career experiences

Exhibition Designer (Internship)

NEMO Science Museum, Amsterdam[NL]
07.25 - 01.26

Led a collaboration between the TU Delft University (Applied Physics) and NEMO Science Museum. Conceptualised innovative exhibits to highlight the work of talented students and inspire museum visitors to fiddle with science. Developed a systematic framework to facilitate the integration of diverse student projects within NEMO.

Production assistant & Researcher

Woven Studio, Zaandam [NL]
01.24 - 09.24 & 02.22 - 07.22

Worked on multiple international museum art works, from prototyping & building to installation & disassembly (e.g. UNESCO HQ Paris, G20 2023 India). Translated environmental science messages into engaging artistic installations while using innovative technologies.

Team Manager & Designer

Nurdle Soup, TU/e [NL]
11.19 - 07.21

Led a student team striving to prevent plastic pellet leakage. Detected, tracked and traced microplastics pollution through a collaborative solution with local and global stakeholders. Awarded a 5,000€ sustainability grant.

Project Coordinator

Test Site, Aalto University [FI]
2024

Managed a grassroots and interdisciplinary architectural project. Applied sustainable building practices to renovate a discarded structure and turned it into a community space to support student initiatives. Awarded a total of 11,500€ in sustainability grants.

Research Internship

Teijin Aramid, Arnhem [NL]
08.20 - 12.20

Conducted exploratory research with Endumax®, an ultra performant film, to identify alternative uses-cases. Discovered multiple opportunities for sustainable applications and brought forward design thinking in the R&D lab.

hobbie

Crafts & hands-on work

Cycling

pedagogy

Highschool Tutor

Clever Mate, Paris [FR]
01.25 - ongoing

Provided weekly educational support and tailored activities for four highschool students mainly in Maths, English and French.

Design Based Learning, Engineering Design & User-Centered Design Tutor

Industrial Design dept, TU Eindhoven [NL]
2019 - 2021

Developed various skills as a tutor for multiple design courses. Worked on different scales of tutoring; from supervising 30 students, to guiding 4 groups of 5 students, to co-managing a course of 200 students.

Student Assistant

Education & Student Affairs, TU Eindhoven [NL]
2019 - 2020

Provided support and counseling towards Chemical Engineering professors to build their online courses on the TU/e course platform: Canvas.

skills
