Aléa is an exhibition program initiated by Pierre Allain and Antoine Dochniak in 2025 at Artagon Pantin, a former school repurposed into artist studios. Conceived in dialogue with the building's history and the atmospheric conditions that may affect it, the program explores a sensitive reflection on the affective and emotional relationships between the artworks and their environment. Over the course of the year, international artists are invited to develop site-responsive proposals across varied timeframes. Each project will unfold in different parts of the building: a rooftop terrace, a meeting room, a screening room, and the corridors.
