about me

As a student of digital media arts, I am proficient in the basic functions of most graphic design software. Additionally, I have incorporated elements of 3D modeling and augmented reality into my designs. My interest in art has also led me to create numerous paintings.

I am currently living in Manchester looking for some designer work

BEAUTY OF

REPRESENTATION

Graphic project-Poster design

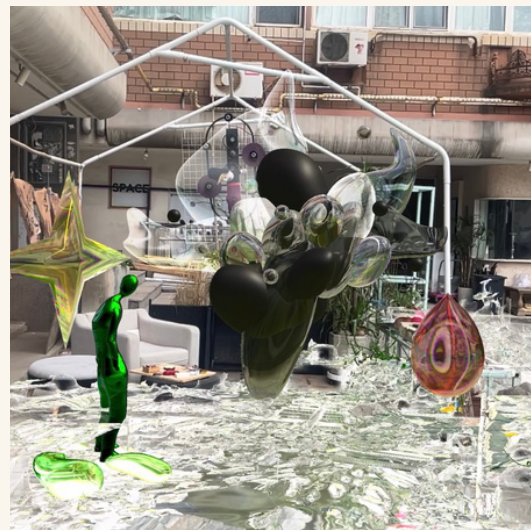

This is a set of poster works I prepared for the Chinese design competition, which combines traditional Chinese art and calligraphy to reproduce the classical beauty.

UI&UX Design-Interactive device

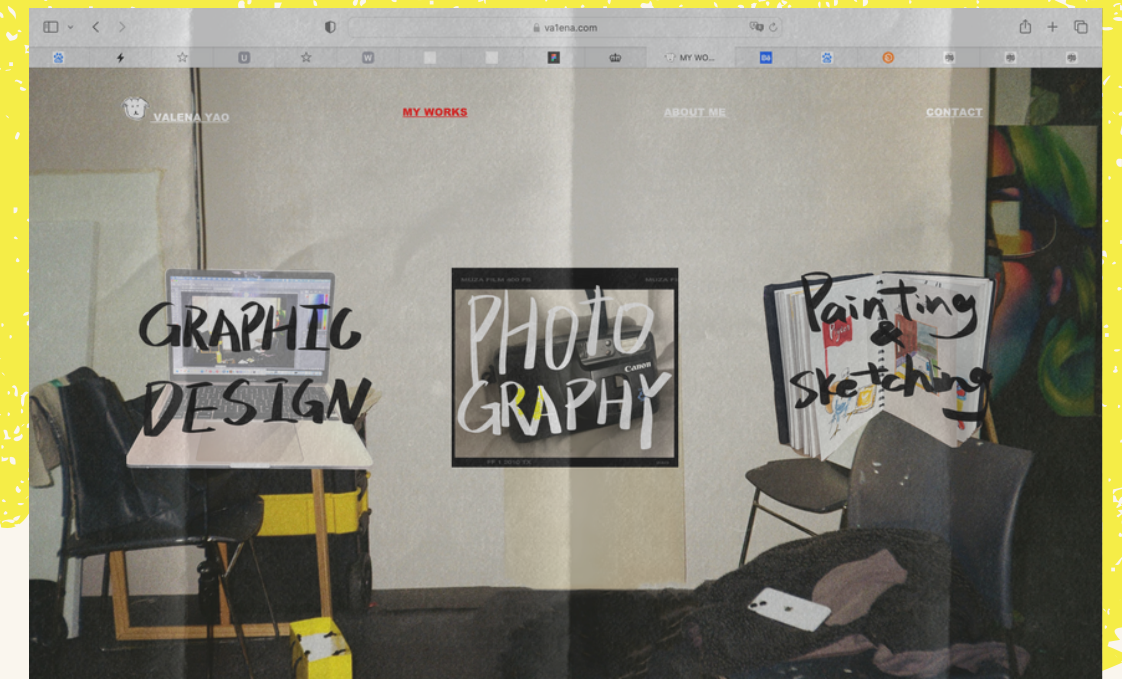

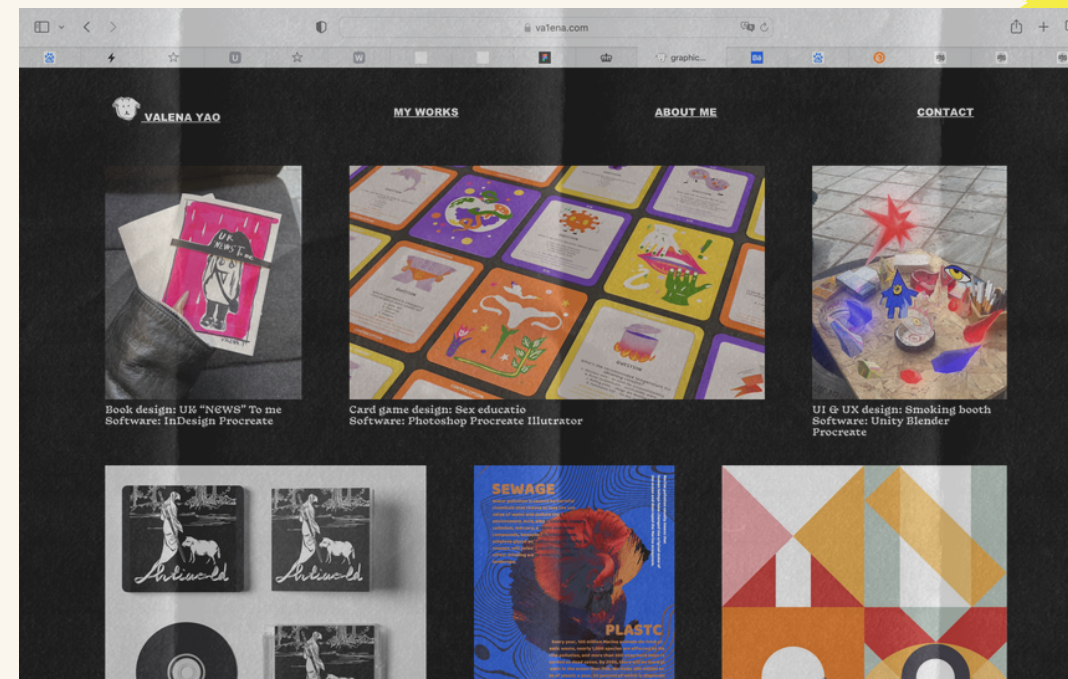

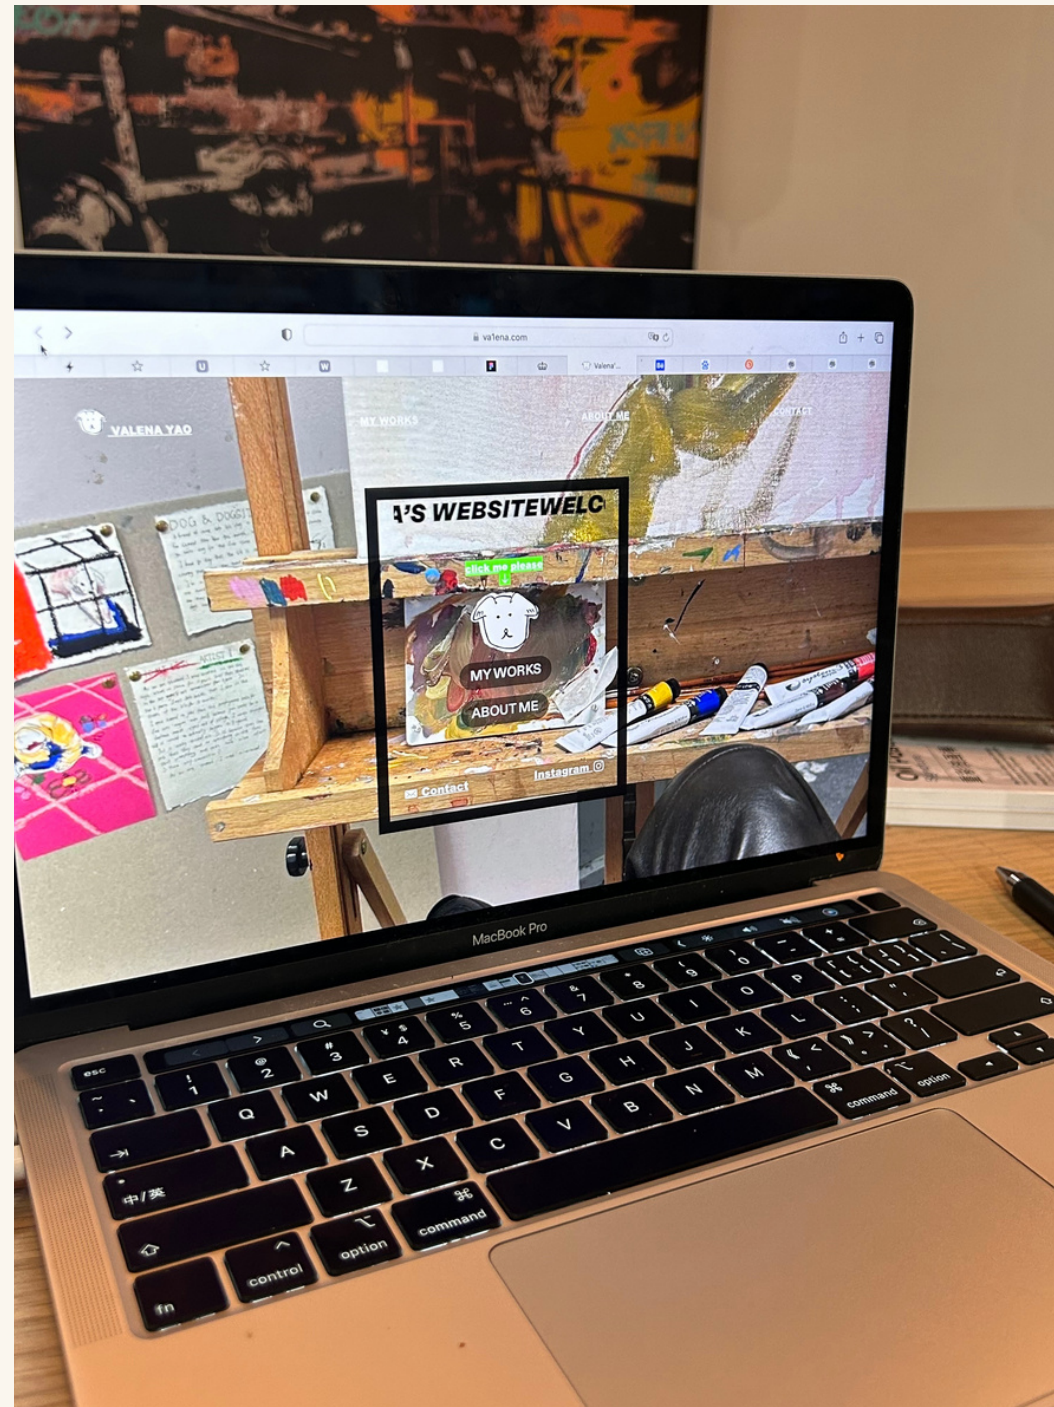

The Smoking shelter is an installation in collaboration with the Chinese art community. A live event that uses 3d modeling and augmented reality to reflect on the emergence of technologies such as AI

PERSONAL WEBSITE BUILDING

UI&UX design-Website

I used the self-creation tool to build my own personal designer website to display my works.

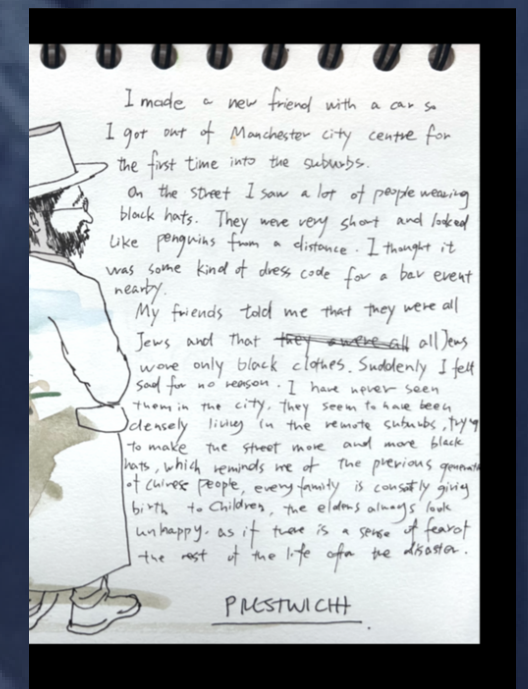

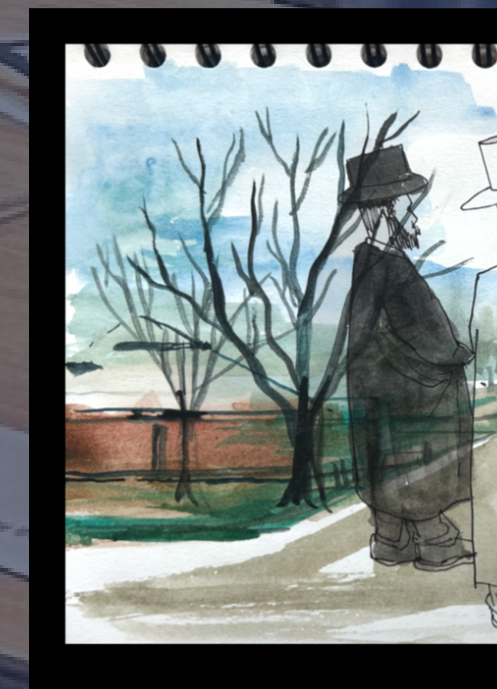

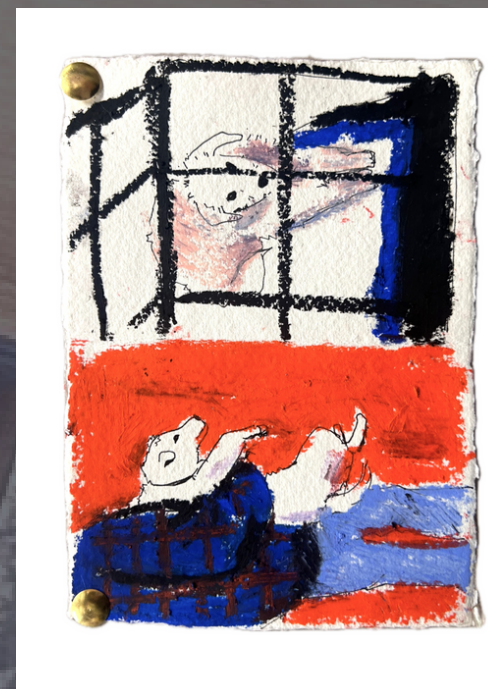

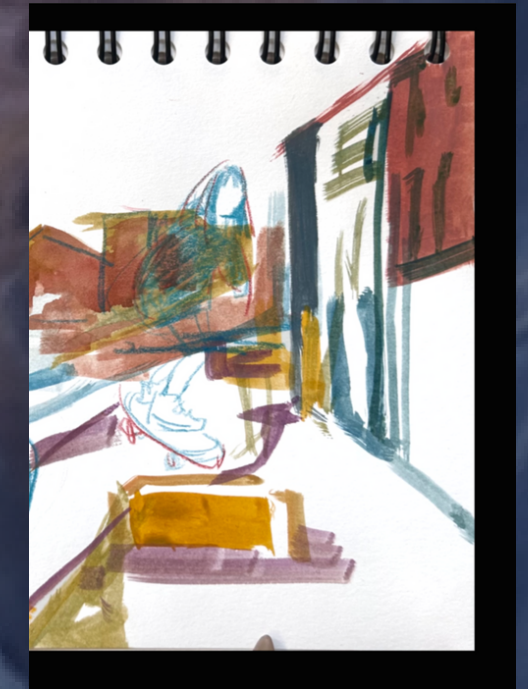

UK "NEWS" TO ME

Art work-Zine

UK "NEWS" To me is a zine art work exhibited locally in the UK. The illustrations and sketches I recorded during my life in the UK were collected and edited into a small book of characters.

Valena Yao
Zine A6 24p (including cover page)
since I arrived in the UK last
I recorded my
experiences and adventures here, and
I've compiled them into an illustrated
zine. The cover of the zine is shaped
like a hat, inspired by my habit of
exploring without an umbrella and
always wearing a cowboy hat at the
beginning of my journey
in England.
