LOGO SPACING

A minimum area of space must always surround the the logo and logomark. This area of clear space allows for the logo to stay visually distinct from the elements around it.

These rules apply to all brand lockups.

LOGO USAGE

The Voyager logo is adaptable for a wide variety of situations and backgrounds. Below are some common logo treatments.

These rules apply to all brand lockups.

Solid color background

Photographic background

If necessary, a black (#0D0D0D) overlayer of 40% opacity can be applied.

LOGO MISUSE

These rules apply to all brand lockups.

Do not invert mark and logotype

Do not flip

Do not adjust the spacing

Do not skew

Ensure enough contrast between foreground and background

Do not use colors outside of the brand

COLORS

The brand colors of Voyager are carefully selected to help communicate their mission and tone.

TYPOGRAPHY

We recommend Maison Neue to serve as the brand font for the Voyager family. Maison Neue is a forty font superfamily including subtly condensed original version, an extended counterpart, a mono-spaced alignment—giving us a wide range of typographical optionality for the brand across all business units.

Maison Neue

*Released in 2012. Revised in 2017.
V. 3.002*

Maison Neue has been meticulously redrawn to be less formulaic and have a stronger focus on optical criteria to create a distinct grotesque paying greater attention to harmony, rhythm and flow.

Maison Neue was designed by Timo Gaessner as part of Milieu Grosque foundry. The core set of typefaces will cost around \$1,188 GBP (~\$1650 USD)

IMAGERY

Voyager uses photography frequently to reinforce the brand values and traits. Voyager DOES NOT engage in trite imagery of “sustainability”.

Seeing nature in new ways.

Patterns and complexities of foundational technology.

BRAND ELEMENTS

To convey motion, the mark can be used to create intricate, structured, and dynamic structures that can be used decoratively. This can be used in collateral from print to digital, and is a recognizable brand element.

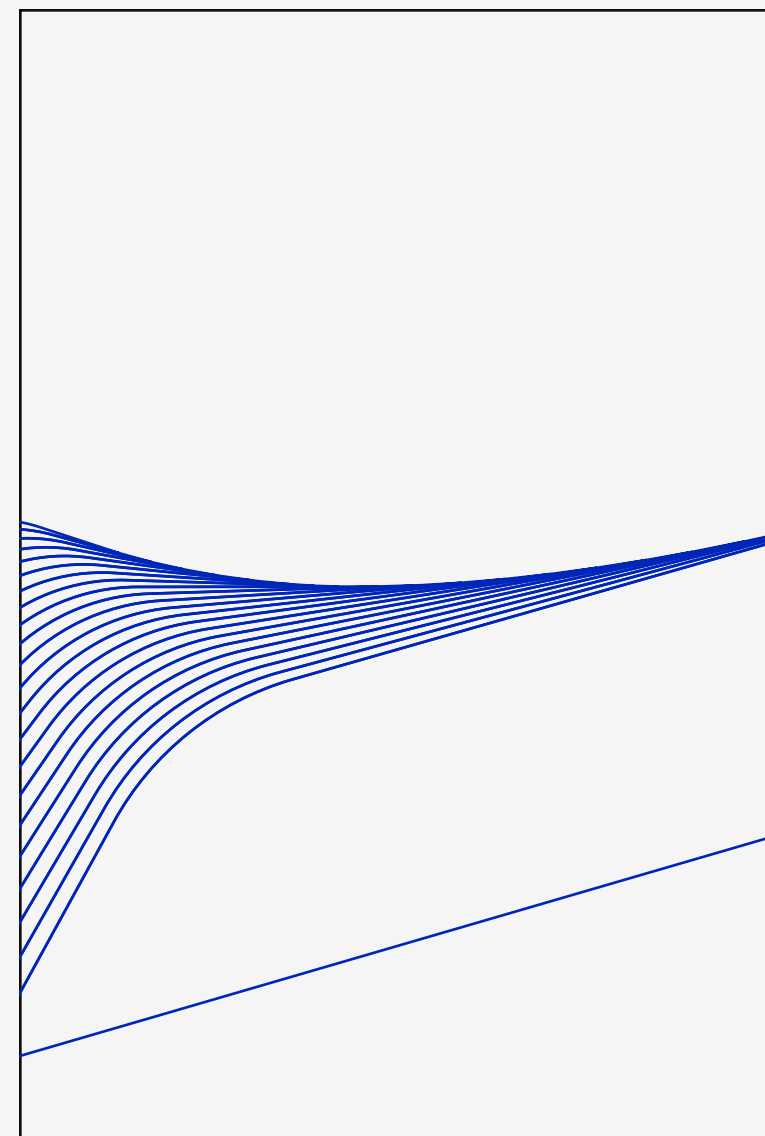

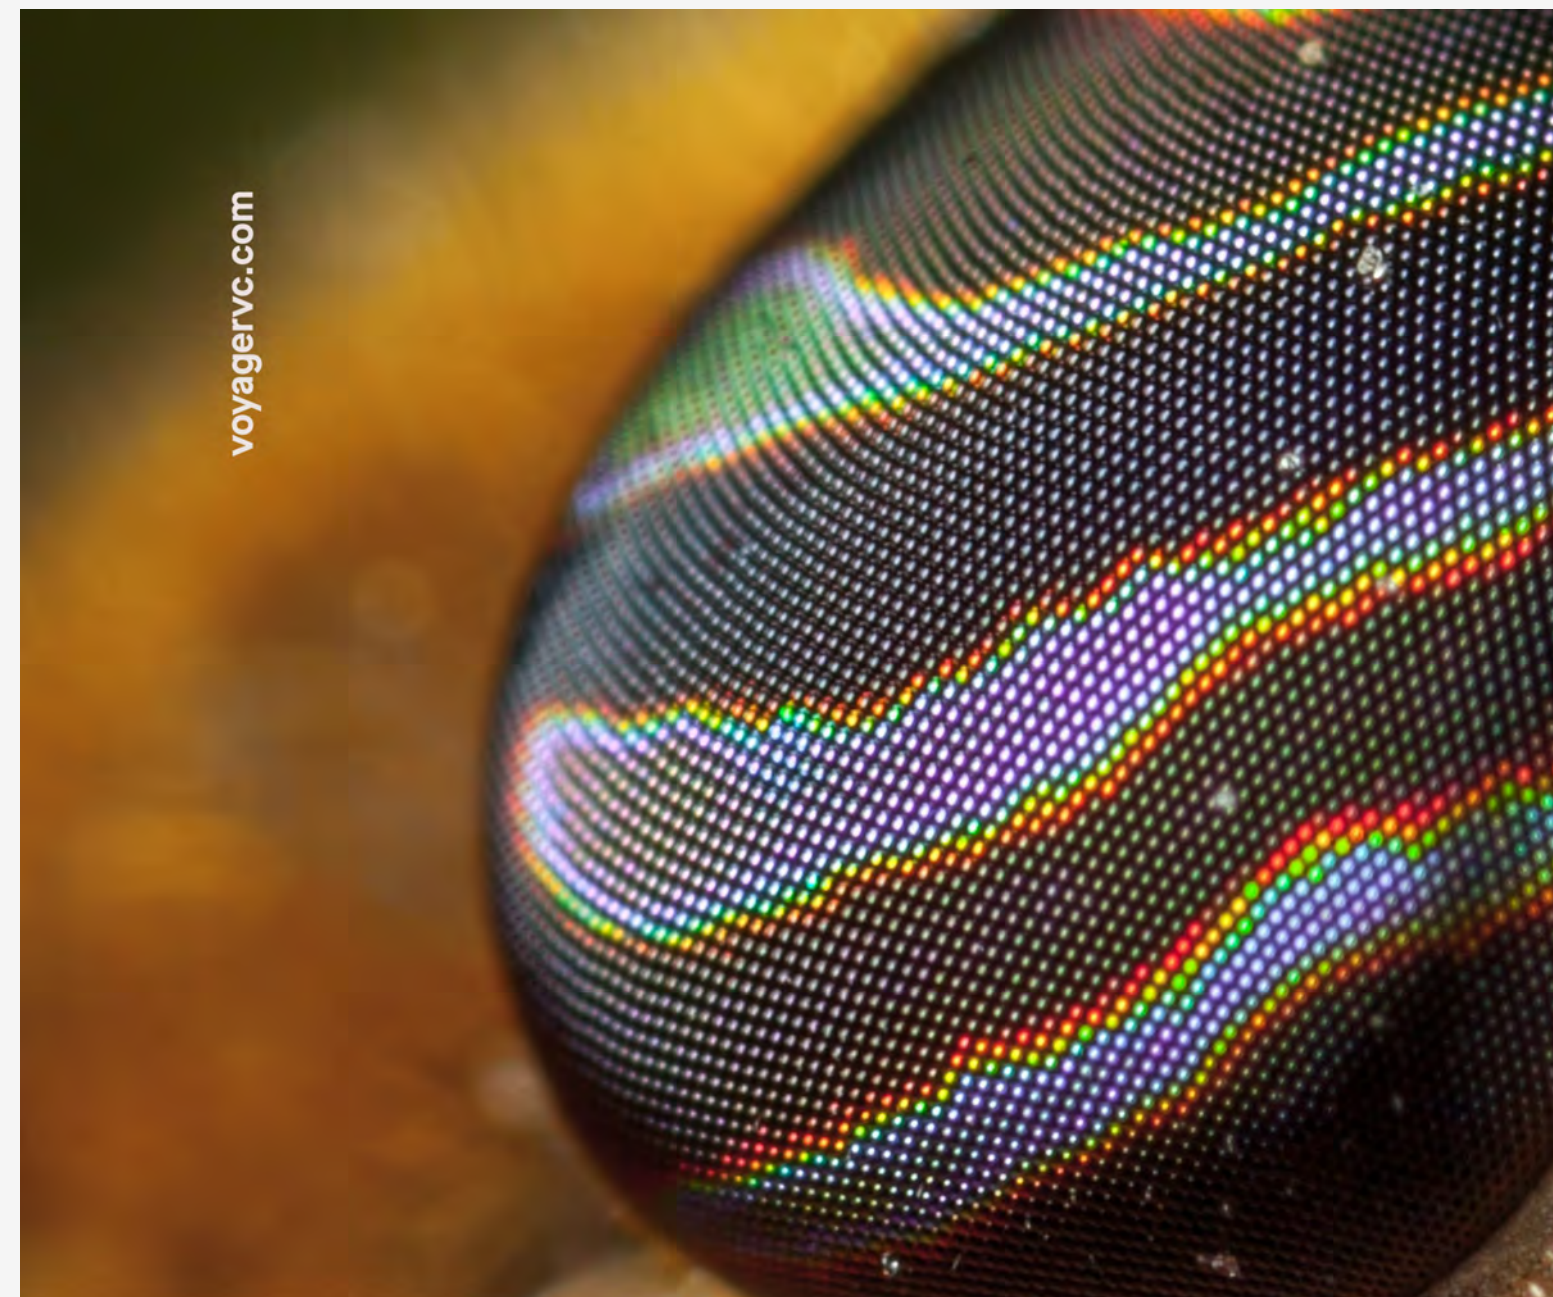

To recreate this effect in Adobe Illustrator 2022

Object → blend options → specified steps → 20
Blend → make

To outline path and use it

Object → expand (make sure Object, Fill, and Stroke are checked)
Pathfinder → trim
