MERIENDITAS

"Merienditas"
Limited Edition

The Alt2: "Merienditas" table is a product of collaboration, inspired by the simple theme of snacks. For this edition, Princess SeDa, contributed three distinct resin-cast tops featuring hand-painted acrylic artwork. The table's solid mahogany legs and

tray are handcrafted by Detalpalo.pr, a woodshop based in Puerto Rico. Together, these elements create a table that is both playful and practical, bridging the gap between art and everyday use products.
