

# 1+1=3 december 2020→ print and distribution

- 1) Decide how many papers to print and write it in the shared google doc:  
<https://docs.google.com/spreadsheets/d/141UNRdaiQhpO14MFzouBqlm21jQEAV1oZUxhI6FopwE/edit?usp=sharing>
- 2) Write also some notes on where/who you distribute to, and your city. This is important because in the future we want to create a world map with all the copies in the different cities.
- 3) Print and bind (rilega) your copies!

## Guidelines to print:

- Print all pages
- Set the copies to how many copies you decided to print
- A4 - HORIZONTAL
- Front/back (fronte/retro)
- Black and white
- Scale: 100% -> even if there is a warning that parts of the page will be cut out!
- DON'T adapt with another %
- Margins: ZERO
- short side/edge binding (Rilegatura taglio corto) (Bindung an kurzer Kante) !!!!!!!!!!!

## guidelines to bind:

- be careful not to change the order of the pages!
- take the first 18 A4 sheets that came out of the printer
- align them carefully and fold (piegali) them exactly in the middle
- press a lot, should stay folded

**4) IF YOU HAVE ANY PROBLEM OR DOUBTS, PLEASE TELL US AND WE WILL HELP YOU PERSONALLY!**

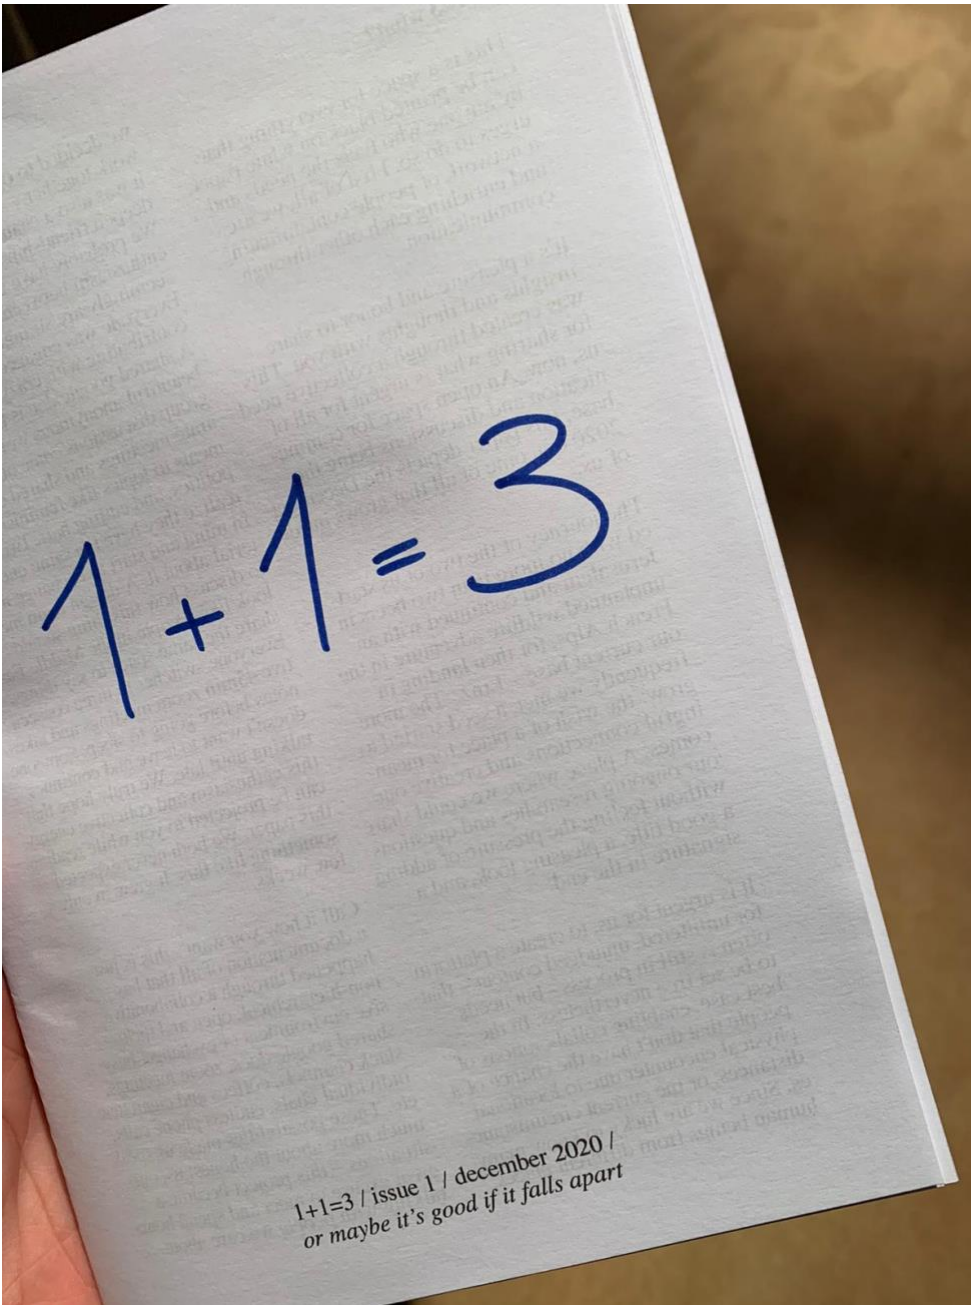

5) FOR THE COVER: **Write 1+1=3 on the cover**, with whatever pen/pencil/brush/pastel... you want, the size you want, the color you want.  
This is important because it is the design of the front cover, and you can do it.

6) Distribute it! Leave it in public spaces/museums/schools/... or give it personally to friends.  
Possibly, offer also something to drink to your friends and explain them what we are doing!

7) if you need more copies, just print more but remember to change the data in the same shared excel table:

- 8) if you find someone else who wants to print it, please add this person to the same excel sheet with all the information regarding email, number of copies and place, etc.
- 9) if you take pictures of your new little paper babies, please send them to us so that we have a sort of documentation that will be useful in the future! You can put videos/pictures/screenshots/whatever here:
