EXPERIENCE

ARCHITECT

NORM ARCHITECTS | ISTANBUL

| 02/2024-CURRENTLY

Specialize in concept design and development, architectural implementation, and detailed drawings for residential, mixed-use, educational, commercial, cultural, and airport buildings across various scales. I have worked on projects in different regions around the world, including Erbil, Riyadh, the Bahamas, the USA, and Turkey. Throughout the process, I use CAD programs, Rhino & Grasshopper, Adobe programs, and many other tools at a professional level.

ASSISTANT ARCHITECT

MELIKE ALTINISIK ARCHITECTS

| ISTANBUL | 07-09/2023

During the internship period, actively contributed to projects of various scales. Served as an assistant architect for the international architecture competition held in Seoul. Additionally, took on active roles in the design, visualization, and media works of the office. Pioneered the use of artificial intelligence tools in architecture for the office's research initiatives.

ARCHITECTURE INTERN

CM MIMARLIK | ISTANBUL | 04-06/2023

Took an active role in the drawing and development of the office's design and implementation projects. Demonstrated intensity in the processes of various structures, including residential, social facilities, and office buildings. Additionally, contributed as an assistant architect in the office's national competitions.

RESTORATION ARCHITECTURE

INTERN - SULTAN AHMET MOSQUE

TASYAPI INSAAT-KARA INSAAT ADI ORTAKLIĞI | ISTANBUL | 08-09/2022

Participated in the restoration process of the historically important mosque and contributed to the survey work.

CONSTRUCTION-ARCHITECTURE INTERN

DEBESE INS. A.S. | ISTANBUL | 07-08/2022

Gained hands-on experience in the construction and implementation of designs at a site featuring six residential and commercial blocks. Actively contributed to project reading, project management, quantity surveying, and overseeing on-site applications throughout the process.

ARCHITECTURE INTERN

PARCH LANDSCAPE AND ARCHITECTURE

| ISTANBUL | 07-09/2021

Contributed to discussions on architecture's relationship with the urban and landscape, developing design proposals for underutilized urban areas and suggesting improvements for the city's green morphology.
