Education

ArtCenter College of Design Pasadena, CA
Bachelor in Science of Product Design, Minor in Business
September 2021 - Expected Graduation December 2025

Work Experience

lifestyledesign - Industrial Design Intern (Santa Barbara, California)
January 2025 - Present

Munchkin - Industrial Design Intern (Van Nuys, California)
October 2024 - December 2024

Worked with the Industrial Design team and engineers to create prototypes (ODM+ and OEM products) from concepts formed through ideations and identifying pain points and opportunities in today's current market products. Explored the use of different mechanisms and functionality with in-house engineers. Worked on Illustrator vector drawings for patents and "IMs," Instruction Manuals for packaging. Adjusted Pantones and explored different CMF's for new products. FDM, Resin, & Silicone printed prototypes for user testing.

OpenSea - NFT Designer & CAD (Anaheim, California)
Septmeber 2023 - November 2023

Consulted and created NFT illustrations and character design concepts for their new EXECUTE campaign on twitter. Designed custom thumbnails for company banners and marketing posts

ArtCenter College of Design - Laser Lab Tech (Pasadena, California)
May 2022 - April 2023

Trained students to operate laser machines by learning how to raster, score, cut, and translate Illustrator files for laser cutting.

ArtCenter College of Design - Teacher Assistant
Product Design 3 / Design Fundamentals 2 (Pasadena, California)
January 2022 - August 2023

Critiqued and assisted students in understanding ethical design processes, designing for change, end-user archetypes research, layout, and grid systems.

Awards

Nike Endowed Scholarship
2023 - Current

ArtCenter UG Scholarship
2021 - Current
