Graphic Designer

I am a Chilean graphic designer based in the Netherlands who has just graduated from ArtEZ University of the Arts. I work across digital and print media, including editorial and web design, and I am experienced in creating and editing audiovisual content. I am enthusiastic, proactive and creative, with a strong eye for detail and organisation. I adapt quickly and enjoy learning new tools and methods. I enjoy using design to create engaging and meaningful experiences that encourage a deeper connection with ourselves and our surroundings.
