Alexa tells 10-year-old girl to put coin in plug socket

and 217,436 others

bbcnews Amazon has updated its Alexa voice assistant after it "challenged" a 10-year-old girl to touch a coin to the prongs of a half-inserted plug.

The suggestion came after the girl asked Alexa for a "challenge to do".

"Plug in a phone charger about halfway into a wall outlet, then touch a penny to the exposed prongs," the smart speaker said.

i cant wait for 2008 to end

The joke explained:

The text says "I can't wait for 2008 to end" when it isn't really 2008! This is very funny because it presents the reader with information that is completely false!

What if I told you that the only reason I am bald is that I'm afraid of a Ratatouille situation? What if I told you that I'd have so much hair if not for the fear of a rat using me like a puppet? These are modes of control, Neo. This is how they manipulate us. Rataouilles, Neo.

Your **BAG-FREE** Life Begins **NOW.**

Each year, 100 billion Bags are used to lug **objects** to various **locations**.

Bags cause rampant **shoulder** and **arm** strain, they **droop** and **sag** in unsightly ways, and sometimes they even contain *the bodies of perished strangers*.

This is completely untenable. We have "hands" for a reason. Take the **#BagFree** pledge, and we can make sure that in 2022, Bags do not get used.

 Rock in the pool
 So nice and cool
 So juicy sweet!
 Now we wish
 To catch a fish
 So juicy sweet!

Remember. Power strips are not equipped to handle the extra current flow needed to power a space heater and can overheat, eventually catching on fire. Be safe this Winter, fellow Kings.
