PASSION PROJECTS

Pursuing creative projects adjacent to my professional skillset is super important to me. It ensures I'm learning new skills, building community, and growing personally. Here are a few I've been working on:

- Shishkin Productions Podcast Network - Started this project in 2020. Created 7 different shows, hundreds of episodes
- Alexei Shishkin music - Been writing, recording, and releasing music since 2013. Learned a lot about PR, relationships, etc.
- WIP Creative Industry RPG - Designing/writing a dice-rolling tabletop role-playing game about working in the creative industry
- PLAY BY EAR: A D.I.Y. DOC - Tried my hand at making a feature-length doc. Truly a DIY effort, shoestring budget, very punk
