020 – Present

Contributed to all phases of design including concept design, design development, construction documentation, and construction administration. Sketched conceptual ideas and produced presentation materials to support design narratives. Developed technical details and coordinated with consultants, contractors, and internal teams to ensure project integration. Worked on diverse project types such as high-end residential, ranch, hospitality/resort, modular housing, historical renovations, and commercial renovations. Coordinated office's continued education program for two years and began office's material library re-build.

**Olson Kundig** - Architectural Intern  
Seattle, WA • September 2019 – March 2020

Assisted in conceptual and schematic design for diverse project types. Developed iterative and final physical models, produced presentation graphics, diagrams, and layout packages for client presentations, internal reviews, and publications.

**Architectureworks** - Architectural Intern  
Birmingham, AL • Summer 2017, Winter 2017, Summer 2018

Collaborated with project teams to produce renderings, models, and drawing sets. Interpreted and implemented redlines to revise and refine drawing sets across design phases. Field measured and drafted/modeled as-builts for various projects.

**Booth Hansen** - Student & Architectural Intern  
Chicago, IL • Fall 2017

Participated in a semester-long program as a student embedded within an architecture firm. Supported project teams by producing digital models and refining drawings for design development and coordination.
