# HOW TO SURVIVE

A Poem By Comrade Liz

---

we will be brave  
we will build community  
we will nurture our skills for survival

we will channel our grief and rage into organizing  
with those around us

we will talk to, support, and lean on our neighbors

people who seem different from us and people who  
we see our reflection in

we will keep each other safe

our local business owners, elderly people and young  
people, mothers, fathers, our queer community,  
indigenous people, houseless people, incarcerated and  
formerly incarcerated people, our neighbors of all  
faiths and of all backgrounds

we will be present  
we will feel, we will feel, we will feel  
we will be honest about our emotions and about our  
needs

we will cry, and laugh, and love  
yet we will fight

we will be logical and strategic and not let fear,  
shame, or loneliness overcome us

we will listen to those who are most impacted by the  
systems that harm us, those who have been doing this  
work long before us, for their knowledge and  
guidance

we will go forward  
we will be brave

# NO WAR BUT CLASS WAR!

Statement from 'March on Billionaires Row', organized by Workers' World Party and M.A.S.S. on April 1<sup>st</sup> 2025.

---

Workers and oppressed people of the world want an end to the tyrannical dictatorship of the billionaire class. If ruling billionaires are not able to provide adequate food, housing, healthcare, or education for all, we say that the tools and the means for production should be taken from them and put into the hands of the people.

They stole it, we are coming to take it back !

We will see an end to exploitation of workers. We will see an end to racial capitalism. We will see land occupied by corporations returned to the masses for the benefit of the people. We will see all 800+ U.S. military bases and imperialist projects dismantled. We will see an end to the exploitation of all oppressed and colonized peoples!

The ruling billionaire class is using our stolen wages to fund colonialism and oppression worldwide. From Latin America and the Caribbean, to Africa and across Asia, crimes are carried out in the interests of the billionaire class. If we are to win this war against the ruling billionaires, we must connect to the struggle of the international working class.

From Sudan and Congo, to the Philippines and India, workers suffer under the same system of class exploitation that we face here in the US. In Palestine, israeli occupation forces train alongside the NYPD. The same forces that commit genocide in Gaza train the forces that imprison and kill black and indigenous peoples in Turtle Island. The system that allows billionaires to profit from the genocide in Palestine is the same system that allows them to steal worker wages in the US. It is a system that can only be beaten when we align with international struggles, and prioritize the liberation of the world's working class.

Once the people see our struggles as one, there will be worldwide peoples revolution!

# Some 100,000 rally against israel in Bangladesh's capital

Via AP News Wire

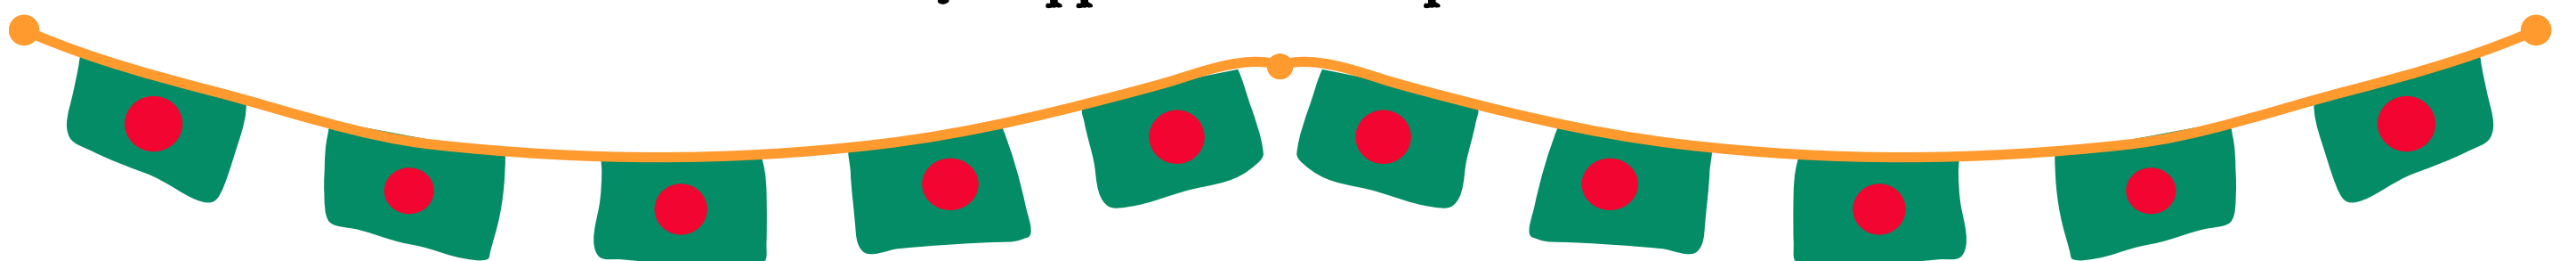

Tens of thousands of protesters have rallied in Bangladesh's capital to condemn Israel's actions in the Gaza Strip.

The protesters, estimated at some 100,000, gathered at the Suhrawardy Park in the Dhaka University area. They carried hundreds of Palestinian flags and chanted slogans such as "Free, Free Palestine."

Many among them beat the images of U.S. President Donald Trump, israeli Prime Minister Benjamin Netanyahu and Indian Prime Minister Narendra Modi, accusing them of backing israel. Symbolic coffins and effigies representing civilian casualties were carried during the rally.

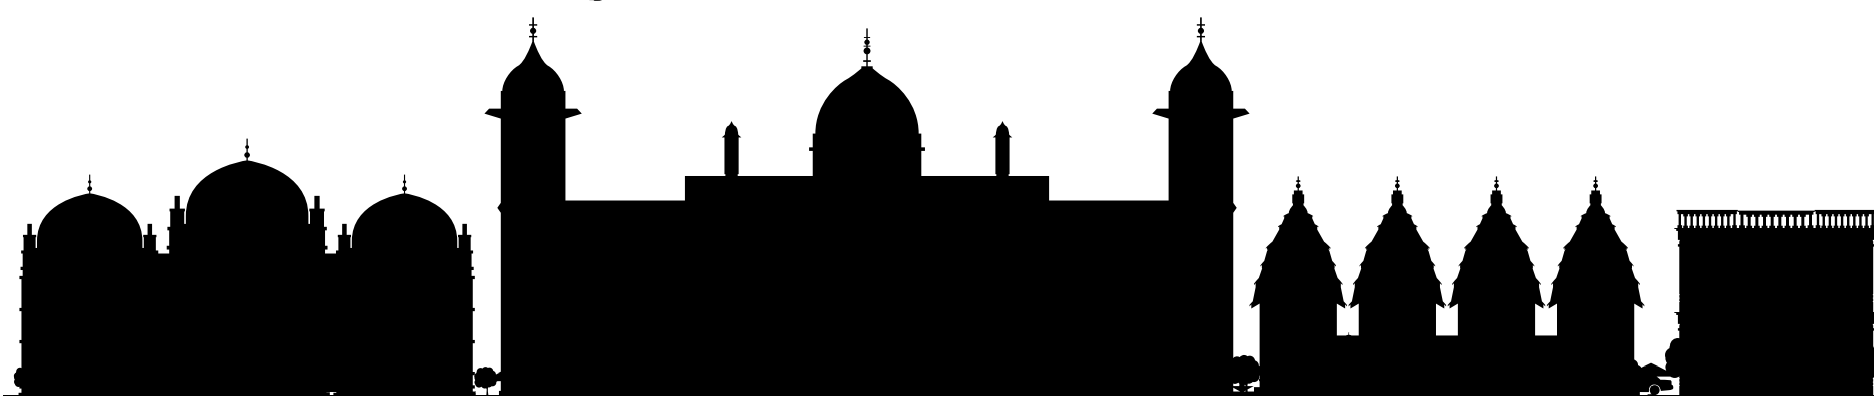

The Bangladesh Nationalist Party, headed by former Prime Minister Khaleda Zia, and Islamist groups and parties expressed their solidarity with the rally.

Bangladesh, a Muslim-majority nation of 170 million people, maintains no diplomatic relations with Israel and it officially supports an independent Palestine.

As a mutual aid we are dedicated to revolutionary action and empowering the masses (you and me and everyone else) into taking control of our lives, taking agency of our decisions and fighting for an equitable world.

We want the focus of our distro to remain reciprocal, maintaining a communal responsibility for our livelihood. We encourage people in the neighborhood who see us to think of ways in which they can contribute to the lives of their own neighbors.

You can make trays of food, give us those old shoes that have been sitting in your closet, or donate your time or skills to help us connect with the community. Everything is reallocated within Kensington, but imagine how much good could be done if we had a robust network of neighbors willing to share the necessities.
