PORTFOLIO

EVELINA TIMIRCAN

Hello, my name is Evelina. I'm an illustrator/ graphic designer who works under the name "Gospodina," a nickname that carries a small piece of my childhood into everything I create.

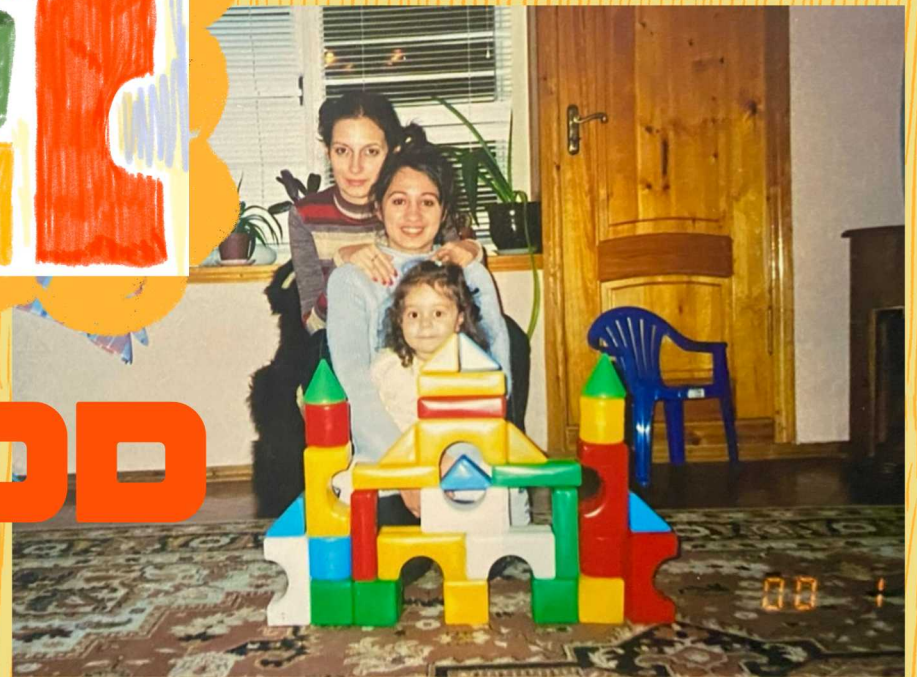

I'm passionate about many subjects, such as culture, traditions, childhood, ornaments, and games, as well as everything that evokes nostalgia and the simple emotions of everyday life.

When I was little, my sisters built me the coolest castle ever out of my toys. For smol Evelina, it was a big event, we even took a picture.

CHILDHOOD

To this day, it's a small childhood story that I want to keep with me forever.

In my works, you'll find vibrant colors and ornaments inspired by traditional motifs. Besides using a graphic tablet and Adobe programs, I love working with colored pencils, soft pastels, oil, watercolor, and gouache.

FONT

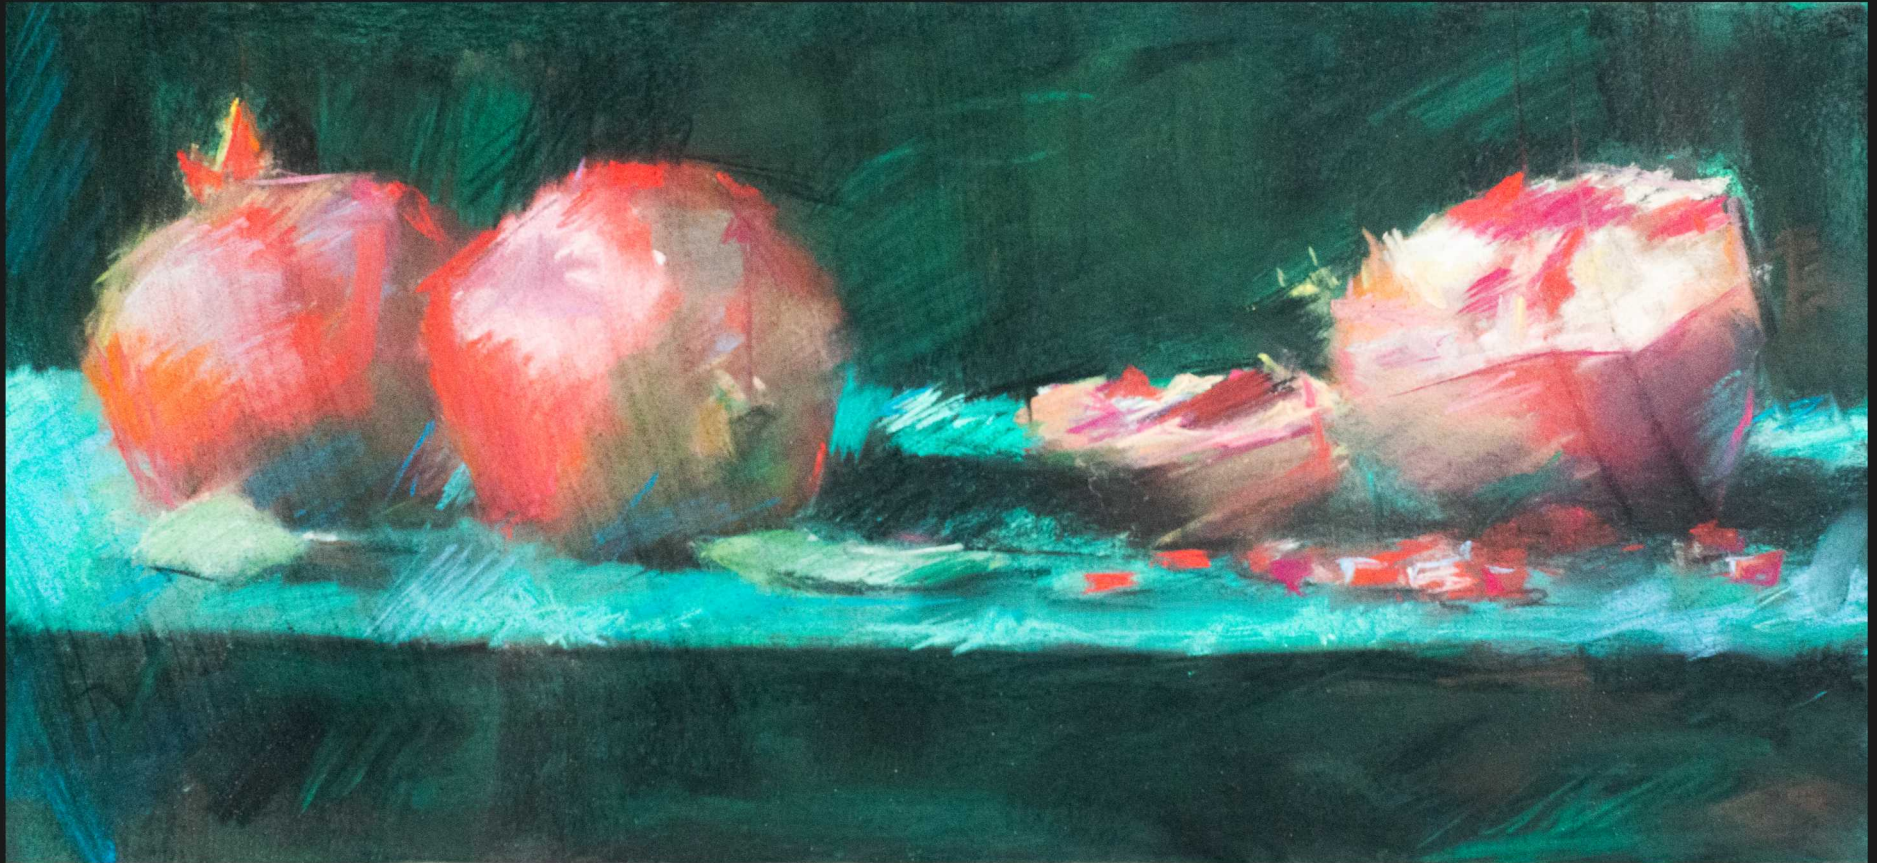

This font is inspired by childhood themes. It reminds me of a kindergarten kid trying to draw letters for the first time, imperfect, curious, and full of joy.

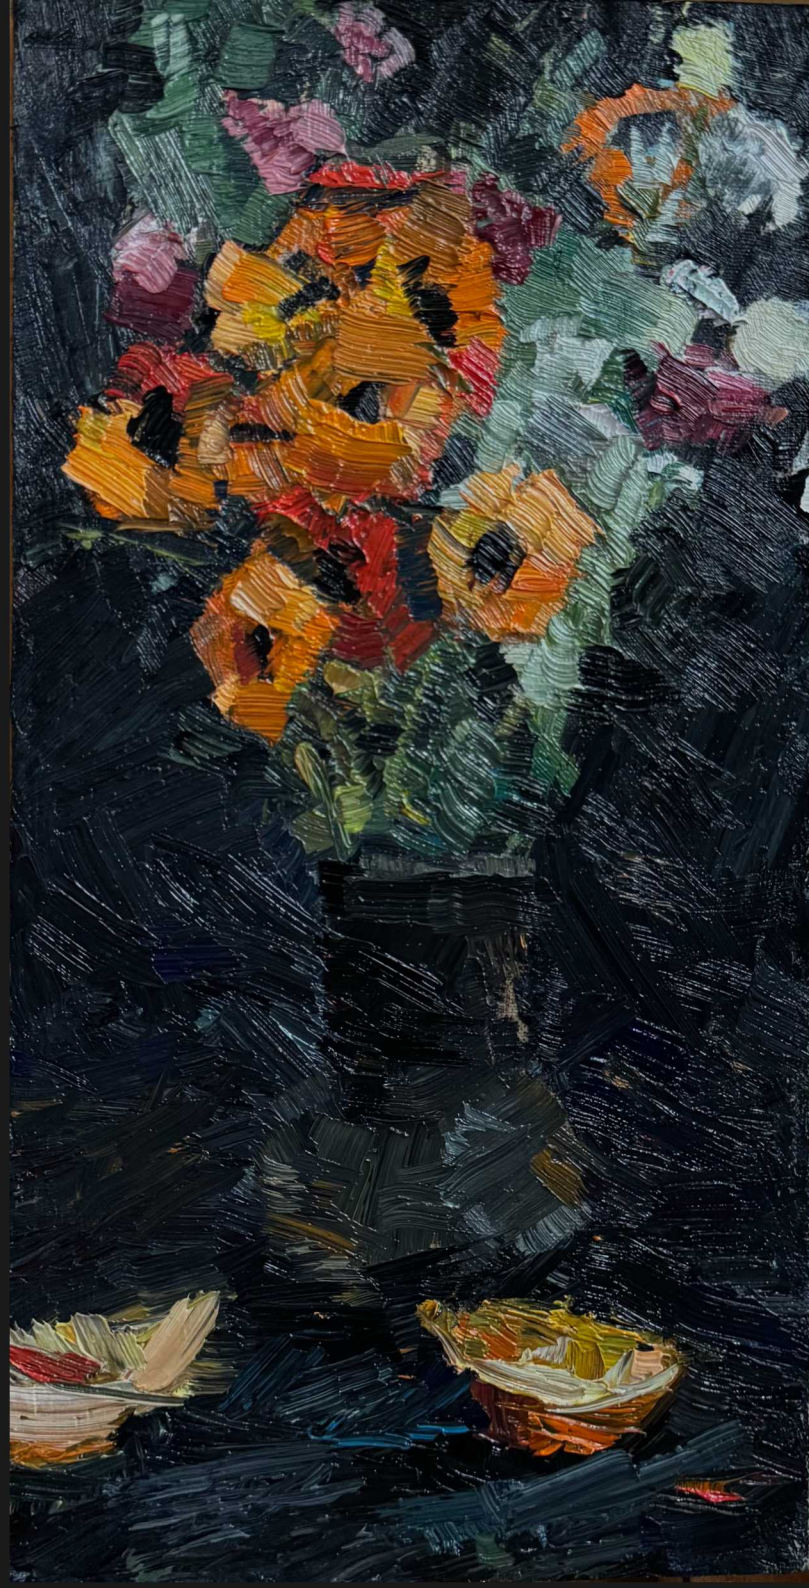

MONOPOLY

This project marks the beginning of a personal journey to create a Moldovan version of Monopoly. While most countries have their own national editions, Moldova does not. Through this work, I aim to highlight national values and symbols, blending them with modern tools.

FINE ART

CERAMICS

In my free time, I enjoy working with clay and creating traditionally ornamented ceramics inspired by folk motifs.

FABRICS

I also love weaving, the fabrics shown here were made by hand on a traditional loom. Both crafts allow me to reconnect with cultural roots and explore the beauty of handmade textures.
