EXPERIENCE

Spade & Sprout Rebrand Freelance
MARCH 2024 - PRESENT, CHARLOTTE, NC

- Scheduled meetings with client to discuss details, scope, and consistent progress
- Utilized Figma and Figjam to create interactable spaces for the client to collaborate on moodboards as well as monitor work
- Recruited an illustrator and art directed from logo concepts to finalized versions
- Iterated logomarks and type combinations through experimentation in Adobe Illustrator
- Utilized Adobe Illustrator to prepare artwork for laser cut printing blocks

Raptor Engineering Designer
OCTOBER 2024 - DECEMBER 2025, PHILADELPHIA, PA

- Researched relevant web design trends based in the technology and engineering industries
- Analyzed clients current site for issues and areas of improvement
- Designed a new website concept using Figma while addressing the sites existing problems
- Developed prototype web-pages in Webflow with CMS integration
- Created style guide based on the newly designed webpages to ease future expansion

CHANCE (Conceptual) Designer
APRIL 2024 - JUNE 2024, PHILADELPHIA, PA

- Created unique visual language based on an article about Scottish musician Sam Gellaitry
- Processed bold duotone photography of the artist to further develop visual language
- Developed typographic and layout systems that corresponded with the growing visual identity
- Arranged visuals to correspond with a theoretical music and culture publication in Adobe InDesign
- Conceptualized an identity for the publication including a versatile logo mark and further covers

i.e. design Project Intern
MAY 2023 - DECEMBER 2023, TEWKSBURY, NJ

- Communicated research and concepts clearly through presentations to both designers and clients
- Developed logo and website concepts for a new consulting business based on industry research and client specified briefs
- Designed related digital and print based media in the Adobe Suite that adhered to the newly developed brand guidelines
