We acknowledge that the Adelphi Black Box Theater resides on the ancestral and unceded lands of the Merrick and Munsee Peoples. We pay respect to the elders past and present. We acknowledge the truth of violence perpetrated in the name of this country and make a commitment to uncovering that truth. Since our activities are often shared digitally to and through the internet, we also consider the legacy of colonization embedded within the technology, structures, and ways of thinking we use every day. We are using equipment, processes, and high-speed internet, not available in many indigenous communities. Even the technologies that are central to much of the art that we make, leaves large carbon footprints, contributing to changing climates that disproportionately affect indigenous people worldwide. We invite you to join us in acknowledging all of this, as well as our shared responsibility to make good of this time and for each of us to consider our roles in reconciliation, decolonization, and ally-ship.

We acknowledge that the Adelphi Black Box Theater resides on the ancestral and unceded lands of the Merriam and Munsee Peoples. We pay respect to the elders past and present. We acknowledge the truth of violence perpetrated in the name of this country and make a commitment to uncovering that truth. Since our activities are often shared digitally to and through the internet, we also consider the legacy of colonization embedded within the technology, structures, and ways of thinking we use every day. We are using equipment, processes, and high-speed internet, not available in many indigenous communities. Even the technologies that are central to much of the art that we make, leaves large carbon footprints, contributing to changing climates that disproportionately affect indigenous people worldwide. We invite you to join us in acknowledging all of this, as well as our shared responsibility to make good of this time and for each of us to consider our roles in reconciliation, decolonization, and ally-ship.
