## DISTILLATION OF A CRYSTALLINE CITY

# ARCHITECTING THE IMPOSSIBLE

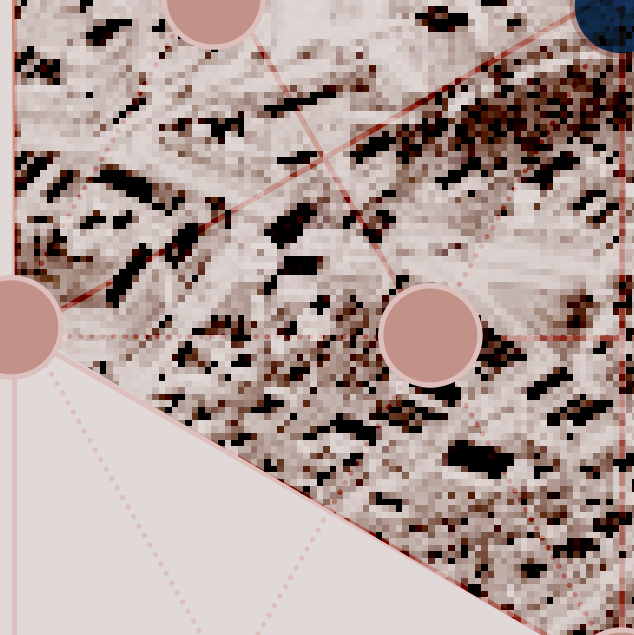

A crystalline city is a new reference point for what is possible—

a place where people come to hear a different “music” of what it means to feel good, whole, at peace, inspired, and in tune with themselves.

It is a city built by and through love, listening, connection, truth, coherence and generosity that stands as an example not only in principle but in practice.

Through its process of becoming, a Crystalline City acts as a centerpoint, magnetizing what is essential for humanity now. A Crystalline City is a living laboratory, making manifest the newest

technologies (water, crystal, coherence, architecture) into physical form to be immersively experienced through places, spaces, and the ecosystem as a whole. It is a center of new education, embodied in an interdisciplinary network of museums, camps, future universities, etc.

# THE CRYSTAL WOMB

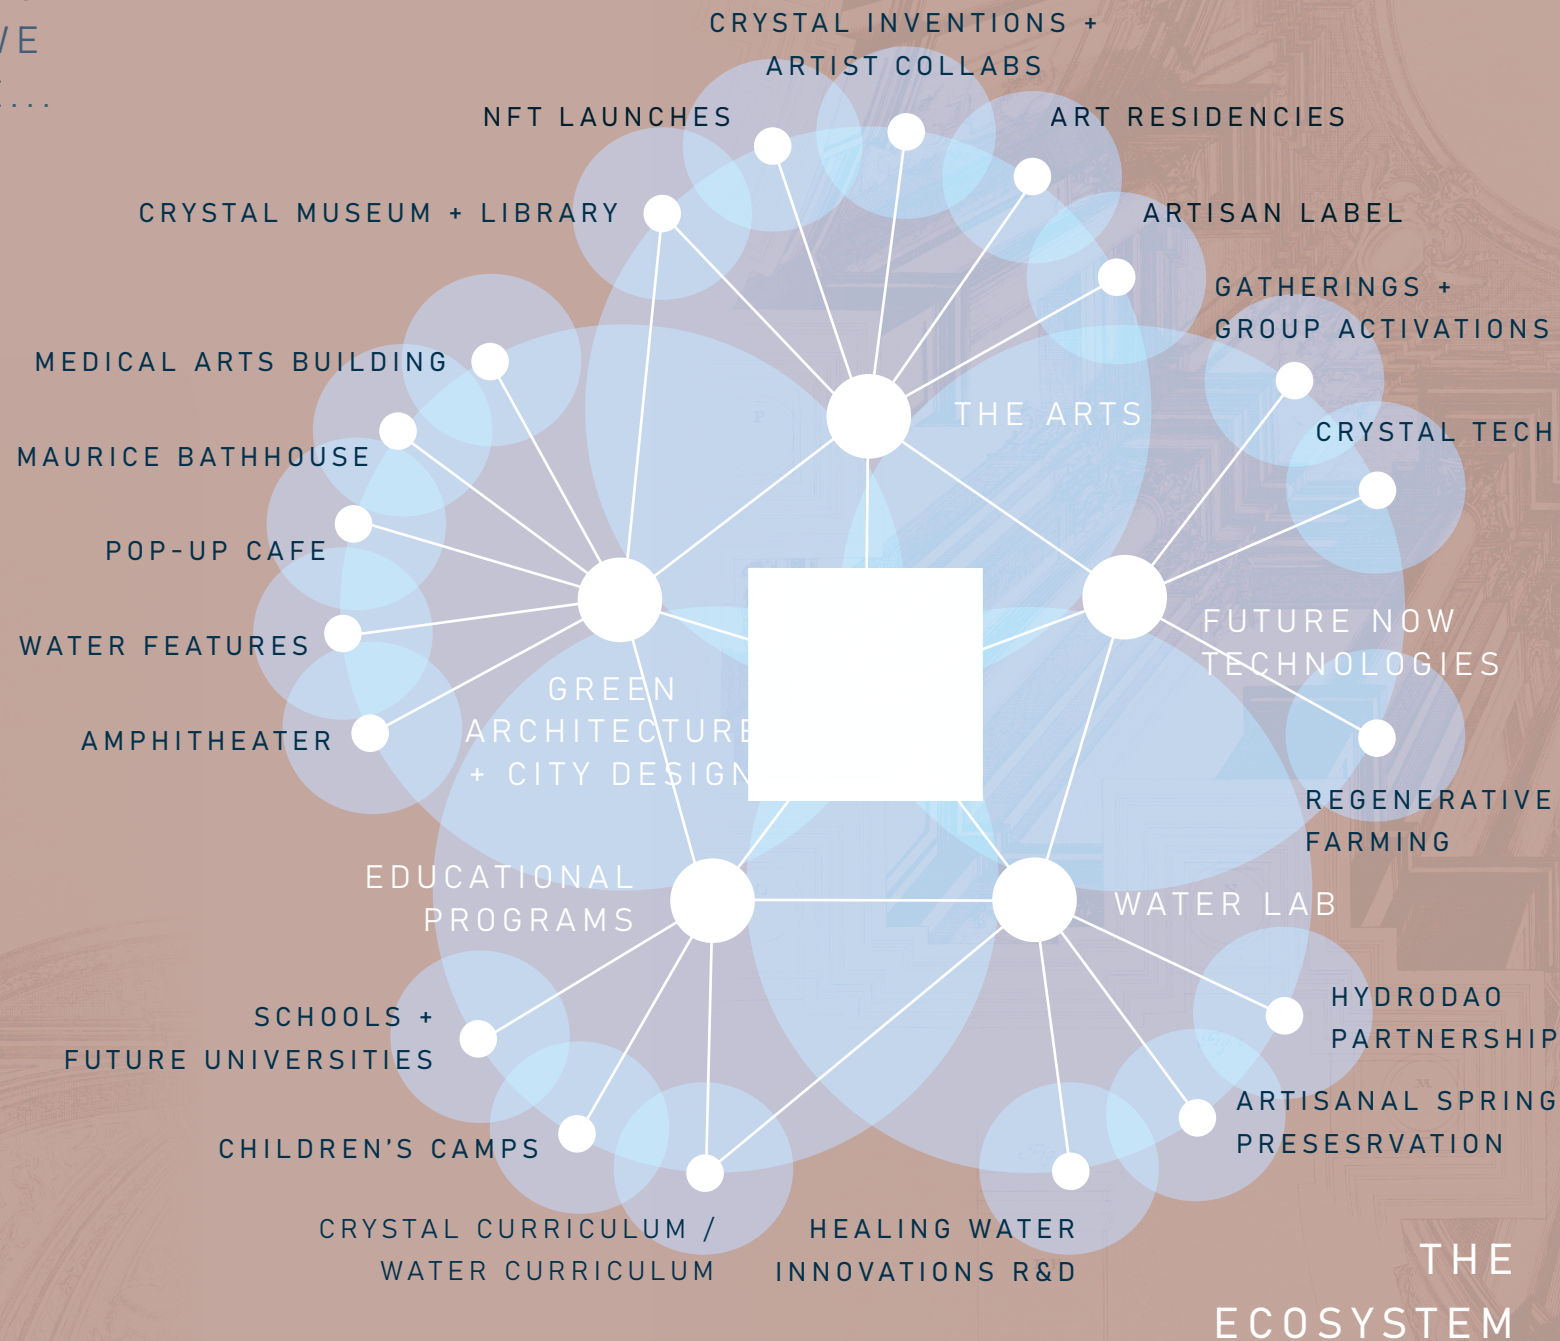

# THROUGH BEAUTY, DESIGN AND HUMAN NATURE, WE BIRTH THE IMPOSSIBLE...

The Crystal Womb is a visionary incubator in which cities are re-dreamt, imagined and birthed as crystalline cities, habitats, councils and technologies of the future now.

Together we form a meta-council, prismatically weaving our worlds and multi-dimensional expertise to fully honoring the mission of the “soul” of a place. We listen for what each element WANTS to be and working with these grooves along the lines of Nature, creating the conditions for it to bloom into what it is meant to be.

We hold the melody, the space of the strong poets and the storytellers for all to sync up with a unified vision. This vision is seeded in with an aerial view—co creating, nurturing and connecting the various aspects and projects of the whole.

## CRYSTAL WOMB FUNCTIONS

WE ARE VISIONARY  
ORACLES AND  
STORYTELLERS,  
ESSENCE OPENERS AND  
WEAVERS OF THE NEW  
TECHNOLOGIES.

### DISCERNMENT

We counsel on team-building / management, strategic decisions and with partnerships.

### GROUNDING SUPPORT

We offer operational metabolic support in the form of administration, amplification of a network of talent and potential partnerships.

### EXPERIENCE DESIGN + VISUAL POETICS

We synthesize the essence of each project into its highest, most distilled visual expression.

### GATHERINGS

Through group gatherings/ activations, we create the right energy and conditions for things to emerge beautifully and easefully. We architect, alchemize and activate different group geometries and humxn fractals toward a shared vision and team projects.

# HUMXN CIRCUITRY

## PHILOSOPHY

Our Philosophy is one of coherence.

We believe that how we start things matters. The quantum effects inevitably ripple out when we take the time to set the stage for things to unfold with the greatest beauty, efficiency and harmony. Therefore, we begin with the principles of discernment, the right harmonics and love as the most efficient way.

## CONNECTIONS

The people we work with are miracles—period.

We draw from an extensive network of professionals, dreamers and visionary geniuses, teambuilding in alignment with our coherent vision and constellating the project with a finely tuned support group.

Our approach is feminine in nature, utilizing the principles of quantum magentism, envisioning, community and soft timing.
