

EDUCATION

2023-2026

Master of Science in Industrial Design
ArtCenter College of Design

2018-2022

Bachelor of Engineering in Product
Design and Manufacture
University of Nottingham
Ningbo China

SKILLS

Design Research
Sketching
Prototyping
Photography
3D modeling
Product Rendering
Teamwork

SOFTWARE

Adobe Ai, Ps, Pr, Lr
Rhino
SOLIDWORKS
Keyshot
Figma
Midjourney

INTERNSHIPS

Intern industrial designer at H World Group Limited

04/2023 - 08/2023

H World Group is a Fortune 500 hotel chain. During this experience, I participated in the iterative design of the hotel's front desk kiosk machine. Based on the manufacture and internal structure of the kiosk, also considering the ease of maintenance, I optimized the appearance and helped the kiosk develop from prototype to a product sold to hotels across Europe and Asia.

Intern industrial designer at YIHAI SHIP DESIGN

11/2022 - 01/2023

In this experience, I enrolled in the process of yacht, ship and boat design, tried to solve the challenges in this design category through idea generation, 3D modeling and rendering

Intern industrial designer at TOALL DESIGN

07/2022-10/2022

TOALL Design is a design agency focusing on innovative design of household products. During this experience, I participated in the process of designing a household product from idea to development to final production. I assisted in designing 3 products, 1 of which has been launched on an e-commerce platform

SCHOLARSHIP PROJECTS

FoSE Innovation Lab: Soft Central - a home monitoring system consisting of soft & well-designed, homely smart products.

06/2020 - 04/2021

I worked with students studying EEE and CS, refined the appearance of the smart pressure-sensitive slippers, and evaluated the business potential of the whole system

- Supervisor: Dr. Martijn ten Bhomer
- Partner company: Santoni Shanghai Knitting Machinery; Studio Eva x Carola

FoB Ingenuity Lab: UNNC Library Plus - A metaverse APP design aimed at improving the intelligent UX of UNNC Library.

01/2022 - 7/2022

I worked with students studying in business school and humanities school and obtained a valuable research report. Currently, I'm working on developing the navigating system and interaction design. The project has attracted interest from the UNNC library.
