[01] Emotype
2024 – Bachelor
HEAD – Genève

Editorial work
Typography
Poetry

Formats: 110x175 mm + 230x300 mm
Pages: 144 + 144
Paper(s): Lessebo Rough Natural, Sirio
Color Ultra Black, Profimatt

Emotype is a variable typeface designed as a graphic tool to manipulate text, shifting it from a state of stability to one of instability. By adjusting the font's parameters, the text can be transformed from a clear and legible presentation to a deconstructed form. This formal typographic approach is based on controlled degradation, directly impacting the text's readability and comprehension, reflecting a pursuit of evolution and movement.

The typeface is brought to life through various graphic objects that vividly demonstrate its graphic potential and the range of possible variations.

[03] Pixelle Panthère Scarf
2024
Project for Pixelle Panthère

Textile object
Design scarf

Formats: 190x25 cm
100% Acrylic; ca.

Scarf, a visual creation based on a projection that was captured and then reworked.

[04] Design Heads: Creation of Tomorrow
2025 – Genève

For: Pisoni-lab

Design Heads: Creation of Tomorrow is an event showcasing 30 award-winning projects from various competitions held by HEAD Geneva (Haute École d'Art et de Design), as part of the Art Genève off-program. The exhibition not only highlights the work of the awarded designers but also acknowledges the school's partners, who support these talents through their prizes. I had the pleasure of assisting Karen in the conception and implementation of the exhibition, while also being in charge of the graphic design for the entire event.

Exploration des formes à travers la manipulation de machines de traitement vidéo analogique

Vol.01

Janvier 2025, Edition Pixelle, Mathilde Périat

Ce livre est la première étape d'un projet de recherche initié en janvier 2025. À travers la manipulation de machines de traitement vidéo analogique, comme la table de mixage Roland V-4 et une pédale de glitch, l'auteur transforme des images fixes en une archive visuelle unique.

Chaque image présentée témoigne d'un processus expérimental où interférences et distorsions deviennent matière à création. Plus qu'un simple recueil d'images, cet ouvrage ouvre la voie à une réflexion graphique et typographique. Les formes générées ici sont envisagées comme des glyphes potentiels, posant les bases d'un alphabet visuel en constante évolution.

Ce livre n'est qu'un point de départ : une documentation vivante d'un travail en cours, où les technologies analogiques rencontrent une démarche artistique contemporaine.

[05] Typographic Research
2025 – Personal Research

Recherche
Editorial work
Typography
Technical mixe

Formats: 110x180 mm
Pages: 116
Paper(s): Lessebo Rough Natural 120

This work is part of a personal initiative: a visual archive in mutation. This book, the result of a research project launched in January 2025, explores the transformation of still images using analog devices such as the Roland V-4 and a glitch pedal. Between distortions and interferences, each page unveils experimental graphic forms resembling glyphs of an evolving alphabet. A hybrid work, blending artistic creation and typographic reflection, laying the foundations for a constantly evolving visual language.

2024
Created with my Grandmother
- Artistic Direction

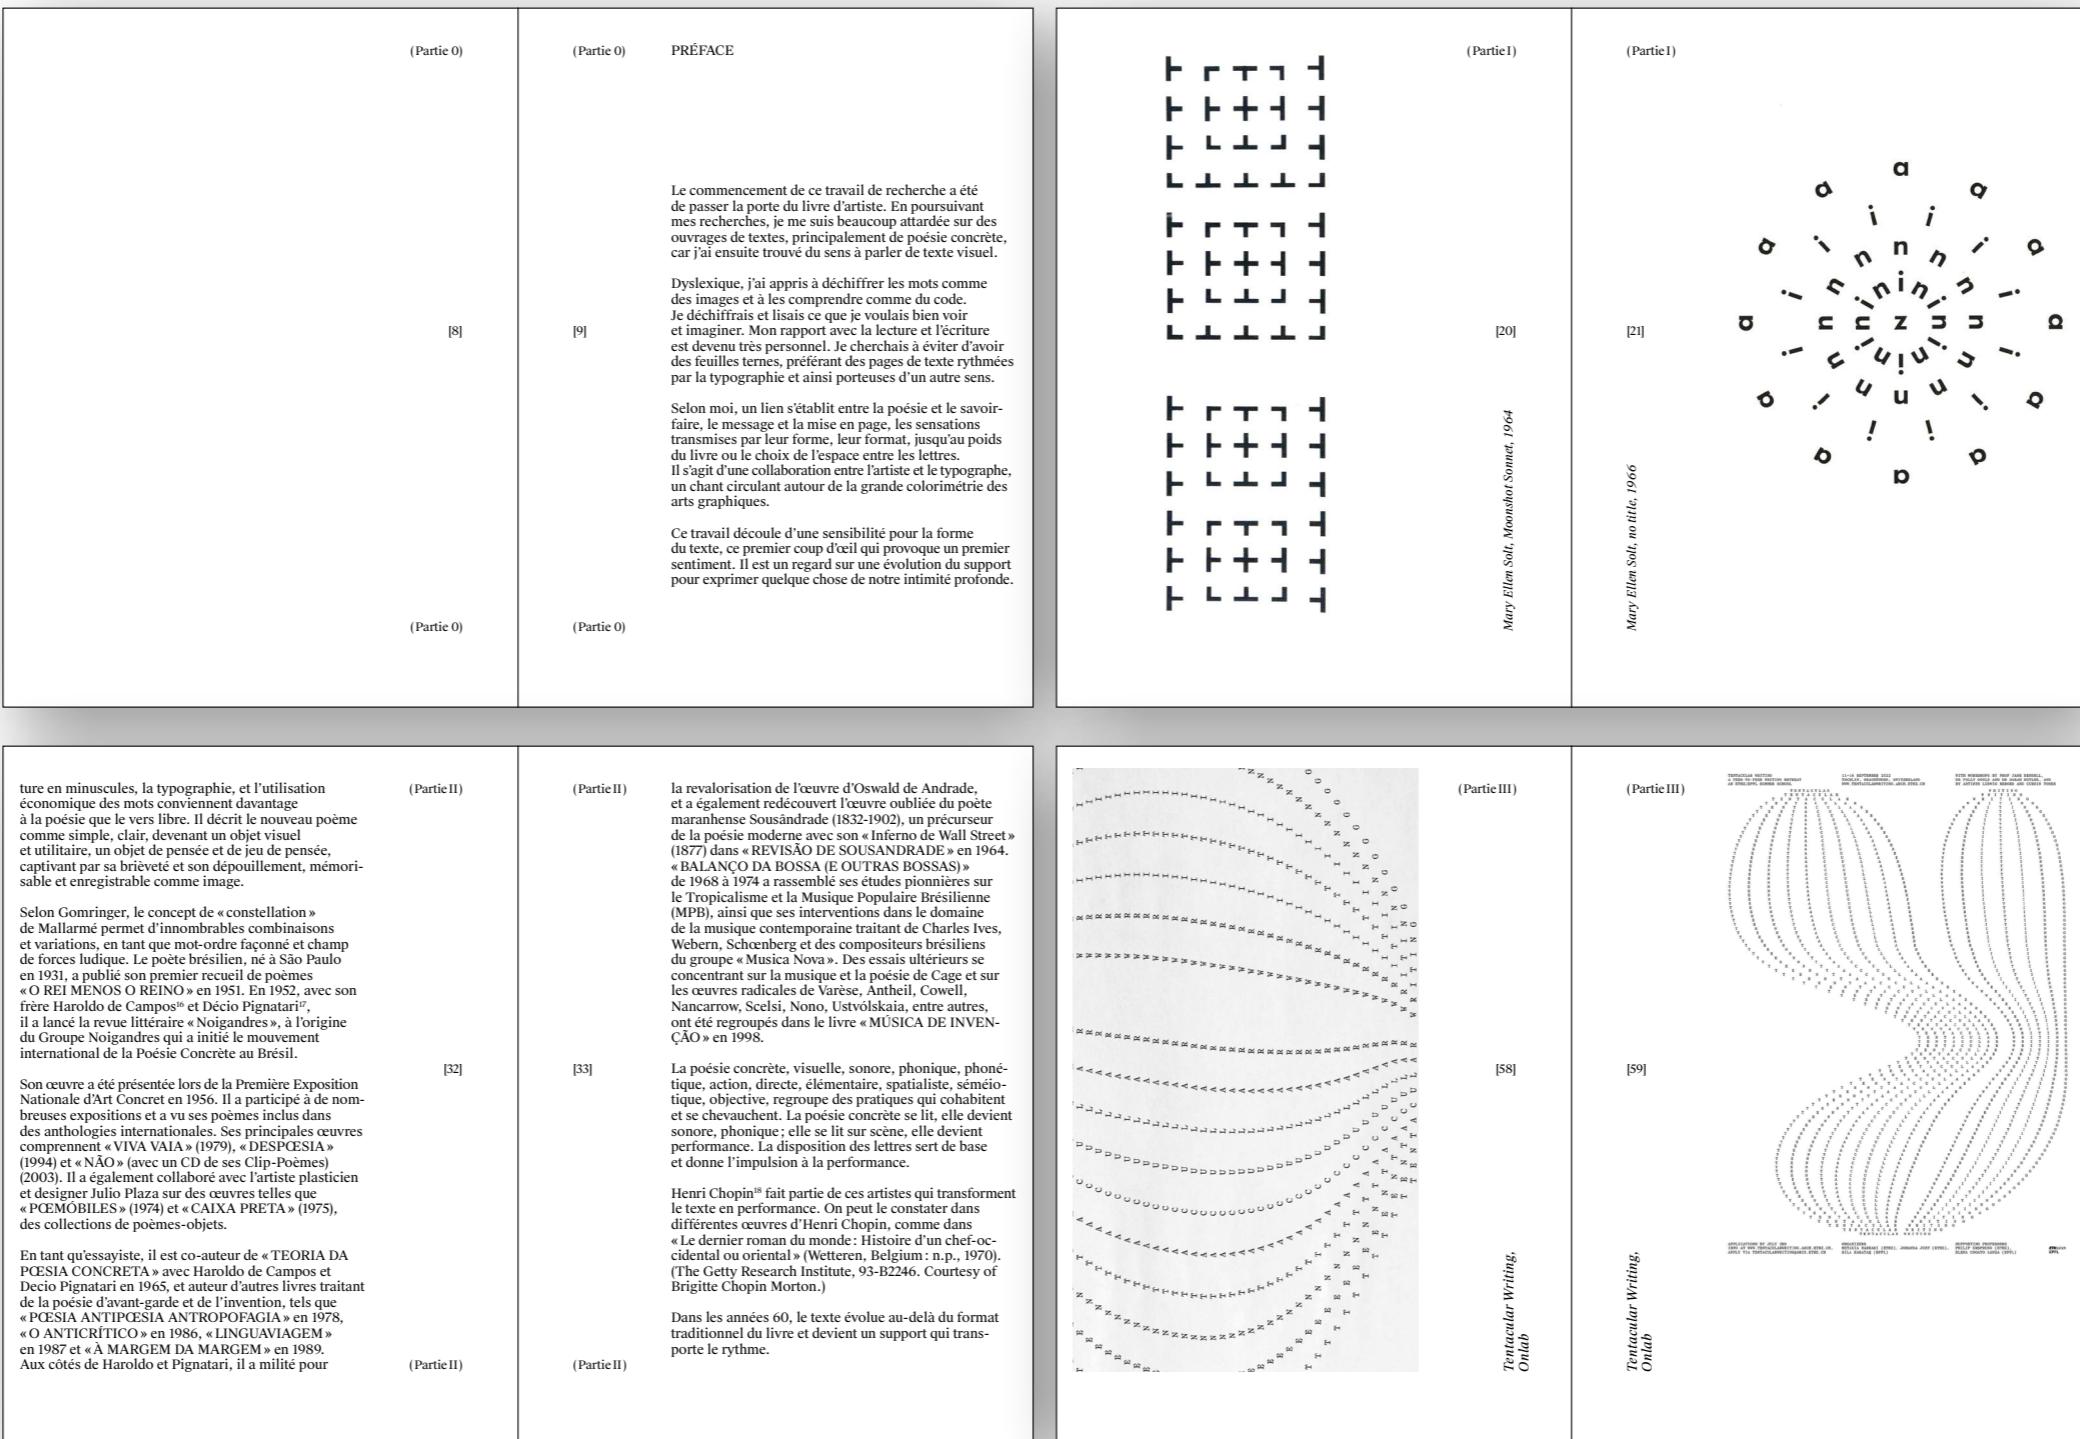

Editorial work
Typography
Poetry

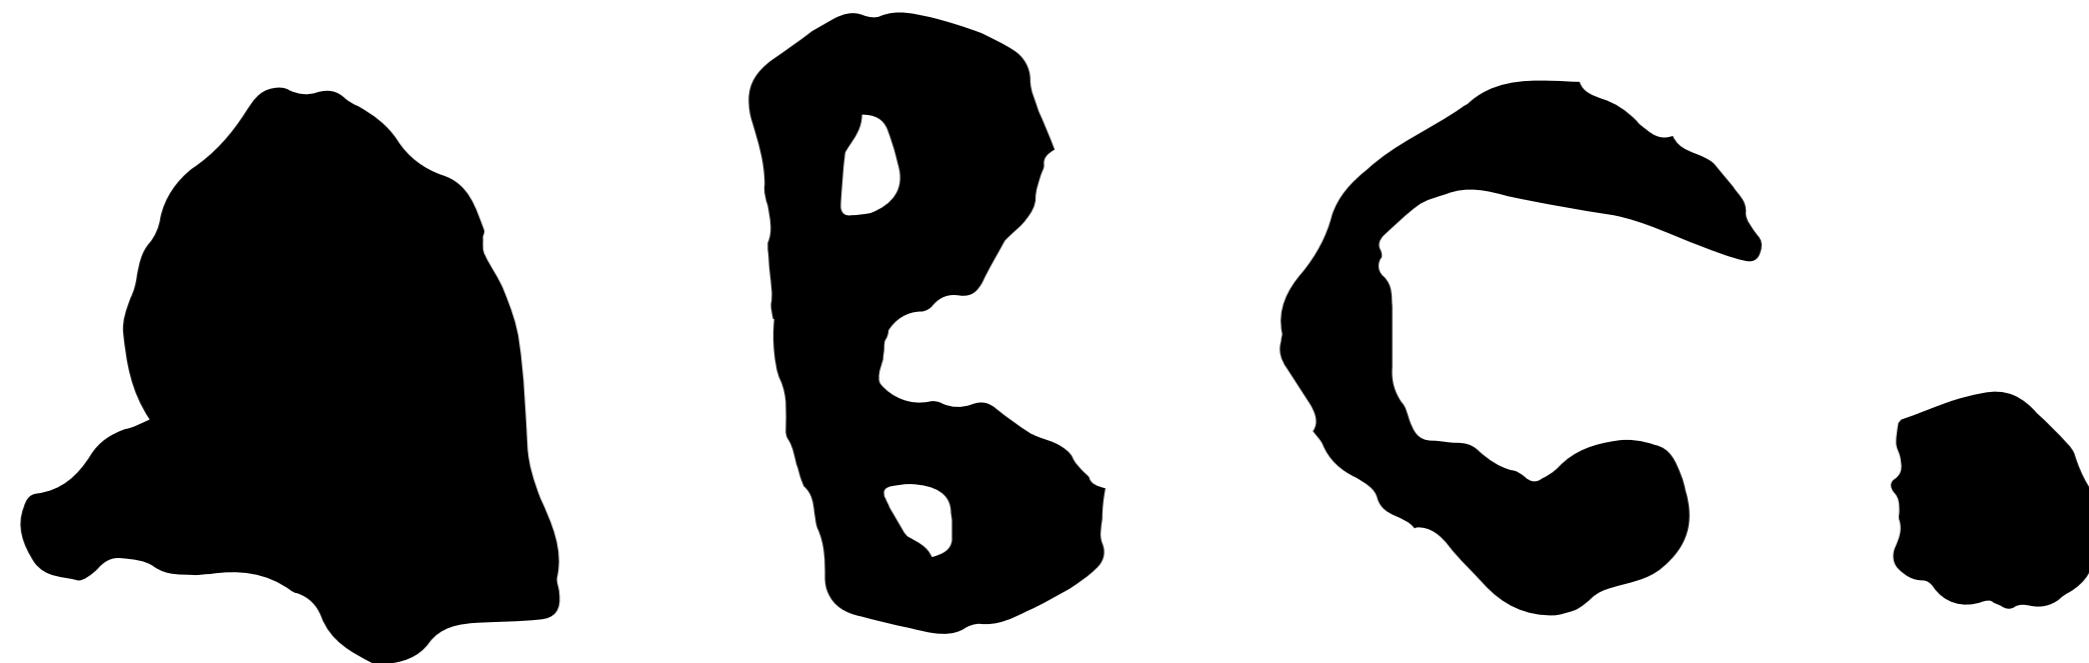

Format: 210×297 mm
Content: 140 pages
Paper: Holmen Trend 2.0, 80 g/m²

A visual and documentary project combining photographs, drawings, collages, and explanatory texts.
Edition created in collaboration with my grandmother about my father, the fisherman

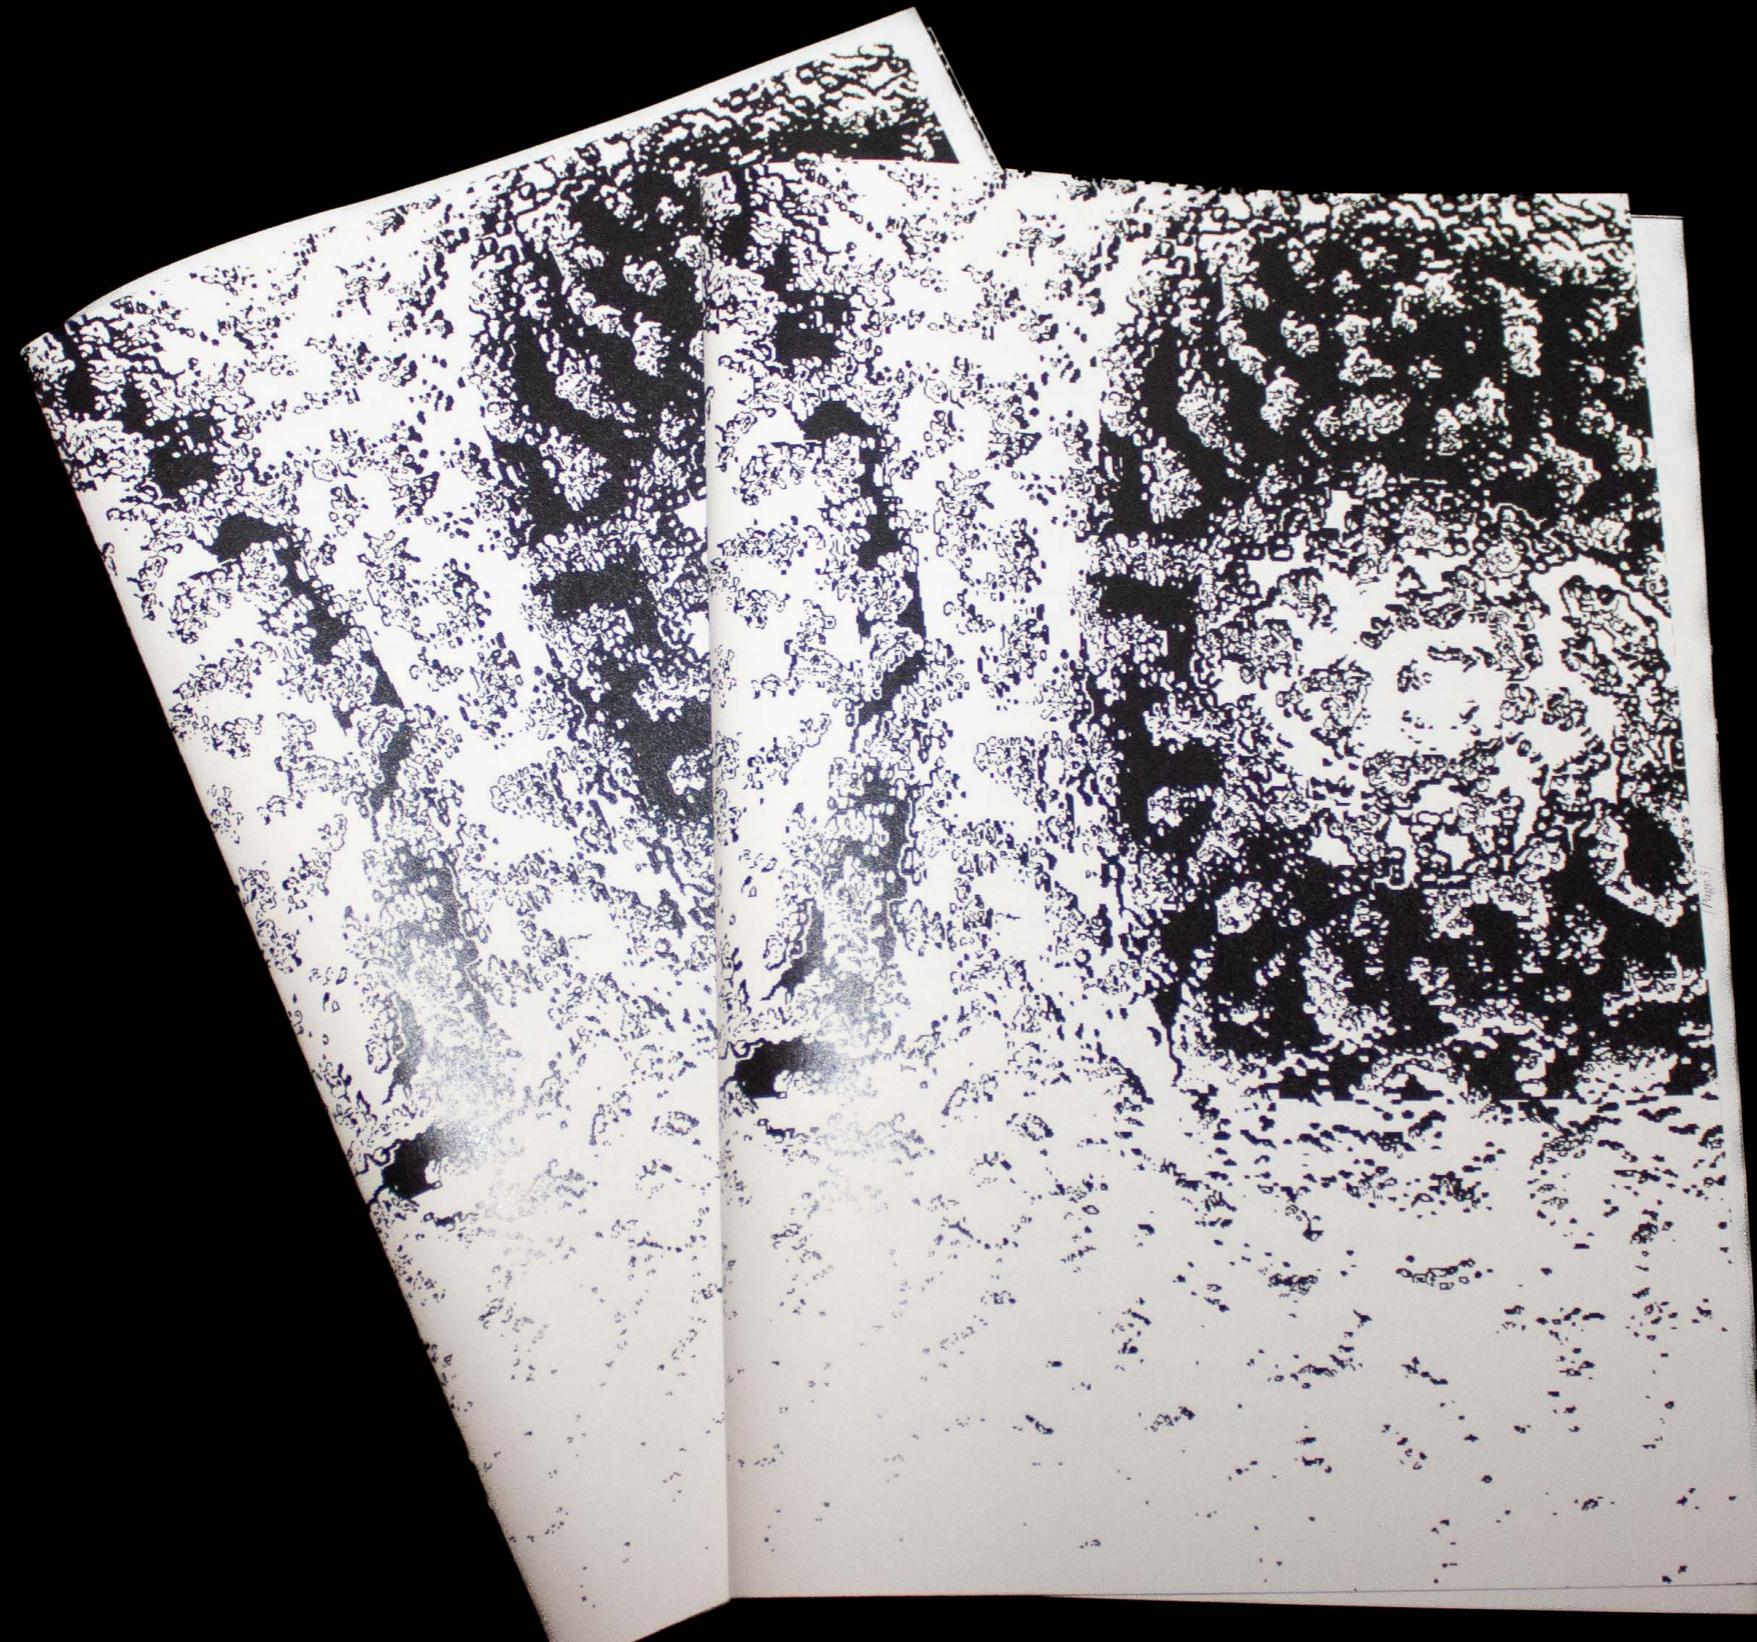

bu jusqu'à l'indécence, on m'invitait et même pour me clouer sur un siège à faire que ça, je toutes les verres devant moi se remplissait toujours et la file se finissait aussi vite qu'une nouvelle s'ouvre. J'arrive à ce point-là tu peux que fly, les jambes n'ont plus des jambes et depuis mes dix-sept ans je sais que je aime ce genre de voix. Sauf que j'ai la chance d'avoir une certaine conscience de mes déhors, et ça d'ailleurs, j'en besoins de foncer dans tout le plus rapidement possible, de rentrer complètement dans les murs et me retrouver englobé dans un cul-de-sac pour comprendre de quoi il s'agit. C'est fait comme un rat qui n'en sortira pas et j'ai développé une certaine fièvre. Une certaine curiosité. Et j'ai appris à boire trop mal. N'empêche, malgré ce penchant pour l'excès ma bonne petite gueule a sucre les traits mais l'absinthe, mon diable. Elle arrive chez moi j'ai sorti de quoi faire de l'absinthe. A Dio avait fait pain délicieux comme d'habitude. Moi je suis un magicien. Le frigo connaît, j'en ai soi

Exploration Visuellement Sonore
January 2025

Editorial work
Generative visuals created by
sound frequencies processed
through TouchDesigner.

Format: 200×287 mm
Content: 80 pages
Paper(s): Holmen Trend

All the images in this book are generated through sound frequencies processed and translated in TouchDesigner. This experimental approach bridges visual generative design and sound data manipulation, creating an interactive link between audio and visuals. This book documents the early stages of research into how sound and image, often seen as separate dimensions, can influence, complement, and transform one another.

VJing
Projection
Experimental Image
Performance

Pixelle Panthère is an analog visual experience created using vintage electronic equipment. Thanks to their machines, spectators travel through the pixels of another era. All the images are improvised and generated live, tailored to accompany concerts, performances, and other festivities.

The goal is to provide a visual support that allows viewers to see sounds, listen to images, and be carried away by the spectacle.
