Hede Rytmer

Re-branding (BA Project)

Overview

The rebranding of Hede Rytmer was initiated to modernize and elevate the festival's visual identity, which previously lacked cohesion, relevance, and emotional resonance—especially with younger audiences. The goal was to create a visual language that communicates the festival's energy, warmth, and local spirit, while positioning it more clearly in a competitive cultural landscape.

Brief

The task was to develop a new visual identity for the established Silkeborg-based music festival, Hede Rytmer. The new identity had to reflect the core atmosphere of the festival—vibrant, rhythmic, and inclusive—while appealing to a younger, culturally conscious audience. At the same time, the identity needed to respect the existing legacy and local anchoring of the event.

Outcome

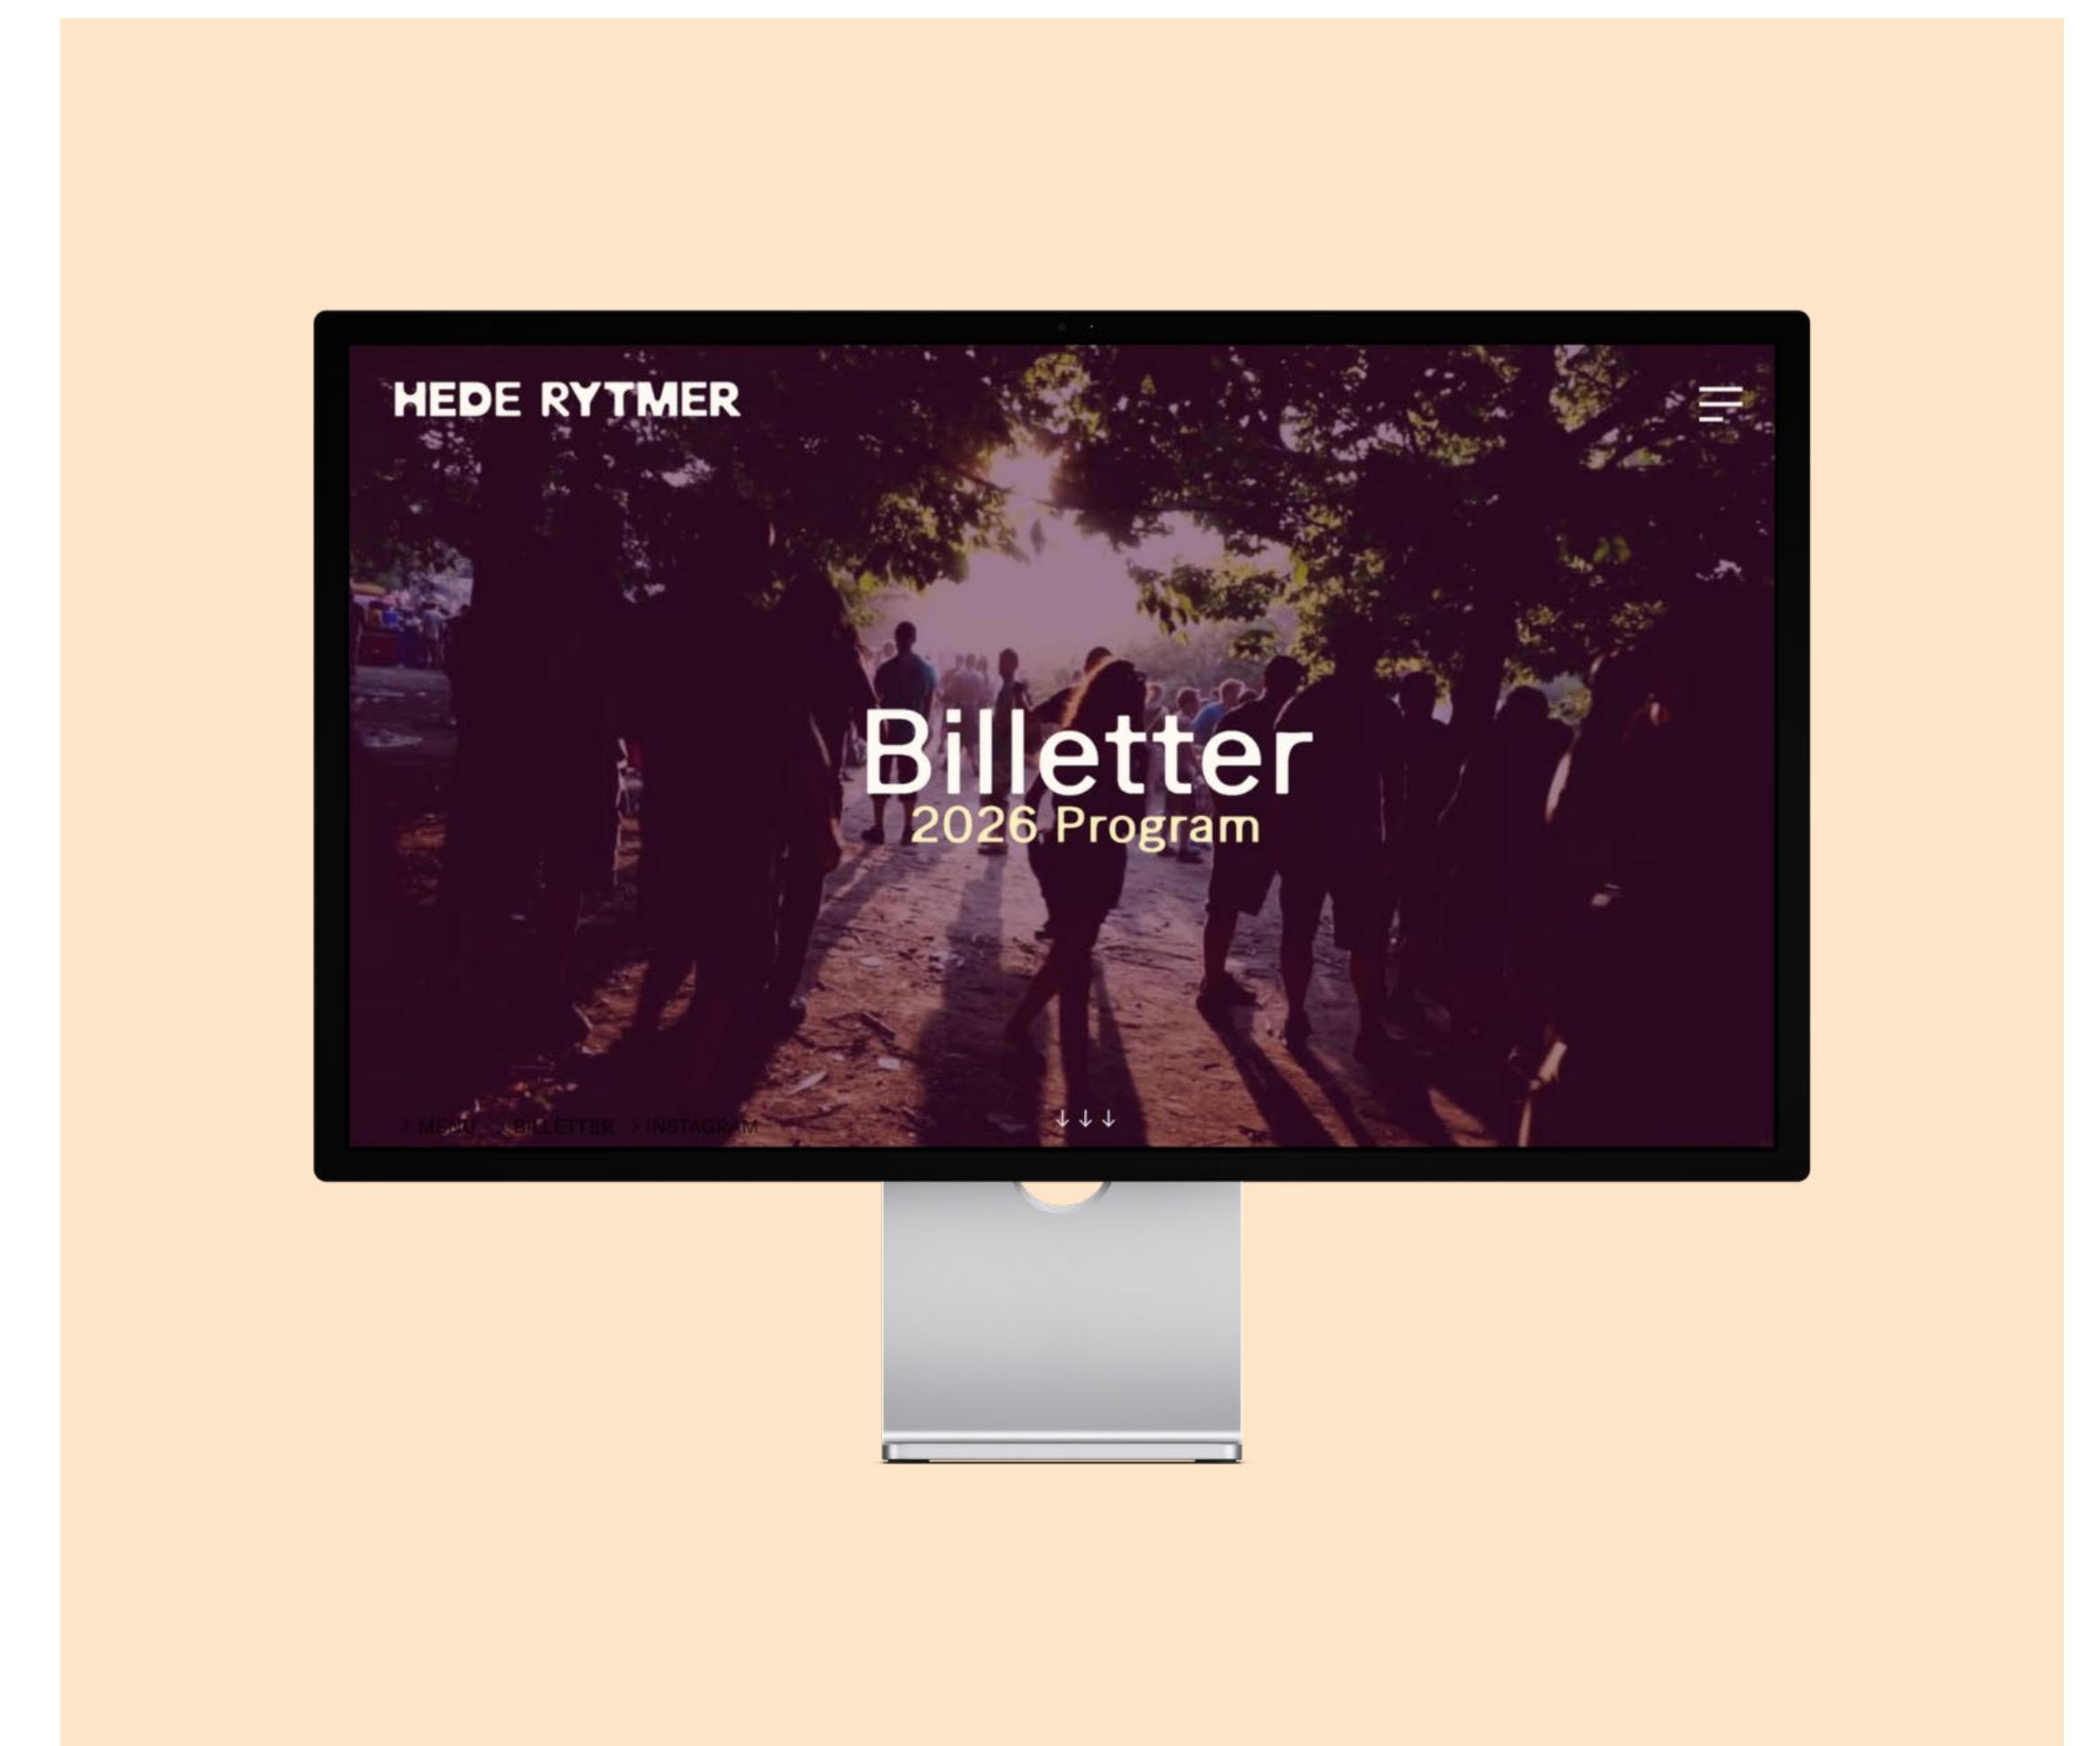

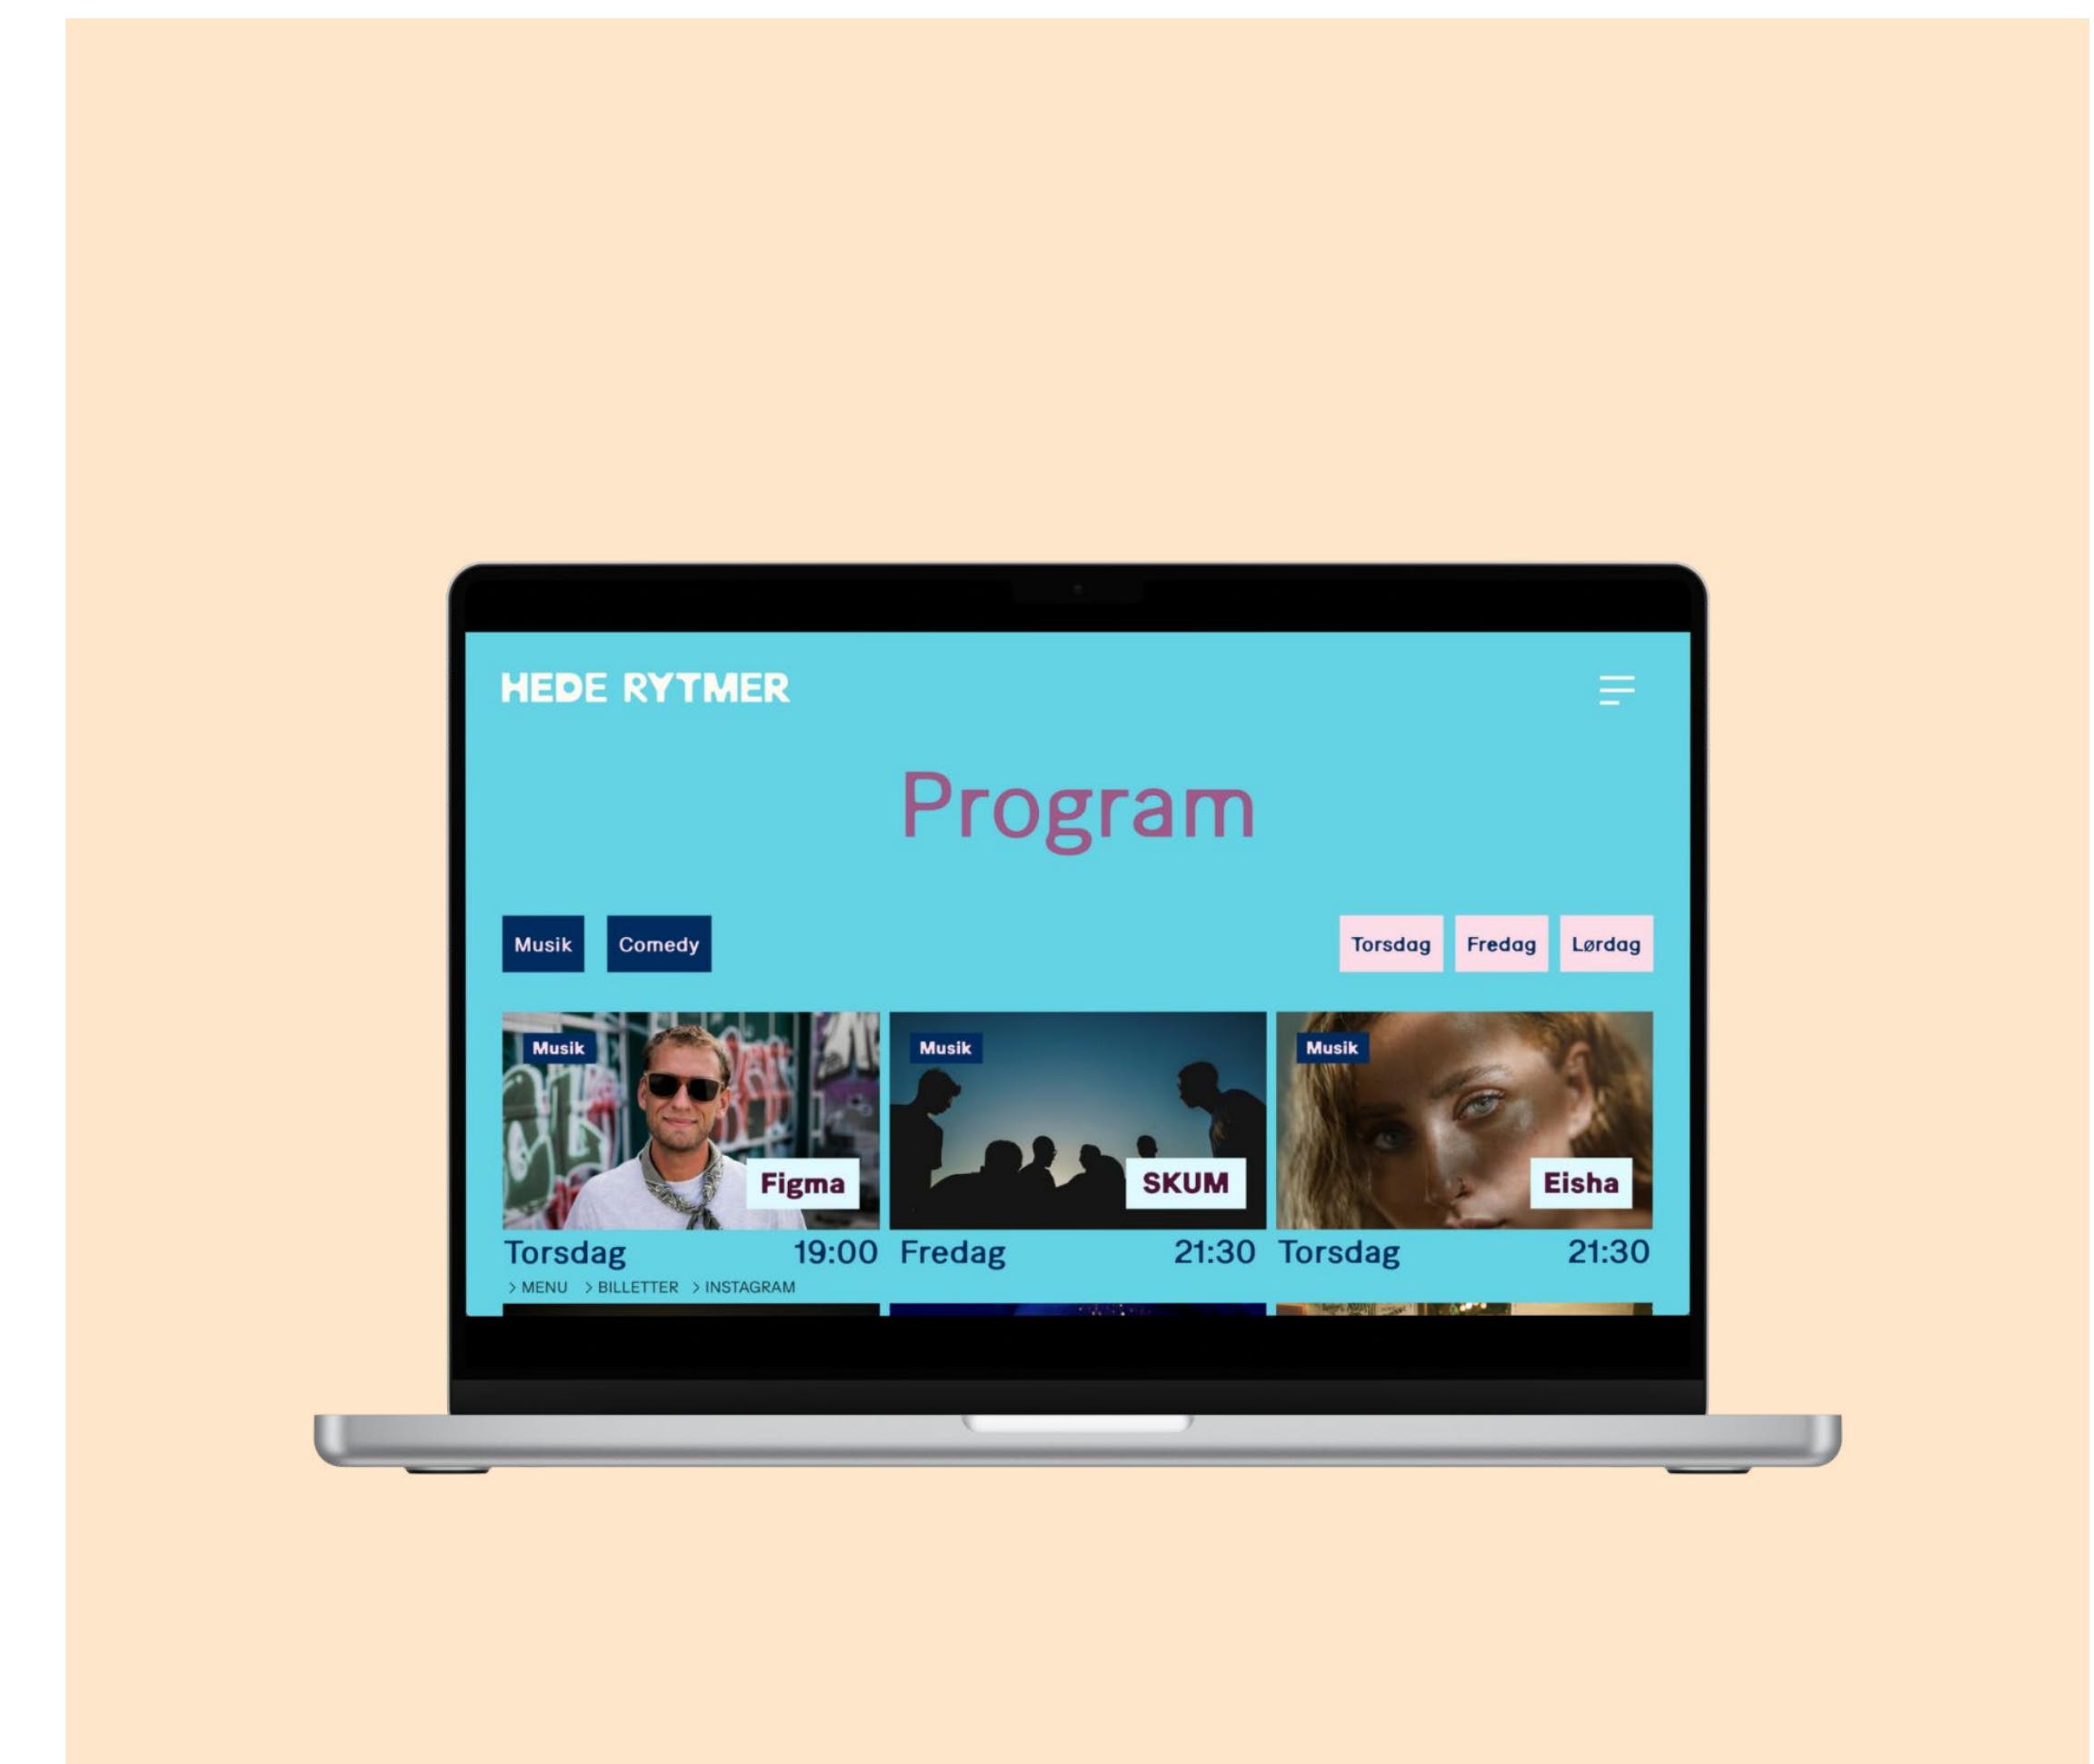

The result is a fully renewed visual identity built around a flexible logo system, a bold and energetic color palette, and typography with strong character and rhythm. The identity reflects the emotional core of the festival—togetherness, joy, and movement—and is designed to work across formats, from posters and wristbands to digital content and merchandise.

Production

The new identity for Hede Rytmer has been rolled out across various festival touchpoints — including posters, wristbands, wayfinding, merchandise, and digital assets. The flexible design system ensures a cohesive yet dynamic visual presence throughout the entire festival experience.

DBU Pigeraketten

Re-branding

Overview

The rebranding of DBU Pigeraketten was necessary as the old visual identity was outdated and did not meet DBU's visual identity requirements, even though it is a subbrand. In close collaboration with DBU, we developed a new visual identity tailored to the target audience of girls aged 5-9 years, as well as their parents.

Brief

The task was to create a new visual identity that aligns with DBU's standards for subbrands while appealing to young girls and their parents. Pigeraketten is a nationwide initiative where football clubs host fun football days for girls, with the goal of encouraging them to join the clubs after an unforgettable experience.

Outcome

The new visual identity incorporates a playful color palette (without being 'too girly') and a required planetary theme, fulfilling DBU's criteria for a subbrand. The design is aimed at engaging the target group and creating a welcoming and fun atmosphere for both the girls and their parents.

Pigeraketten has required the production of many visual elements beyond the core identity. Here is a small selection of the numerous ongoing projects we are currently working on for the brand.

Kære Nøgleperson

Tak fordi du vil være vært for Pigeraketten og sammen med os skabe de bedste forudsætninger for, at så mange piger som muligt oplever, hvad en fodbold kan i fællesskab med andre.

I denne mappe og online har vi samlet de materialer og den vejledning, du skal bruge for at sikre en god og svag oplevelse for deltagene – både før, under og efter afviklingen.

Pigeraketten handler om fællesskab og fodbold. Om de første skridt af en fodboldbane mere end færdigheder og du er som frivillig en uovertrædelig hjælp og ikke mindst forbillede for en gruppe forhåbentlig nye medlemmer i klubben.

Tak igen og rigtig god fornøjelse med forberedelsene!

Alliance for et tryggere natteliv

Overview

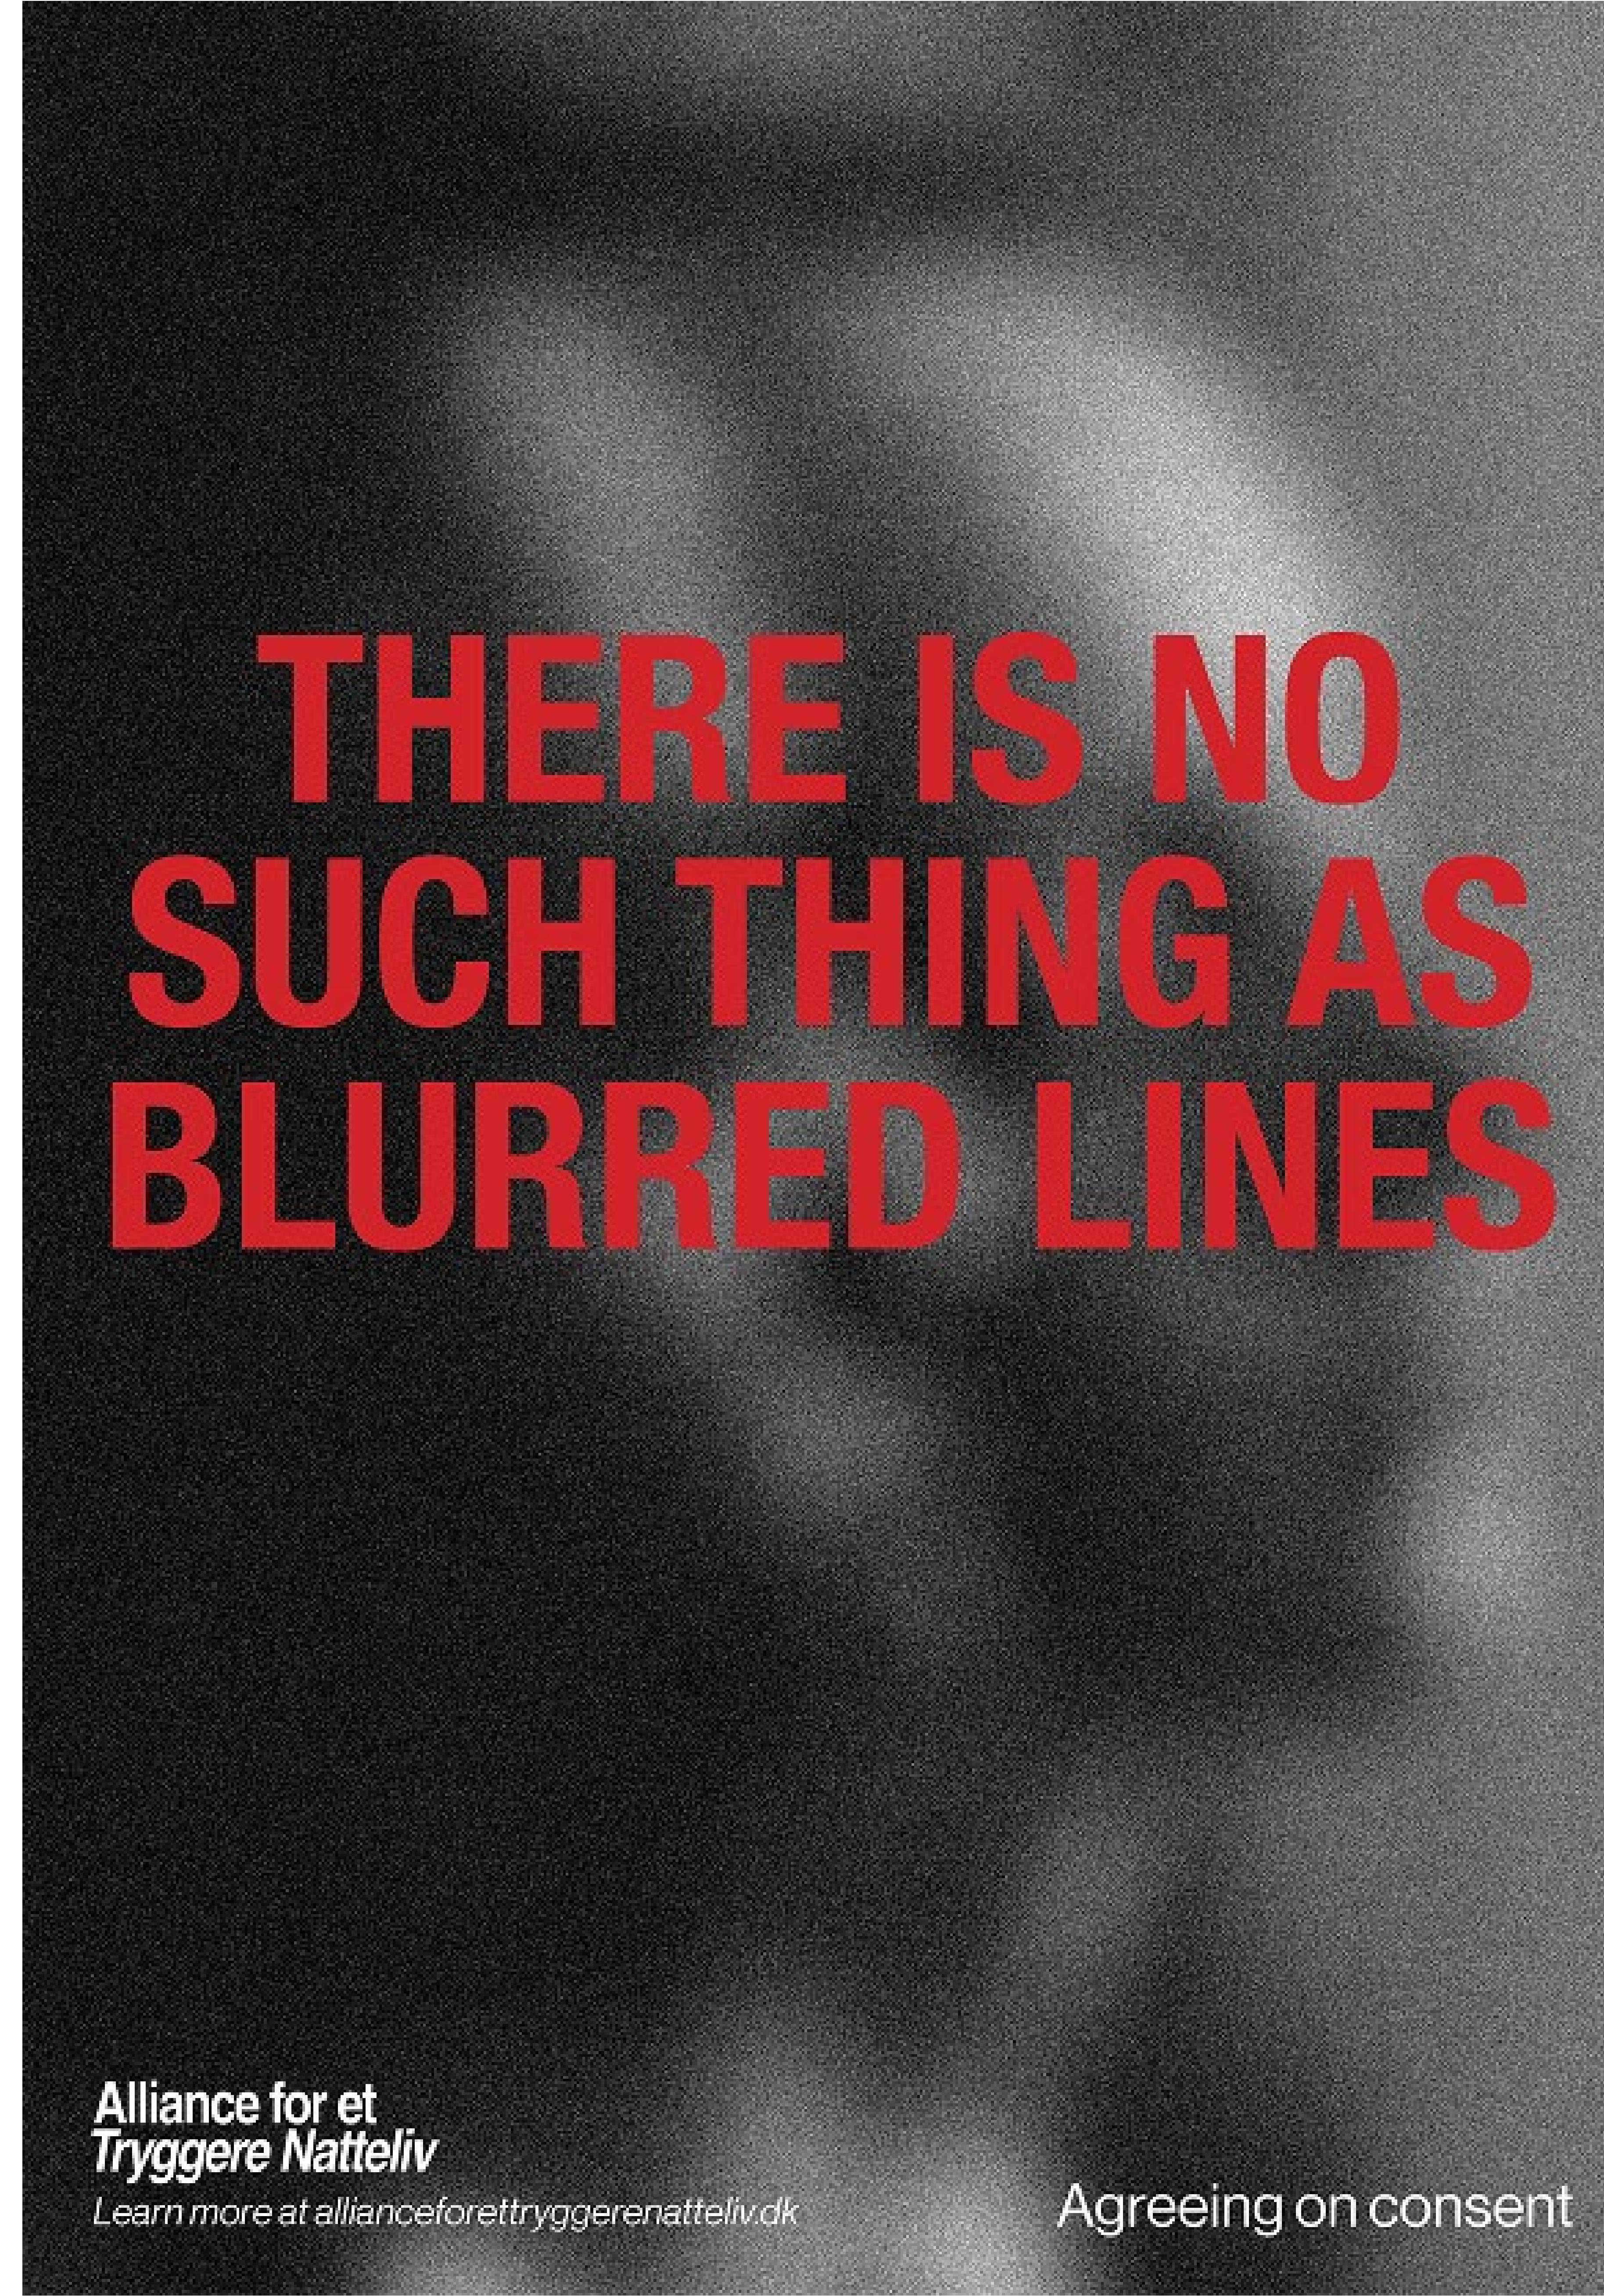

There is a widespread need to raise awareness about consent, as many feel that insufficient education has been provided on the matter. Our design challenge was to create a solution that addresses this issue by visually depicting when consent is present.

Brief

The goal was to develop a design solution that contributes to a safer nightlife by improving consent education. The concept aims to promote clearer communication and understanding in social spaces, especially at night, focusing on both verbal and non-verbal cues.

Outcome

The resulting design approach seeks to bridge the gap in consent education by creating a clear and effective visual language that communicates consent. By emphasizing the importance of both verbal and non-verbal cues, the design aims to raise awareness and encourage more open conversations about consent in various contexts.

Copenhagen Jazz Festival 2024

1 year examination (DMJX)

Overview

This project was part of my first-year exam, where we were tasked with developing a visual concept for Copenhagen Jazz Festival 2024. My graphic element—a bold blue brushstroke—became the foundation of the entire design.

Outcome

The brushstroke symbolizes the dynamic rhythms of jazz and emerged spontaneously while I was at home listening to jazz and working with analog tools. Inspired by the flow of the music, I painted intuitively to the rhythm, resulting in the blue brushstroke that became the core of my concept.

Production

The design is innovative, dynamic, and abstract, showcasing a unique style that reflects my personal approach to visual storytelling.

MEGA Portrætter

Editorial design

Overview

A book showcasing Maria Torp's Mega Portraits, depicting some of the world's most influential advocates for equality. The design aims to emphasize the striking power of her portraits while creating an engaging and immersive reading experience.

Outcome

A visually striking and conceptually engaging book that enhances Maria Torp's artistic vision while inviting the reader to engage with the content in a dynamic and thought-provoking manner.

Cover and style

The book's layout was designed in grayscale to accentuate the bold colors of the portraits. For the cover, I integrated elements from Maria Torp's own portraits onto an image of herself, making her both the creator and a part of the visual narrative.

Additionally, key sections such as the colophon, table of contents, and bibliography are reversed, compelling the reader to interact with the book in new ways. The Mega Portraits section, placed at the heart of the book, is positioned for optimal viewing, ensuring that the reader fully experiences the depth and detail of each artwork.

Det eneste territorium, vi rent faktisk ejer, er vores krop. Og selv det territorium er altid under angreb."
