SINGER LAREN

Starting May 22, 2025, Museum Singer Laren will open its doors to a remarkable new exhibition inspired by the life philosophy of Princess Irene. Wij zijn natuur / We Are Nature draws attention to the profound connection between humans and the natural world—a relationship that has long been under strain. "We've distanced ourselves from nature, even though we are inherently a part of it. By reconnecting with nature—and with one another—we can build a future where the well-being of all life is truly honored."

Together with art director and exhibition curator Maarten Spruyt, Princess Irene has invited a group of international artists who share her vision. Their works act as windows into the interconnectedness of all living things.

I'm really happy to be one of the artists invited. In the next week I'm going to build my installation in the 'Nardinc Galerij'. I will show more about it in the next newsletter.

22 May - 31 August 2025

Open every Tuesday until Sunday 10am - 5pm
