

DESIGN APPROACH ↗

I merge technology with thoughtful, community-centered design. My work focuses on crafting immersive and dynamic experiences that prioritizes cultural narratives, equity, and storytelling through both digital and physical spaces. My experience working in diversity, equity and inclusion has fueled my passion for amplifying marginalized voices and fostering cross-cultural communication through thoughtful design. To me, design is not just about aesthetics, it's about creating meaningful experiences that resonate with people from all walks of life.

EDUCATION ↗

California State Polytechnic University, Pomona
