

RESUME

ABOUT

Hello! I'm a designer and photographer based in Seattle. I create art that gets me excited and I bring to it a scientific curiosity and empathetic open-mindedness to meet new challenges. I love to illustrate, align a presentation to an existing identity, or create a whole new one from scratch. Most of all, I thrive while making connections and being part of an amazing collaborative team.

EXPERIENCE

| | | |
|---|-------------------------------------|---|
| Microsoft Visual Designer | 2022-present | Design and create visuals for Windows + Devices that communicate complex ideas and concepts from the engineers of Microsoft's biggest commercial and consumer products |
| LEE Studio Freelance Designer | 2021-2024 | LEE encompasses all design projects outside of Microsoft, ranging from brand identities and packaging design for small business clients and individuals to contract work for design agencies including Electric Pen |
| LMD Graphic Designer | 2021-2022 | Brought a modern and updated approach to designing social media and print collateral, logos, and presentations for USDHS's cybersecurity agency, CISA |
| Electric Pen Graphic Designer Junior Designer Studio Manager | 2021-2022 2020-2021 2019-2020 | Championed a broad range of design projects for our client list from original illustrations to logo designs to animated presentations in a fast-paced agency setting with high standards of quality |
