'On your side of things' is a conversation in the form of an exhibition between Laurenz and his friends from Athens, Brussels, Amsterdam, Rotterdam, Vienna and Chicago. 7 international independent spaces were invited to present their stories in the space at Linke Wienzeile 36 and to reflect on existence, precarity, new beginnings and endings. What do we do as independent spaces, for whom, under what conditions and why? Enterprise Projects, Etablissement d'en Face, Marwan, Rib, Significant Other, Switch-Hook and Winona came to Laurenz to tell us their stories about how life is on their side of things.

'On your side of things' borrows its title from W.S. Merwin's poem 'Travelling Together'.
