WORK EXPERIENCE

Digital Scholar

October 2024 - Present

User Experience Consultant

Remote

- As UX Consultant at Digital Scholar, I have worked together with a small team of UX professionals and Digital Scholar's lead designer to conduct a thorough usability study and deliver an informed redesign of their open-source content management and digital collection service, Omeka S
 - Created and delivered a final presentation with design solutions tailored to expand Digital Scholar's user base
 - Conducted moderated interviews with 10 users to gather insights on Omeka S usability, in order to identify key pain points and improvement areas

Pratt Institute Office of Education Abroad

May 2024 - October 2024

Graduate Assistant

Brooklyn, NY

- As an Administrative Assistant at the Study Abroad Office, I worked together with students and faculty at Pratt Institute in order to smooth the coordination of and expand the scope of the Study Abroad program.
 - Assisted key stakeholders in the creation of new Study Abroad programs by using software and web tools such as Excel, Figma, Canva, and Terra Dotta.
 - Organized and led meetings with faculty and students about program negotiations and requirements.
- Created guides and online marketing content in order to raise awareness of the Study Abroad program within Pratt Institute.

InnovTek

March 2023 - August 2023

Web Development Intern

Remote

- As a Web Development Intern, I collaborated with senior web developers and content strategists to improve the stability and usability of our website.
 - Strategically refactored buggy code resulting in enhanced website performance.
 - Applied HTML5, CSS, and JavaScript skills to improve and iterate upon multiple web pages.
- Gained a greater understanding of the workflow of a tech consultancy startup, creating and iterating upon websites for users, and collaborating with stakeholders.
