

Sirocco Jewellery Bangle Size Guide

1. Bring your fingers together and tuck your thumb into your palm as if you're putting on a bangle.
2. Wrap a measuring tape or string around the widest part of your hand (just below your knuckles).
3. Note the circumference in millimeters or inches.
4. Match this measurement with the bangle size chart below to find your size.

Tips

- If using string, measure the string against a ruler to get the exact size.
- Ensure the bangle size you choose is slightly larger than your hand circumference for comfort.
