

Réplica

production + publishing

Réplica

Réplica is a contemporary art production platform and a limited-edition publisher, based in Brussels and Mexico City and initiated by artists Benjamin Installé and Javier Villanueva in summer 2025.

We provide financial, critical and logistical support to contemporary art projects occurring outside of the art galleries, the international art fairs and the major contemporary art centers.

Doing so we aim to experiment alternative forms of producing, showing and distributing artworks to those of the conventional contemporary art circuit, with a collaborative approach rooted in shared intuition and open dialogue.

Réplica

Réplica has two activities :

»» **Develop, finance, and promote projects**, exhibitions and events by independent artists.

Every collaboration between Réplica and the artists begins with a conversation, leading to a project proposal.

The scale, timing and priority aspects of the proposal are then evaluated to determine where Réplica can give its support.

»» **Produce monthly prints and limited-edition multiples**, sold online and shipped worldwide.

These editions are an opportunity for Réplica and artists to come together around the realization of a first collaborative project.

Sold at an affordable price, they also allow a large community to support our activities.

Réplica

We are currently working on our production and publishing projects scheduled to begin in **January 2026**.

We aim to produce 3-4 artist projects annually and release up to 12 artist editions.

In 2026, we will produce project and editions by artists Sébastien Dosantos Capouet, Dia González, Catarina Cubelo, Steph Zimmerman, among others.

Réplica

Réplica is supported by public fundings, patronage, and the sale of artist's limited editions.

We are inviting patrons to support our activities.

By making an annual contribution from €1,000 or more, you can fund alternative forms of visibility and production for independent artists, and enjoy the following benefits:

- »» Receive a voucher worth 50% of your annual contribution for the purchase of artist editions from our catalog;
- »» Invitations to events and encounters with international artists and other art professionals supported by our production program;
- »» Have your name or your company mentioned in our online media and at our events.
