Blue PORTFOLIO

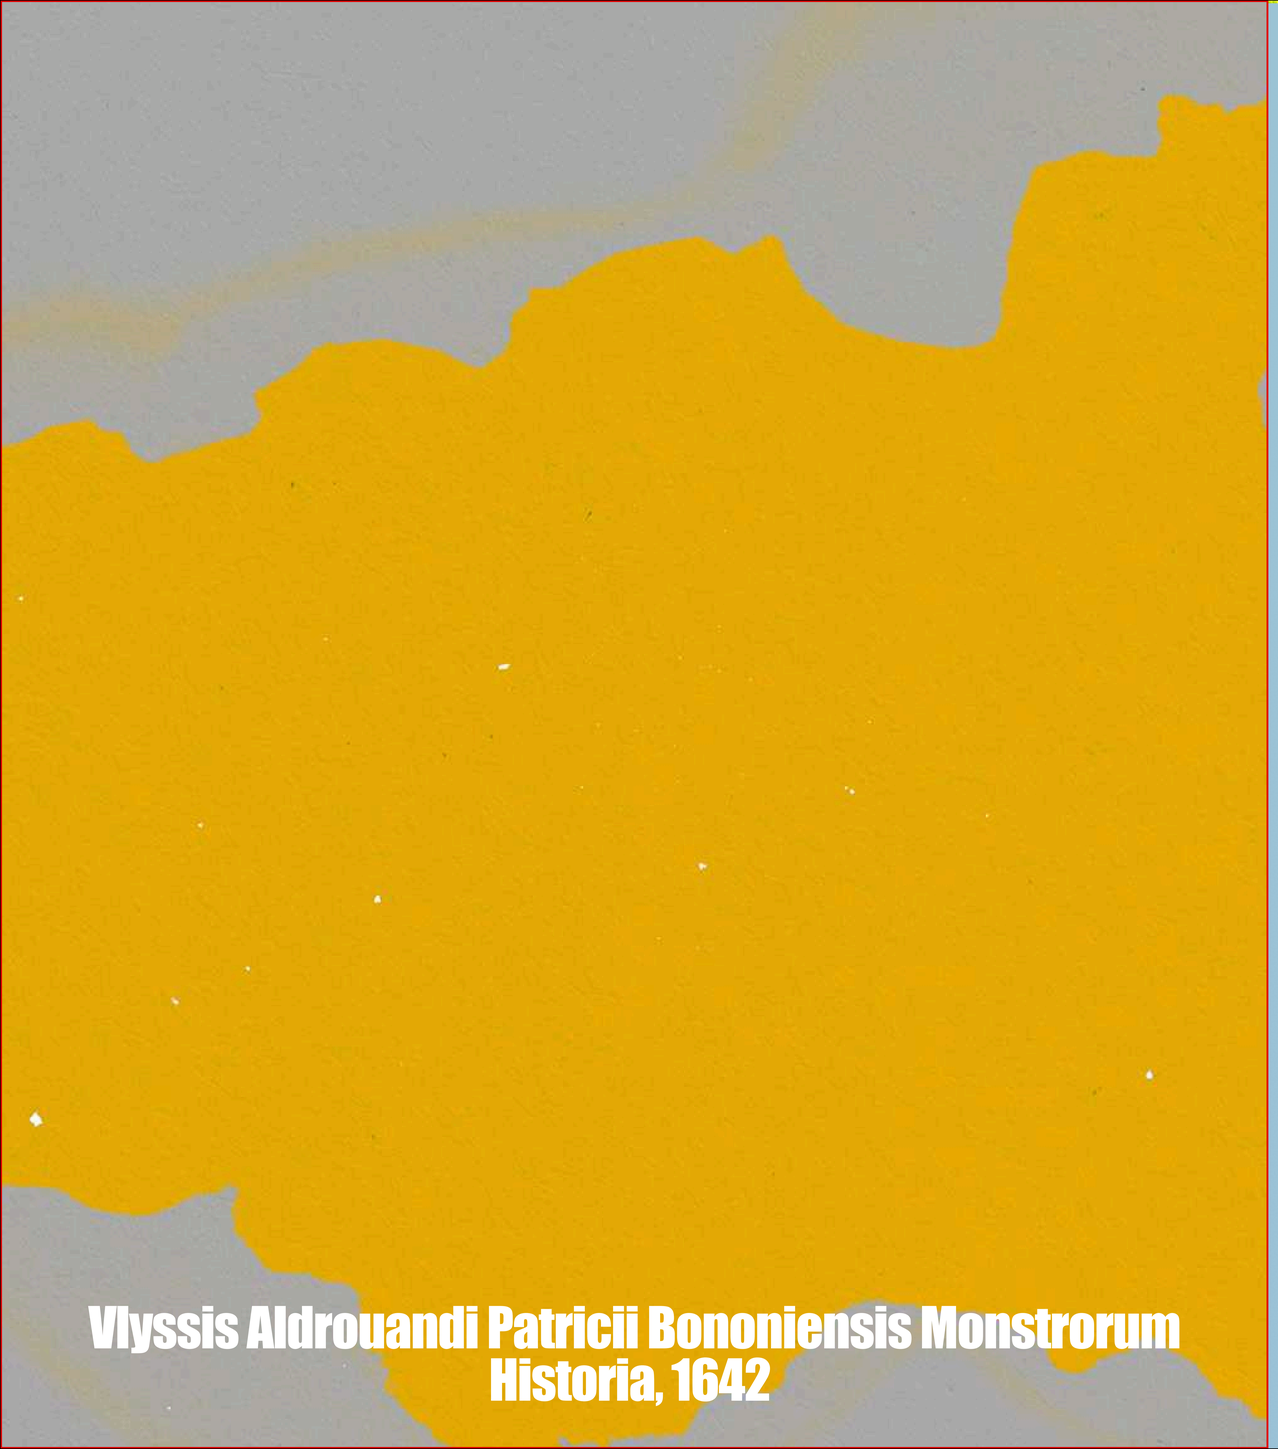

Juxtaposition and the Blending of Opposites: The project consistently combines seemingly disparate elements: vintage and modern, organic and digital, historical and futuristic, real and surreal. This juxtaposition creates a sense of tension and dynamism, highlighting the complexities of human experience and the blurring of boundaries between different realms.

Welcome to my world of visual possibilities. This portfolio is not about past projects, but about future potential. These mood boards are a proof of concept, demonstrating the range of styles, techniques, and conceptual depth I can bring to your projects. They are a glimpse into my creative process and an invitation to collaborate.

Modular and Multi-Framework Capabilities

Shepherd can handle multiple frameworks, teaching not just decision-making strategies (e.g., the WRAP or MILES framework) but also complex educational topics in a flexible, digestible way.

The modular structure of Shepherd would allow learners to take on topics one piece at a time and scale up their learning as they progress.

Eight legs of dread. Feel them crawl under your skin. This grid of grotesque beauty confronts your deepest fears. Are you brave enough to look closer?

DEAR LORD
GIVE ME A FEW FRIENDS
WHO WILL LOVE ME FOR WHAT I AM
AND KEEP EVER BURNING,
BEFORE MY VAGRANT STEPS
THE KINDLY LIGHT OF HOPE..
AND THOUGH I COME NOT WITHIN SIGHT
OF THE CASTLE OF MY DREAMS,
TEACH ME TO BE THANKFUL FOR LIFE
AND FOR TIMES OLDEN MEMORIES
THAT ARE GOOD AND SWEET.
AND MAY THE EVENINGS TWILIGHT
FIND ME GENTLE STILL.

Dear Lord
give me a few friends
who will love me for what I
am
and keep ever burning,
before my vagrant steps
the kindly light of hope..
And though I come not within
sight
of the castle of my dreams,
teach me to be thankful for
life
and for times olden memories
that are good and sweet.
And may the evenings twilight
find me gentle still.

Evaluating And Mitigating Discrimination In Language Model Decisions

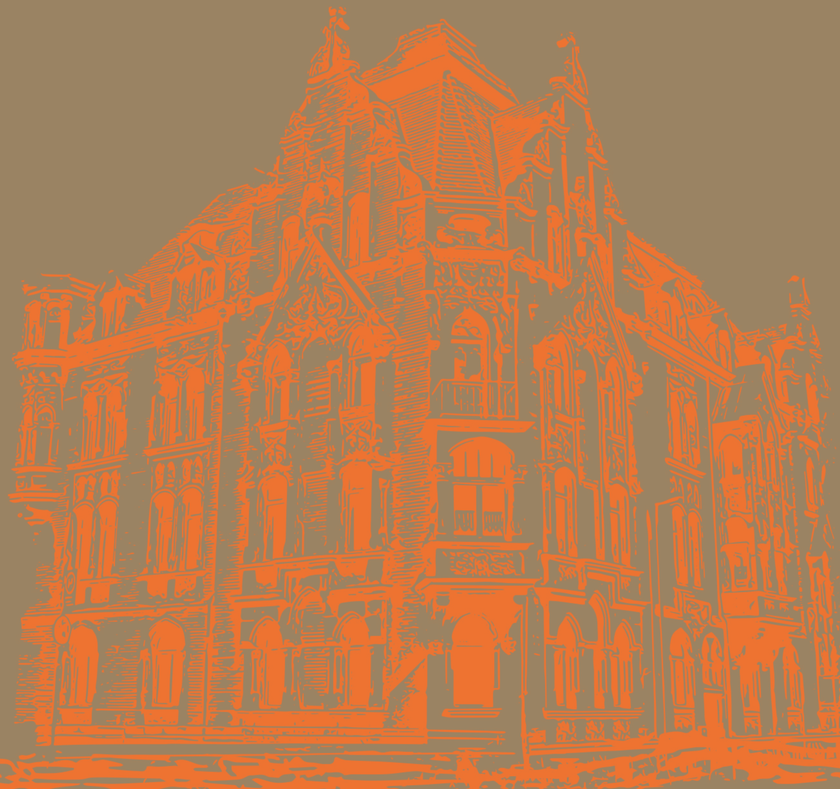

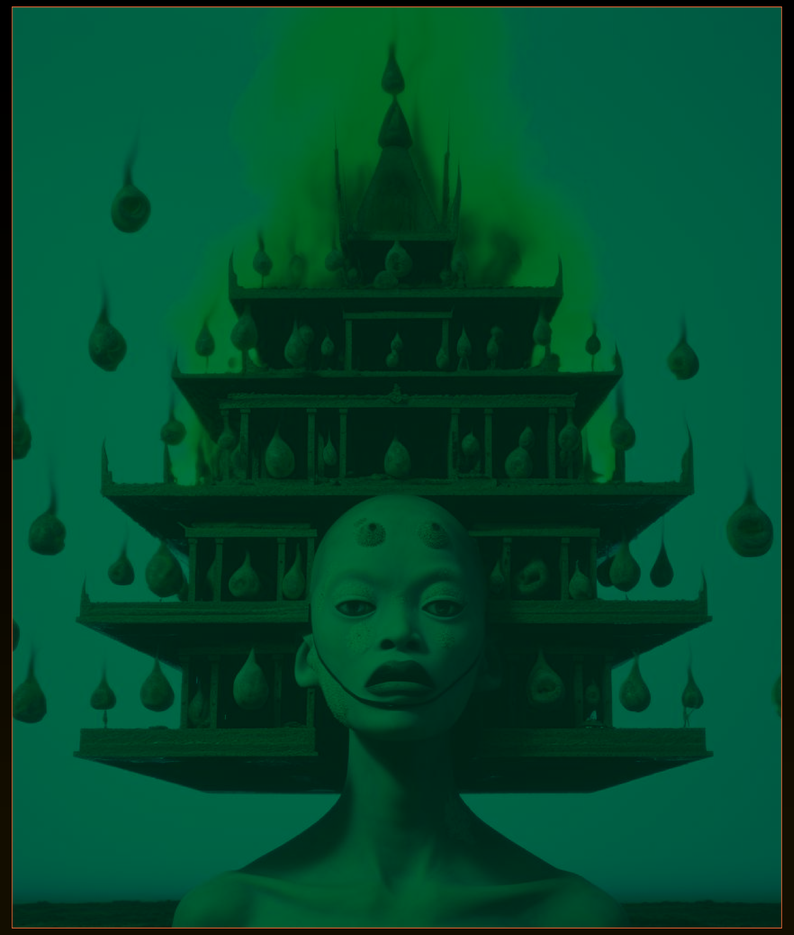

As Language Models (LMs) Advance, Interest Is Growing In Applying Them To High-Stakes Societal Decisions, Such As Determining Financing Or Housing Eligibility. However, Their Potential For Discrimination In Such Contexts Raises Ethical Concerns, Motivating The Need For Better Methods To Evaluate These Risks.Our Work Enables Developers And Policymakers To Anticipate Measure, And Address Discrimination As Language Model Capabilities And Applications Continue To Expand.
