Personal Odyssey

Renowned Swiss watchmaker Breitling has forged a new identity for the Navitimer watch with chic design details that cultivate individualistic expression. Designed in 1952, this classic style was crafted for pilots, but with the release of the Navitimer 32 and 36 styles wearers are able to embark upon a metaphorical voyage of understanding personal identity and its associated joys. The sleek styles feature mother of pearl dials, traceable 18K red gold, and responsible lab grown diamonds with exciting pops of pastel hues and traceable beading around the bezel. Charlize Theron stars in the Navitimer- For the Journey campaign, which spotlights the Oscar winner's journey from leaving South Africa to Hollywood, a story that echoes the blueprint of the Navitimer's proverbial mantra.

Surrealism & Sustainability

With a background in apparel design, Sam Klemick is intimately familiar with the wasteful practices that exist within the fashion industry—which birthed her concept and mission for her namesake design studio: to reimagine and transform that which already exists. Driven by innovation and circular methods of creation, the design studio focuses on salvaged and reclaimed materials such as textiles and lumber. Her newest series of works, named Collection Two enables a dialogue between surrealism and traditional craft, bringing to life large-scale geometric shapes with soft silhouettes, while maintaining an ethos around consumption and sustainability through a modern and refined lens.

Tutti Fruity

Hermès pens an ode to the blossoming friendships of girlhood with the release of the Tutti Twilly d'Hermès eau de parfum. The third edition of the Twilly collection, the latest creation features distinctive ginger notes paired with delicate petals and exhilarating lychee tied together with overarching notes of musk for a refreshingly modern fragrance. The invigorating and seemingly mismatched notes represent the spontaneity of youth, aligning bold contrasting notes to defy convention in an intimate glimpse at the refined rebellion each woman holds. On the bottle, there is a signature ribbon that acts as a symbol of friendship, allowing each wearer to have a talisman of the sisterhood that bonds their kindred spirits together.

Hermès Tutti Twilly is available at Hermès boutiques across Canada and hermes.com.

Step Into Fall

FENDI's Fall 2023 Collection was dedicated to Delfina Fendi, 4th generation heiress to the Italian Fashion House. Drawing from Delfina's personal style, wardrobe and uniforms, the collection played with cut-outs, utilitarian features and textures. One of the standout pieces in the collection is The Delfina Boot, named after the show's muse. Bringing to life Kim Jones's FENDI fantasy, the full over-the-knee leather boots feature a rounded-toe and cut-outs at the knees, fastened with buckles, laces and zippers with gold hardware throughout. Styled under a number of ensembles in the Fall 2023 show, including knit dresses, trousers and skirts, The Delfina Boots are a striking display of versatility.

FENDI Fall/Winter 2023 collection is available at Fendi boutiques and fendi.com.

Frill Factor

Good Squish was founded in 2021 by Billie Cronin with the intention of creating a brand centered in an ethos of friendship and community. With humble beginnings as a living room business, Good Squish quickly grew into a meaningful company - creating handmade scrunchies, lovingly assembled in their design studio based in Hackney, East London. With a small team of seven, Good Squish is an ongoing project of collaboration—working with artists to foster connections and an initiative of bringing people together. The Hackney-based brand's handmade scrunchies lean into nostalgia and are made using primarily deadstock textiles and fabric. Committed to a transparent philosophy of sustainability, Good Squish continues to grow their community and expand their collections to include other hair accessories, as well as apparel.

KAWS and Effect

This September, the Art Gallery of Ontario spotlights the work of Brian “KAWS” McConnell, debuting his eclectic and colourful creations. McConnell uses his comedic point of view to bridge the gap between art and popular culture, crafting a larger than life style that commemorates the human spirit through technology and progress. The exhibition explores the artist's ability to infuse mass media into the art world by exploring an extensive series of wall murals, sketches, paintings, and sculptures with the pièce de résistance being his famed sculpture *The Family* (2021).

“KAWS” is on view at AGO starting September 27.

Bombón Bombshell

GUESS celebrates the dynamic mysticism of the female spirit by enlisting Spanish Argentine model Georgina Rodríguez as the face of its Fall/ Winter 2023 campaign. Shot by Nima Benat in the historic nineteenth century Santo Mauro Hotel in Madrid, the campaign provides a glimpse at the lavish opulence of Rodríguez's life. Featuring signature hourglass dresses, suiting, knitwear, and coordinated sets, the collection embodies the brand's innate sensuality, and delivers a glamorous ode to the internal strength and prowess each woman carries.

Forgotten Stories

Written and directed by Jasmin Mozaffar, *MOTHERLAND* tells the story of Babak—an Iranian Immigrant who embarks on a journey to rural Iowa to meet his fiancé's parents. The story is set in 1979—during the height of the Iran Hostage Crisis and confronts the perception of Iranian Immigrants in a patriotic post-Vietnam America. Caught between worlds, Babak faces rejection from North America and alienation from his homeland where a brutalist regime rises to power. Based on true-events lived by Mozaffar's parents—*MOTHERLAND* captures a moment in history and uncovers the violence, discrimination and hardships faced by Iranians during this time—and how history has contributed to the narrative of Iranian immigrants in America today.

MOTHERLAND premiered at TIFF this September.
