Virtual living funeral script

- Adapted from the in-person script for use online

- Recommend Zoom pro account, or video conferencing that allows for longer-form calls (over an hour)

- Not necessary, but external microphone may improve quality of sound

- Stable and fast internet connection is essential

- Unlimited number of participants

- Great option for those who have accessibility issues, anxiety, scheduling difficulties, or cannot drive to attend in-person living funerals

- Access to resources still vital

- Lower price point due to lower overhead and
  fewer materials for practitioner

- As the practitioner you have very little control
  over their environment/experience. This is why we
  provide them with the VLFC pre-ceremony document,
  and use music as a 'glue' of sorts during the
  ceremony.

- The in-person script and virtual script are
  essentially the same with minor tweaks in language
  to accommodate the different formats
