

NAN * KYUNG

KIM

I am a graphic designer from Seoul, South Korea, currently based in Toronto, Canada. With a detail-oriented personality and a keen eye for creating impactful visuals, I create organized and thoughtful designs by solving problems with intuitive solutions.

I find inspiration in my everyday moments by going for a walk or listening to music, which also allows me to recharge and spark new ideas. In my spare time, I also enjoy designing merchandise and graphics inspired by my favorite Korean rock band as a creative refresh.
